Language Behavior in Infancy and Early Childhood Rachel E. Stark,1981 **Language of Early Childhood** M.A.K. Halliday,2006-03-01 Professor M A K Halliday has been enriching the discipline of linguistics with his keen insights into the social semiotic phenomenon we call language This ten volume series presents his seminal works This fourth volume contains sixteen papers that look at the development of early childhood language They are presented in three parts *Diseases of infancy and childhood* Louis Fischer,1911 A Practical Treatise on the Diseases of Infancy and Childhood Thomas Hawkes Tanner,Alfred Meadows,1879 *pt. I. Section III: Hygiene of infancy and childhood; School hygiene. pt. II. Section IV: Hygiene of occupations* ,1913 **Three is a Crowd?** Madalena Cruz-Ferreira,2006 The book describes three siblings apportioning of linguistic and cultural space among three languages Portuguese Swedish and English Parallel strategies accounting for monolingual and multilingual language management shape a truly illuminating picture of child linguistic competence Written by a multilingual parent educator and linguist this book is for parents educators and linguists in our predominantly increasingly multilingual world *Whitaker's Books in Print* ,1990 **Grief in Childhood** Michelle Y. Pearlman,Karen D'Angelo Schwalbe,Marylène Cloitre,2010 Children vary in their response to the death of a loved one Some children develop relatively few symptoms or problems while others face significant or prolonged symptoms such as posttraumatic stress disorder or anxiety Similarly children vary in their circumstances and preferences Thus clinicians who work with bereaved children must customize interventions to meet the specific needs of each individual child This book presents Integrated Grief Therapy for Children an evidence based model for treating bereaved children that draws extensively on cognitive behavioral family systems and narrative approaches to therapy The model shows clinicians how to assess the needs of bereaved children treat common distressing symptoms depression posttraumatic stress disorder anxiety and behavioral problems and address the grief itself while fostering resilience Because emotional and behavioral problems following grief are manifested in different ways the model allows for flexibility based on the age symptom presentation and needs of the child And because the inclusion of a surviving parent or caregiver is critical to working with grieving children the model involves the parent in the interventions With a thorough literature review on bereavement in childhood extensive case examples and dialogues to illustrate therapeutic techniques and over 20 activity handouts that therapists can photocopy and use in sessions this book provides everything needed to treat bereaved children Publicity materials PsycINFO Database Record c 2010 APA all rights reserved Illustrated Catalogue and Classified Book List of the Northwestern Library Association ... and Childhood, Their Dietetic, Hygienic and Medical Treatment Louis Fischer, 1908 **Linguistic and Cognitive Aspects of Quantification** Katalin É. Kiss, Tamás Zétényi, 2018-07-25 This volume presents the results of psycholinguistic research into various aspects of the grammar of quantification. The investigations involve children and adult speakers of different languages using a variety of experimental paradigms. A shared aspect of the studies is that they present their experimental results as evidence evaluating linguistic theories of quantification. Topics discussed include the interpretation of universal, comparative and superlative quantifiers; quantifier spreading; scope: interaction between pairs of quantifiers and between quantifiers and wh-phrases; distributivity and cumulativity; the interaction of quantifier interpretation with information structure; the disambiguating role of prosody; the functional overlap between universal quantification and perfectivity; and much more. The focus on experimental evidence makes this book essential reading for linguists, syntacticians, semanticists and pragmatists, psycholinguists and psychologists interested in quantification.
