The Rise and Fall of the Victorian Servant Pamela Horn, 1975 Servants formed the largest occupational group in the country at the end of the nineteenth century Pamela Horn draws upon a wealth of contemporary sources and servant books as well as personal reminiscences by servants and employers **In the Service of Empire** Fae Dussart, 2022-01-27 Despite recent research the 19th century history of domestic service in empire and its wider implications is underexplored This book sheds new light on servants and their masters in the British Empire and in doing so offers new discourses on the colonial home imperial society identities and colonial culture Using a wide range of source material from private papers to newspaper articles official papers and court records Dussart explores the strategic nature of the relationship the connection between imperialism domesticity and a master servant paradigm that was deployed in different ways by varied actors often neglected in the historical record Positioned outside the family but inside the private place of the home the domestic servant was often the foil against which 19th century contemporaries worked out class race and gender identities across metropole and colony creating those places in the process The role of domestic servants in empire thus lay not only in the labour they undertook but also in the way the servant master relationship constituted ground that helped other power relations to be imagined and contested Dussart explores the domestic service relationship in 19th century Britain and India considering how ideas about servants and their masters and or mistresses spanned imperial space and shaped peoples and places within it **Feminism and the Servant Problem** Laura Schwartz, 2019-07-18 Reveals a hidden history of women's suffrage from the perspectives of working class women employed as domestic servants *Domestic Servants and Households in Rochdale* Edward Higgs, 2016-07-01 First published in 1986 At any one time in late nineteenth century England and Wales over one million men and women were described as domestic servants in the occupational category after agricultural work This title explores several aspects of domestic service in the area of Rochdale and the servant population is examined to discover who entered the service at what age and from what background they came This title will be of interest to students of history "Wer bleibt, opfert seine Jahre, vielleicht sein Leben" Susanne Heim, Beate Meyer, Francis R.
