Ritual Cosmos The Sanctification Of Life In African Religions:

Ritual Cosmos Evan M. Zuesse, 1985 **The World's Religions** Peter B. Clarke, Peter Beyer, 2009-05-07 This comprehensive volume focuses on the world's religions and the changes they have undergone as they become more global and diverse in form. It explores the religions of the world not only in the regions with which they have been historically associated but also looks at the new cultural and religious contexts in which they are developing. It considers the role of migration in the spread of religions by examining the issues raised for modern societies by the increasing interaction of different religions. The volume also addresses such central questions as the dynamics of religious innovation which is evidenced in the rise and impact of new religious and new spirituality movements in every continent. *African Americans and the Bible* Vincent L. Wimbush, 2012-09-01 Perhaps no other group of people has been as much formed by biblical texts and tropes as African Americans. From literature and the arts to popular culture and everyday life, the Bible courses through black society and culture like blood through veins. Despite the enormous recent interest in African American religion, relatively little attention has been paid to the diversity of ways in which African Americans have utilized the Bible. *African Americans and the Bible* is the fruit of a four-year collaborative research project directed by Vincent L. Wimbush and funded by the Lilly Endowment. It brings together scholars and experts, sixty-eight in all, from a wide range of academic and artistic fields and disciplines including ethnography, cultural history, and biblical studies as well as art, music, film, dance, drama, and literature. The focus is on the interaction between the people known as African Americans and that complex of visions, rhetorics, and ideologies known as the Bible. As such, the book is less about the meanings of the Bible than about the Bible and meanings less about the world of the Bible than about how worlds and the Bible interact, in short, about how a text constructs a people and a people constructs a text. It is about a particular sociocultural formation but also about the dynamics that obtain in the interrelation between any group of people and sacred texts in general. Thus, *African Americans and the Bible* provides an exemplum of sociocultural formation and a critical lens through which the process of sociocultural formation can be viewed. *Introduction to Religious Studies* Harvey J. Sindima, 2012-07-10 In *Introduction to Religious Studies*, Harvey J. Sindima provides an unconventional approach to the study of world religions. Often books and courses on religious studies focus on the major world religions. This approach, however, frequently ignores other religious experiences such as those of various African groups as well as the indigenous people of the Americas and Australia. These less widespread religions are commonly described in pejorative terms such as primitive religions or non-literate religions. Focusing solely on well-known religions is an approach that impoverishes religious studies and deprives students of the enormous wealth of religious knowledge of the world. *Introduction to Religious Studies* pulls together the diverse religious experience of Africans, Native Americans, and the indigenous peoples of Australia in order to provide a comprehensive introduction to the study of religion and broaden the horizons of religious studies students. Under each theme or topic, examples are drawn from religions

of salvation as well as African and Native American religious traditions This book provides students with a deep wide and very rich introduction to religious studies **Kingship, religion, and rituals in a Nigerian community : a phenomenological study of Ondo Yoruba festivals** Jacob K. Olupona,1991 **Religions Today** Mary Pat Fisher,2013-11-19 Religions Today provides a sympathetic account of what living religions really are Fisher traces the historical development and practices of major religious movements and explores how these evolve into contemporary belief and teaching She considers major faiths as well as indigenous religions and new religious movements focusing on how living religions affect contemporary society Case studies and interviews with living people ensure that this concise guide is both readable and stimulating **Symbolon** ,1986 *Africa* ,1985 Includes Proceedings of the Executive council and List of members also section Review of books **Religion** Thomas William Hall,Richard B. Pilgrim,Ronald R. Cavanagh,1985

Approaching Religion International Association for the History of Religions. Regional Conference,1999 **Religion and Politics in Nigeria** Nigerian Association for the Study of Religions,1993 *The Spiritual Heritage of the Human Race* Suheil Bushrui,Mehrdad Massoudi,2010 From the spiritual traditions of the first peoples and the ancient civilizations of Egypt Greece and Mesoamerica to the beliefs and practices of today s world faiths this illustrated and accessible introduction to the world s religions reveals the rich tapestry of religious life around the world and down the ages humanity s spiritual heritage **The Pro/Am Book of Music and Mythology** Thomas P.
