

The Ridolfi Plot

Throughout her reign, Elizabeth I was the target of many plots to overthrow her. This was particularly the case while her Catholic cousin, Mary, Queen of Scots, still lived. Elizabeth genuinely desired to take a middle road in matters of religion and show tolerance towards those who did not follow in the Protestant faith of her father, Henry VIII. Despite this, there were people who wanted to see the queen removed and the country returned to Catholicism. One such man was Roberto Ridolfi.

He led an abortive attempt to place the Scottish Mary on the English throne.

Roberto Ridolfi

Roberto Ridolfi was a financier born in 1530 to an affluent Florentine family. As a young man, he trained as a merchant and banker and became adept at his trade. Business called him to London in 1555 and he remained there, working for Mary I's government until her death three years later. Despite his Catholicism, Elizabeth kept Ridolfi on when she became queen and he earned the trust and respect of the new Protestant government. They were soon to discover that this trust was misplaced.

While she was still alive, Mary, Queen of Scots, posed a threat to the crown of Elizabeth I. However, as Mary was imprisoned, it was her mere existence that was the danger. Plots to remove Elizabeth from the throne generally centred around the idea of replacing her with Mary. Mary herself may well have been ignorant of these plots, or even if she did know, she was unable to assist in overthrowing the government.

The Conspiring Trio

Especially at the beginning of her reign, even though Elizabeth denounced much lenient towards Catholics, considerable discontent amongst followers of the religion remained. Ridolfi's strong Catholic sympathies eventually guided him into action. Norfolk's desire, after half-hearted, to replace Elizabeth with his lover, Mary, provided the perfect opportunity. The two men joined forces. A third man, John Leslie, Bishop of Ross, and Mary's ambassador in England, completed the trio of conspirators. Their plan was based

around the idea that Norfolk would invite a Catholic monarch to England. While Elizabeth was distracted by this relatively minor threat, support for the revolution would arise from overseas from England's arch-enemy, Spain. Ridolfi set off immediately to recruit support, not only from King Philip of Spain, but also from Pope Pius V.

Bailie Blunders Plot

The plan never got off the ground. In April 1571, Ridolfi's messenger, Charles Bailie, arrived at Dover carrying letters about the plot. Hearing

been tipped off, Elizabeth's representatives were waiting for him. The letters were incriminating enough, but Bailie, fearing for his own life, also offered a full confession. This implicated many of the conspirators. The grand plans of Ridolfi and Norfolk to restore Catholicism to England were over before they had even begun.

Punishing the Perpetrators

Whether or not Mary, Queen of Scots, actually knew anything about Norfolk's plan is open to question. There were certainly many plots to place her on the English throne that she knew nothing about and would not have encouraged even if she had. Whatever the situation, Elizabeth showed remarkable forbearance in dealing with those who had plotted to kill her. John Leslie, Bishop of Ross, was imprisoned for two years. Mary was allowed to live, but placed under more vigilant guard. Norfolk, however, was too much of a danger to be allowed to live and was executed for treason. As for Roberto Ridolfi, he was absent at the time the plot was uncovered and so escaped without punishment. He returned to his native Italy where he became a Florentine senator.

John Leslie, Bishop of Ross, was the third and final man to join forces with Roberto Ridolfi and Thomas Howard. His Duke of Norfolk and eventually what came to be known as the Ridolfi Plot. Mary's ambassador in England, was imprisoned for two years for Elizabeth following the discovery of the plot.

The Eye of the Crown Kristin M.S. Bezio,2022-08-19 This volume discusses the development of governmental proto bureaucracy which led to and was influenced by the inclusion of professional agents and spies in the early modern English government In the government's attempts to control religious practices wage war and expand their mercantile reach both east and west spies and agents became essential figures of empire but their presence also fundamentally altered the old hierarchies of class and power The job of the spy or agent required fluidity of role the adoption of disguise and alias and education all elements that contributed to the ideological breakdown of social and class barriers The volume argues that the

inclusion of the lower classes commoners merchants messengers and couriers in the machinery of government ultimately contributed to the creation of governmental proto bureaucracy The importance and significance of these spies is demonstrated through the use of statistical social network analysis analyzing social network maps and statistics to discuss the prominence of particular figures within the network and the overall shape and dynamics of the evolving Elizabethan secret service The Eye of the Crown is a useful resource for students and scholars interested in government espionage social hierarchy and imperial power in Elizabethan England *Portraits in British History* Ronald Pollitt, Herbert Franklin Curry, 1975 **A History of England and the British Empire in Four Volumes: 1485-1688** Arthur Donald Innes, 1937
