energies to attain enlightenment Inspired by alchemists of the past R E Kretz explores the mechanics of the Philosophers Stone the Pythagorean transmigration of the soul and the alchemical path for attaining enlightenment The author details an illustrative geometric approach for the creation of the Philosophers Stone using an oblong square created by three overlapping circles with the center circle squared the same shape described in Freemasonry as the form of a Masonic Lodge He compares this diagram to depictions of the Stone in Mesopotamian Egyptian and Hindu cultures as well as floorplans for European cathedrals showing how the sacred geometry of the oblong square elucidates man as mind body and spirit encapsulating a soul Describing the relationship between the alchemical oblong square and the electrical circuit of the brain the author details the operative process of the Philosophers Stone likening it to the servomechanism of the third eye located between the twin pillars of the cerebral hemispheres He explores how to navigate the twin pillars of the brain to find equilibrium the third pillar When the energies of our third eye are in equilibrium we resonate as a harmonic waveform generator and he shows how this can be achieved through meditation and the synchronizing vibration of vocal mantras Drawing on the work of Rosicrucianism Freemasonry Hermeticism sacred geometry and Native American shamanism this book presents an allegorical quest for the Philosophers Stone and a path for attaining enlightenment **The Rulers Above:**
