geography's core concerns with space and place and offer several ways of addressing persistent challenges of quality assurance in VGI. This book positions VGI as part of a shift toward hybrid epistemologies and potentially a fourth paradigm of data-intensive inquiry across the sciences. It also considers the implications of VGI and the exaflood for further time-space compression and new forms/degrees of digital inequality, the renewed importance of geography, and the role of crowdsourcing for geographic knowledge production.
