The High Price of Materialism Tim Kasser, 2003-08-29 A study of how materialism and consumerism undermine our quality of life In *The High Price of Materialism* Tim Kasser offers a scientific explanation of how our contemporary culture of consumerism and materialism affects our everyday happiness and psychological health Other writers have shown that once we have sufficient food shelter and clothing further material gains do little to improve our well being Kasser goes beyond these findings to investigate how people's materialistic desires relate to their well being He shows that people whose values center on the accumulation of wealth or material possessions face a greater risk of unhappiness including anxiety depression low self esteem and problems with intimacy regardless of age income or culture Drawing on a decade's worth of empirical data Kasser examines what happens when we organize our lives around materialistic pursuits He looks at the effects on our internal experience and interpersonal relationships as well as on our communities and the world at large He shows that materialistic values actually undermine our well being as they perpetuate feelings of insecurity weaken the ties that bind us and make us feel less free Kasser not only defines the problem but proposes ways we can change ourselves our families and society to become less materialistic
