Constitutional Law:

Rights, Liberties and Justice 8th Edition Lee Epstein, Thomas G. Walker, 2013 Judicial decisions never occur in a vacuum they are influenced by a myriad of political factors From lawyers and interest groups to the shifting sentiments of public opinion to the ideological and behavioral inclinations of the justices Epstein and Walker show how all these dynamics play an integral part in the overall development of constitutional doctrine Drawing deeply from the spheres of political science and legal studies the excerpted case material is skillfully analyzed and presented for today's students Known for fastidious revising and streamlining the authors account for the latest scholarship in the field and offer rock solid analysis of recent landmark cases including as all the important opinions handed down through 2011 Building on the successes of the 7th edition the book's clean layout and design clearly distinguishes between commentary and opinion excerpts Not only does the design make the book an easier read for students it effectively showcases photos justice biographies and the Aftermath and Global Perspective sidebars And based on positive user feedback the authors have added even more Aftermath boxes in this new edition New cases in the 8th edition Hosanna Tabor Evangelical Lutheran Church and School v Equal Employment Opportunity Commission 2012 Snyder v Phelps 2011 Brown v Entertainment Merchants Association 2011 United States v Jones 2012 Citizens United v Federal Election Commission

Human Rights, Culture and the Rule of Law

Jessica Almqvist, 2005-09-12 This new book examines the relationship between culture and respect for human rights It departs from the oft made assumption that culture is closely linked to ideas about community Instead it reveals culture as a quality possessed by the individual with a serious impact on her ability to enjoy the rights and freedoms as recognised in international human rights law in meaningful and effective ways This understanding redirects attention towards a range of issues that have long been marginalised but which warrant a central place in human rights research and on the international human rights agenda Special attention is given to the circumstances induced by cultural differences between people and the laws by which they are expected to live The circumstances are created by differing tools know how and skills cultural equipment diverse settlements on matters that are ultimately indifferent from the standpoint of cosmopolitan moral law adiaphora and conflicts having their source in conflicting doctrines ethical religious and philosophical addressing deep questions about the ultimate purpose of human life comprehensive doctrines Each of the circumstances shifts the focus with the aim of securing effective and adequate protection of individual freedom as societies become increasingly diversified in cultural terms and issues arise of access to laws and public institutions exemption from legal obligations for reasons of conscience fair resolution of conflicts having their source in differing ethical religious and philosophical outlooks and excuse for breach of law in case of involuntary ignorance

The First Tung Chee-hwa Administration

Zhaojia Liu, Siu-kai Lau, 2002 This book is a study of the administration of Hong Kong's government under the leadership of Tung Chee hwa

during a time when Hong Kong was changing politically and economically The contributors address the following questions To what extent are government policies consistent with those of colonial rule What does one country two systems mean and to what extent has the Tung regime been successful in safeguarding this principle How responsible are external economic forces for the apparent deterioration of the Hong Kong economy Who are affected most by the restructuring of the economy and what are some of the long term implications for Hong Kong as an important world financial center How do people in general perceive these changes What are some of the most effective economic and social policy measures that the Tung government has initiated Finally how successful has the Chief Executive been during his five years in office

Law, Liberty, and the Rule of Law Imer B. Flores, Kenneth E. Himma, 2012-09-29 In recent years there has been a substantial increase in concern for the rule of law Not only have there been a multitude of articles and books on the essence nature scope and limitation of the law but citizens elected officials law enforcement officers and the judiciary have all been actively engaged in this debate Thus the concept of the rule of law is as multifaceted and contested as it s ever been and this book explores the essence of that concept including its core principles its rules and the necessity of defining or even redefining the basic concept Law Liberty and the Rule of Law offers timely and unique insights on numerous themes relevant to the rule of law It discusses in detail the proper scope and limitations of adjudication and legislation including the challenges not only of limiting legislative and executive power via judicial review but also of restraining active judicial lawmaking while simultaneously guaranteeing an independent judiciary interested in maintaining a balance of power It also addresses the relationship not only between the rule of law human rights and separation of powers but also the rule of law constitutionalism and democracy

Imperialism and Human Rights Bonny Ibhawoh, 2008-01-03 2007 CHOICE Outstanding Academic Title In this seminal study Bonny Ibhawoh investigates the links between European imperialism and human rights discourses in African history Using British colonized Nigeria as a case study he examines how diverse interest groups within colonial society deployed the language of rights and liberties to serve varied socioeconomic and political ends Ibhawoh challenges the linear progressivism that dominates human rights scholarship by arguing that in the colonial African context rights discourses were not simple monolithic or progressive narratives They served both to insulate and legitimize power just as much as they facilitated transformative processes Drawing extensively on archival material this book shows how the language of rights like that of civilization and modernity became an important part of the discourses deployed to rationalize and legitimize empire
