Be Stopped *Right Turn* Michael Schaller, 2007 An entire generation has passed since the election that installed Ronald Reagan into the White House This brisk narrative fills a significant gap in the literature on recent U S history making use of diverse memoir material journalistic accounts biographies and specialized policy studies including those produced recently Rather than focusing solely on the Reagan and Bush administrations or presidencies *Right Turn* addresses the various policy cultural social economic and technological issues that made the 1980s and early 1990s such an interesting product of the events that proceeded it and such a vital force in American life that followed Beginning in the late 1970s and concluding in the early 1990s this book examines how conservative ideas and organizations reemerged from the shadows of the Great Depression and the New Deal It describes national politics and public policies implemented by conservative Republicans the dramatic climax of the Cold War and the ways in which economic legal social and cultural developments affected ordinary Americans in all their diversity Featuring numerous photographs throughout and detailed guides to specialized readings at the end of each chapter *Right Turn* is ideal for history and political science courses that cover post 1945 America as well as the 1980s and 1990s Publishers description *Choice* ,2007-03 **The People Shall Rule** Robert Fisher, 2009 With the election of a community organizer as president of the United States the time is right to evaluate the current state of community organizing and the effectiveness of ACORN Association of Community Organizations for Reform Now Since 2002 ACORN has been dramatically expanding and raising its national profile it has also been weathering controversy over its voter registration campaigns and an internal financial scandal The twelve chapters in this volume present the perspectives of insiders like founder Wade Rathke and leading outside practitioners and academics The result is a thorough detailing of ACORN s founding and its changing strategies including vivid accounts and analyses of its campaigns on the living wage voter turnout predatory lending redlining school reform and community redevelopment as well as a critical perspective on ACORN s place in the community organizing landscape *The Economist* ,1872 **Union, Nation, Or Empire** David C. Hendrickson, 2009 Shatters the conventional belief that American foreign policy was borne out of a reaction to Pearl Harbor revealing instead a rich history of debates over the direction of American international relations many of which persist to this day *The Political Economy of Democracy and Tyranny* Norman Schofield, 2009 One theme that has emerged from the recent literature on political economy concerns the transition to democracy why would dominant elites give up oligarchic power This book addresses the fundamental question of democratic stability and the collapse of tyranny by considering a formal model of democracy and tyranny The formal model is used to study elections in developed polities such as the United States the United Kingdom the Netherlands Canada and Israel as well as complex developing polities such as Turkey The key idea is that activist groups may offer resources to political candidates if they in turn adjust their polities in favor of the interest group In polities that use a first past the post electoral system such as the US the bargaining between interest groups and candidates creates a tendency for activist groups to coalesce in polities such as Israel and the Netherlands where

the electoral system is very proportional there may be little tendency for activist coalescence A further feature of the model is that candidates or political leaders like Barack Obama with high intrinsic charisma or valence will be attracted to the electoral center while less charismatic leaders will move to the electoral periphery This aspect of the model is used to compare the position taking and exercise of power of authoritarian leaders in Portugal Argentina and the Soviet Union The final chapter of the book suggests that the chaos that may be induced by climate change and rapid population growth can only be addressed by concerted action directed by a charismatic leader of the Atlantic democracies **Women at the Polls** Cal Clark, Janet Clark, 2008 Since 1980 most elections in the United States have been marked by a gender gap in which women are more supportive of Democratic candidates than men by nearly ten percentage points Women at the Polls finds that this gender gap is quite extensive as it exists in almost all demographic groups and as it is based on similar differences in the political attitudes of women and men over a wide array of issues This suggests that women are becoming an important constituency in U S politics Radicalizing the Ebony Tower Joy Ann Williamson, Joy Ann Williamson-Lott, 2008-04-12 This is a profoundly moving story of Black colleges in Mississippi during a watershed moment in their history It is also the story of young Americans trying to balance their pursuit of higher education with the parallel struggle for civil rights Radicalizing the Ebony Tower examines colleges against the backdrop of the black freedom struggle of the middle twentieth century a highly contentious conflict between state agents determined to protect the racial hierarchy and activists equally determined to cripple white supremacy Activists demanded that colleges play a central role in the Civil Rights Movement a distinct challenge to the notion of the ivory tower while state agents demanded that colleges distance themselves from the black freedom struggle and promised to mete out harsh penalties if they did not Through the words and deeds of actual participants this path breaking study documents how activists ultimately transformed non political institutions into laboratory agents *The USA and the World* Charles H. Cutter, David M. Keithly, 2005
