Pop La Art And The City In The 1960s:

Pop L.A. Cécile Whiting, 2008-08-04 In this original and engaging book Cécile Whiting examines what Pop looked like when it left the highbrow cloisters of Manhattan's art galleries and ventured westward to the sprawling suburbs of Los Angeles **American Artists Engage the Built Environment, 1960-1979** Susanneh Bieber, 2023-07-31 This volume reframes the development of US American avant garde art of the long 1960s from minimal and pop art to land art conceptual art site specific practices and feminist art in the context of contemporary architectural discourses Susanneh Bieber analyzes the work of seven major artists Donald Judd Robert Grosvenor Claes Oldenburg Robert Smithson Lawrence Weiner Gordon Matta Clark and Mary Miss who were closely associated with the formal aesthetic innovations of the period While these individual artists came to represent diverse movements Bieber argues that all of them were attracted to the field of architecture the work of architects engineers preservationists landscape designers and urban planners because they believed these practices more directly shaped the social and material spaces of everyday life This book's contribution to the field of art history is thus twofold First it shows that the avant garde of the long 1960s did not simply develop according to an internal logic of art but also as part of broader sociocultural discourses about buildings and cities Second it exemplifies a methodological synthesis between social art history and poststructural formalism that is foundational to understanding the role of art in the construction of a more just and egalitarian society The book will be of interest to scholars working in art history architecture urbanism and environmental humanism **Sublimation/Sublimierung** Christian Berger, Annika Schlitte, 2021-03-12 Der Fokus der Beiträge liegt dabei auf der Transformation von Materie die im Sublimationsprozess stattfindet aber auch auf den Verständnissen und Verwendungsweisen von Materie und Material Bei den Untersuchungen wird zudem die Rolle fokussiert die Materialien in den verschiedensten Zuständen innerhalb künstlerischer Praktiken gespielt haben Dazu werden auch philosophische Konzepte der Sublimierung miteinbezogen welche die Verbindungslinien zwischen Geist und Materie betonen **The Grove Encyclopedia of American Art** Joan M. Marter, 2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries *Handbuch Popkultur* Thomas Hecken, Marcus S. Kleiner, 2017-07-20 Das Handbuch begründet Popkultur als inter- und transdisziplinäres Forschungsfeld sowie als eigenständige Wissenschaftsdisziplin Es informiert in über 60 Beiträgen über die wichtigsten Erscheinungsformen und Diskurszusammenhänge der Popkultur und unterscheidet diese grundsätzlich von denen der Hoch- sowie Populärkultur Die Beiträge widmen sich den Begriffen und Konzepten der Popkultur der Bedeutung der Popkulturforschung in unterschiedlichen Wissenschaftsdisziplinen sowie den Medien und Gattungen der Popkultur vom Rock'n'Roll über Soul Punk Techno bis hin zu Pop Art TV Serien B Movies Social Media und v.a. Das Handbuch bietet international erstmalig einen systematischen Überblick über das gesamte Wissensfeld der Popkultur und stellt die Popkulturforschung auf ein historisches und theoretisches Fundament **Neil Young** Martin Halliwell, 2015-10-15 When Neil Young left Canada in

1966 to move to California it was the beginning of an extraordinary musical journey that would leave song after song resonating across the landscapes of North America From Ohio to Albuquerque Young's fascination with America's many places profoundly influenced his eclectic style and helped shape the restless sensibility of his generation In this book Martin Halliwell shows how place has loomed large in Young's prodigious catalog of songs which are themselves a testament to his storied career as a musician playing with bands such as Buffalo Springfield Crazy Horse and of course Crosby Stills Nash Young Moving from the Canadian prairies to Young's adopted Pacific home Halliwell explores how place and travel spurred one of the most prolific creative outputs in music history Placing Young in the shifting musical milieus of the past decades comprised of artists such as Bob Dylan Joni Mitchell Gordon Lightfoot the Grateful Dead Lynyrd Skynyrd Devo and Pearl Jam he traces the ways Young's personal journeys have intertwined with that of American music and how both capture the power of America's great landscapes Spanning Young's career as a singer songwriter from his many bands to his work on films Neil Young will appeal not just to his many fans worldwide but to anyone interested in the extraordinary ways American music has engaged the places from which it comes

Robert Heinecken and the Art of Appropriation Matthew Biro, 2022-03-29 The first comprehensive study of the artist Robert Heinecken and his critical views on the culture of mass media This is the first book length study dedicated to the artist Robert Heinecken whose innovative photographic practices sought to interrogate how mass media imagery facilitated the construction of individual and collective identities Appropriating rephotographing and layering pictures culled from newspapers advertisements pornography and television Heinecken recombined and transformed the ubiquitous images of mass culture to encourage viewers to critically reflect on their sense of self From the 1960s through the late 1990s Heinecken's controversial art continually challenged inherited ideas around consumerism the facticity of reportage and visual culture's relationship to gender and identity politics Embodying the evolution of contemporary art toward increasingly hybrid and conceptual approaches his oeuvre includes examples of painting sculpture photomontage performance installation time based media and artist's books all of which collectively exploit photography's reproducibility to subvert society's dominant ideologies and stereotypical modes of representation Author Matthew Biro presents an exhaustive look at Heinecken's life and art locating him within a lineage that encompasses the activities of the early twentieth century avant gardes and the postmodern strategies of the Pictures Generation artists Assessing his career within the specific political and historical contexts from which he gleaned his material and illustrated throughout with vibrant full color reproductions of his art this in depth examination demonstrates Robert Heinecken's significance as a key figure of twentieth century art and an incisive commentator on modern life in America

Bildnerische Ausdrucksformen, 1960-1970 Hessisches Landesmuseum (Darmstadt, Germany), 1970 **The Ferus Gallery** Kristine McKenna, 2009 In 1950s California and especially in Los Angeles there existed few venues for contemporary art To a whole generation of California artists this presented a freedom since the absence of a context for their work meant

that they could coin their own and in uncommonly interesting ways The careers of Ed Ruscha Wallace Berman and Ed Kienholz all begin with this absence Ruscha turned to books as a means of dissemination Berman pioneered mail art through his magazine *Semina* and in March 1957 Ed Kienholz in collaboration with curator Walter Hopps co founded one of California's greatest historical galleries *Ferus* Within months of opening *Ferus* which is Latin for wild gained notoriety when the Hollywood vice squad raided Berman's first and in his lifetime last solo exhibition following a complaint about lewd material Shows by Kienholz and Jay DeFeo followed but 1962 was *Ferus* annus mirabilis with solo shows by Bruce Conner and Joseph Cornell and the first solo shows of Roy Lichtenstein and Andy Warhol on the west coast The following year *Ferus* also hosted Ed Ruscha's first solo exhibition After Kienholz and Hopps parted ways Hopps went on to mount the first American Duchamp retrospective at the Pasadena Art Museum the reins were handed to Irving Blum who got *Ferus* out of the red and ran the gallery until its closure in 1966 *A Place to Begin* is an illustrated oral history of this heroic enterprise With 62 new interviews with *Ferus* artists and more than 300 photographs most previously unpublished it retrieves a lost chapter of twentieth century American art Edited by Kristine McKenna noted expert and co editor of the critically acclaimed *Semina Culture*
