Right Destination Wrong Road:

God Alone Is the Truth and the Way Frederick Mahan, 2008-07 Many people are unsure about how to live righteously in today's uncertain world where morals are rapidly declining. *God Alone Is the Truth and the Way* is a step by step guidebook that will reveal the cause and effect of the lies we believe, teach you how to take the blinders off, change your way of life and live with a sense of peace. America and Americans are making the same fatal flaws that signaled the demise of Rome and the Romans and other once prominent Western civilizations. Author Frederick Mahan attributes affluence, prejudice and the seven deadly sins to the deterioration. He analyzes the fall of other Western civilizations and compares the phenomena with what is happening in America today. Mahan then calls on insight from history, religion, literature and philosophy. He cites gifted contributors who share the truths about love, marriage, democracy and freedom and shares personal accounts of his own spiritual failures and successes. He ultimately invites and motivates you to explore a relationship with God personified in Jesus Christ. This ultimate survivor's manual will show you the way to live in an ever changing and faithless world with a sense of direction and purpose and a genuine peace of mind. Assurance in Christ's Weeping Kwasi

Ofori-Tano, 2011-02-25 This book reveals the humanity of Christ and also brings into view the tremendous love of Christ in whom there is newness and inheritance of life eternal. This book also shows the love Christ has for all people and unfolds Christ's great compassion which is at each person's disposal in times of adversity, trials, tests and persecution. The book also provides every person a picture of Christ's sincere love, care and compassion and also of His desire to see all prosper, not only spiritually but also in having all their needs met, being sustained and even receiving more than they expect. **A Place**

Called Heaven Dr. Robert Jeffress, 2017-09-05 If any of us learned we were going to move to a foreign country we'd do everything we could to learn about that place so that we'd be prepared when moving day arrived. As Christians we know some day we will leave our familiar country and be united with God in heaven. And yet many of us know very little about this place called heaven. In this enlightening book, bestselling author Dr. Robert Jeffress opens the Scriptures to unpack ten surprising truths about heaven and explain who we will see there and how we can prepare to go there someday. Perfect for believers or skeptics who are curious about heaven. **Decision, Probability and Utility** Peter Gärdenfors, Nils-Eric

Sahlin, 1988-04-29 Decision theory and the theory of rational choice have recently been the subjects of considerable research by philosophers and economists. However, no adequate anthology exists which can be used to introduce students to the field. This volume is designed to meet that need. The essays included are organized into five parts covering the foundations of decision theory, the conceptualization of probability and utility, philosophical difficulties with the rules of rationality and with the assessment of probability and causal decision theory. The editors provide an extensive introduction to the field and introductions to each part. Foundations of Mathematics and other Logical Essays Frank Plumpton Ramsey, 2013-10-15

This is Volume V in a series of eight on the Philosophy of Logic and Mathematics Originally published in 1931 this study offers a collection of logical essays around the topic of the foundations of mathematics Though mathematical teaching was Ramsey s profession philosophy was his vocation Reared on the logic of Principia Mathematica he was early to see the importance of Dr Wittgenstein s work in the translation of which he assisted and his own published papers were largely based on this But the previously unprinted essays and notes collected in this volume show him moving towards a kind of pragmatism and the general treatise on logic upon which at various times he had been engaged was to have treated truth and knowledge as purely natural phenomena to be explained psychologically without recourse to distinctively logical relations
