**The Lure of the Beach**

Robert C. Ritchie, 2021-05-11 A human and global take on a beloved vacation spot The crash of surf smell of salted air wet whorls of sand underfoot These are the sensations of the beach that environment that has drawn humans to its life sustaining shores for millennia And while the gull s cry and the cove s splendor have remained constant throughout time our relationship with the beach has been as fluid as the runnels left behind by the tide s turning The Lure of the Beach is a chronicle of humanity s history with the coast taking us from the seaside pleasure palaces of Roman elites and the aquatic rituals of medieval pilgrims to the venues of modern resort towns and beyond Robert C Ritchie traces the contours of the material and social economies of the beach throughout time covering changes in the social status of beach goers the technology of transport and the development of fashion from nudity to Victorianism and back again as well as the geographic spread of modern beach going from England to France across the Mediterranean and from nineteenth century America to the world And as climate change and rising sea levels erode the familiar faces of our coasts we are poised for a contemporary reckoning with our relationship and responsibilities to our beaches and their ecosystems The Lure of the Beach demonstrates that whether as a commodified pastoral destination a site of ecological resplendency or a flashpoint between private ownership and public access the history of the beach is a human one that deserves to be told now more than ever before

The Seaside, Health and the Environment in England and Wales Since 1800 John Hassan, 2003 The seaside has always held a special position in British history as a place of rest relaxation and recuperation Over the last 200 years many have made their way to the coast attracted by the long sunshine hours the clean ozone charged air and the opportunities for bathing in and even drinking sea water Although the early health resort ideal began to give way to more pleasure orientated themes in the nineteenth century the seaside holiday was still regarded by many as a wholesome and invigorating break from inland urban life well into the twentieth century Yet with ever increasing numbers of visitors and rising levels of coastal pollution this was by no means a forgone conclusion The Seaside Health and the Environment in England and Wales since 1800 explores the ways in which English seaside resorts continually reinvented themselves to take account of contemporary trends in popular leisure and maintain their hold on the public s imagination Particular account is paid to the interwar years

when new obsessions with outdoor activities such as sunbathing and tanning were purposefully adopted by the industry to define the modern image of the resort holiday For these and other reasons the seaside holiday reached new peaks of popularity in the 1930s and 1950s yet this very success placed enormous pressures on the environmental amenities that people came to enjoy As this work shows environmental stresses were manifold particularly pollution of the resorts prime assets their beaches As such serious questions are raised concerning why it took such a long time for a determined effort to be made to reverse beach pollution and the lessons to be learned regarding the impact of negative images of the coast as a zone of danger and infection

*Historical Perspectives on Social Identities* Alyson Brown, 2006 This collection of work on the theme of identities was the result of a conference held in the spring of 2005 at Edge Hill under the auspices of The Centre for Liverpool and Merseyside Studies Whilst a significant proportion of the research focused on Liverpool and the North West the theme of identities was sufficiently broad to entice scholars from diverse and varied fields This collection therefore reflects the range of work presented and discussed at the conference and the multi layered and multi faceted nature of identity Contributors to this edited collection examined the concept of identity in Britain through a range of historical perspectives concerning themselves primarily with the later modern period They reflect the extent to which nineteenth and twentieth century British social cultural and political change has given rise to pluralist fragmented and fractured identities and highlight the extent to which class gender religious and institutional frameworks have shifted continually This publication will therefore be of interest to those working in diverse fields but who share an interest in the importance of identity as a decisive cultural social economic and political determinant Questions of identity have centred a

good deal of debate in the social sciences especially since the reception of Foucault's work in the English speaking world in the last couple of decades. This has often taken a theoretical form. Attempts to link theory with analytical practice have been strongest in the field that might be characterised as the politics of identity. At any rate this has provided an important instance of theoretical and practical conflict. Here the focus of the debate has been around questions of gender, nation, language, economy, security and race. It has tried to clarify crucial divisions in the analysis of identity as between explanatory and constitutive models and between positivist and post-positivist procedures. For the most part these intense and extensive concerns have passed by largely unnoticed among historians practising in Britain in the well found but conventional idioms of political and social history. What this conference volume seeks to do is to help redress the deficit to domesticate some of the theoretical and polemical exchanges around identity into a world of practical yet conceptually aware historical work. This is a difficult but surely worthwhile task to broach various imaginaries of identity issues of identitarian politics and questions of identity formation on a series of relatively familiar historical contexts. Of course no selection of subjects for practical research in this way can be exhaustive. The group of essays offered here is sufficiently wide and occasionally gratifyingly unexpected at least to begin the job to stimulate others and most importantly to interject theoretical concern into historical fields sometimes lacking it. Ten essays are included together with the editor's introduction. The pieces are bound together by a common strategy not a shared empirical territory. They range from studies of gendered identity formation to regional identities formed around seaside resorts to empirical questions of class and capitalism and their identitarian politics to historical analysis of mourning and on to language, nationality, deafness, motherhood and their inflection in identity in past time. This well edited combination of shared conceptual purpose and variety of empirical form seems to me to work well. The book will be widely used in a variety of historical fields not least in those which have been the most resistant to recent theoretical innovations in the social sciences.

Keith Nield, Editor *SOCIAL HISTORY*. This is a fascinating and wide ranging collection of essays linked by the over-riding theme of identity. While primarily historical in their focus the essays will be of interest to more than just historians. They raise a variety of interesting conceptual and theoretical issues from for instance the significance of the staymaker in the formation of eighteenth century female identity to the relationship between regional identity and late nineteenth and early twentieth century Lancashire seaside resorts.

*Issues in Americanisation and Culture* Neil Campbell, Jude Davies, George McKay, 2004. This textbook offers students an interdisciplinary and theoretically informed understanding of the cultural processes of Americanisation.

Tourism, Culture & Communication, 2004. **Administration**, 2001. *The Management of Small Tourism and Hospitality Firms* Rhodri

Thomas,1998 This text provides an overview of the scale and scope of small firms in the tourism and hospitality industries and examines the key issues affecting their development
