The Rise of Prussia 1700-1830 Philip G. Dwyer, 2014-02-04 At the beginning of the eighteenth century Prussia was but one in a mosaic of German states but it rose to be the unchallenged leader of German speaking Europe after the fall of Napoleon The book goes beyond the political military and diplomatic concerns of the Prussian elite whose record of events is the one upon which most histories of Prussia are based and explains its rise in relation to Prussian society as a whole Political analysis is integrated with material on such areas as agrarian society urban life and religion which are not fully examined in existing histories

Monarchy, Nation and the Common Good: Patriotism in Prussia, 1756-1806 Jaakko Sivonen, 2024-11-11 This book provides a history of Prussian state patriotism from the Seven Years War 1756 1763 until the Battle of Jena 1806 It argues that Prussian patriotism was not merely a prelude to German nationalism or a personality cult of Frederick the Great rather it was an inclusive and non ethnic movement promoting ideals of citizenship merit and empowerment Appealing to patriotism became a central method of promoting reform in a state governed by an absolute monarchy Covering a turning point in early modern European intellectual history this book provides a historical

perspective for modern discussions on the relationship between patriotism and nationalism **The Grand Strategies of Great Powers** Tudor A. Onea, 2020-08-05 What is grand strategy and what is it good for What are great powers and which states are great powers today What are the grand strategies available to great powers What are the conditions under which a certain strategy is suitable and when should it be rejected What are the factors affecting the success or failure of a given grand strategy The present volume provides answers to these questions by introducing a typology of great power grand strategies as strategies of rising status quo and declining powers as well as through historical illustrations of each type The reader is thus exposed to strategies such as divide and conquer bidding your time opportunity strike primacy semi detachment concert and appeasement through the experiences of leaders such as Bismarck Peter the Great Metternich Deng Xiaoping Neville Chamberlain and Stalin This analysis is then brought to bear on present developments in the grand strategies of the United States China and Russia The volume should be of interest to both the academic and foreign policy making communities and in particular to students of international relations diplomacy history and current international affairs
