Emanuel,2025 In this book Sarah Emanuel a Jewish scholar of the New Testament argues that Paul was not a universalist Instead Emanuel shows that stemming from his Hellenistic Jewish worldview Paul understood Jews as needing to maintain the law in Christ and gentiles as needing to abstain from the law in Christ Both groups in other words needed to maintain particular ethnic difference in their Christ following orientations lest they be left behind from Paul s imagined end of days Emanuel also argues that the way in which Paul understood these groups was through ethno nationalistic and hierarchical means By ethno nationalistic she means that Paul viewed the end of days as a new Israel centric nation requiring particular polyethnic cultural affiliation Jews for Christ and gentiles for Christ By hierarchical she means that Paul valued Jews for Christ over gentiles for Christ and also males over females and free persons over enslaved persons after all Paul s end of days was itself Israel centered i e Jewish centered with the God of Israel i e the Jewish God at the helm Finally none of these beliefs made Paul exceptional in his Judaism It made him average in his Judaism Wrestling with Paul shows that scholars in a post Holocaust world have often sanitized this ethnocentric exclusivism so as to make Paul ahistorically good for modern Jews and Judaism It also shows that readers of Paul have for millenia made sense of him in light of contemporaneous attitudes toward Jews The US Public and American Foreign Policy Andrew Johnstone,Helen Laville,2010-06-10 Though often overlooked public opinion has always played a significant role in the development and promotion of US foreign policy and this work seeks to comprehensively assess the impact and nature of that opinion through a collection of historical and contemporary essays The volume evaluates the role of organizations and movements that look to represent public opinion

and assesses the nature of their relationship with the government The contributors utilize a number of different approaches to examine this impact including polling data assessments of the role of the media and the wider consideration of ideas and ideology moving on to examine the specific role played by the public in the policy making and policy promotion process Engaging with new questions as well as approaching old questions from a new angle the work argues that whilst the roles change and the extent of influence varies the power of the public to both initiate and constrain foreign policy clearly exists and should not be underestimated This work will be of great interest to all those with an interest in American foreign policy American politics and American history **Zeitschrift für Genozidforschung** ,2004 **Die Musealisierung des**

The Memory of the Holocaust in Australia Tom Lawson, James Jordan, 2008 This collection of essays considers the development of Holocaust memory in Australia since 1945 Bringing together the work of younger and more established scholars the volume examines Holocaust memory in a variety of local and national contexts from both inside and outside of Australia's Jewish communities The articles presented here emanate from a variety of different disciplinary perspectives from history through literary cultural and museum studies This collection considers both the general development of Holocaust memory engaging historically with particular moments when the Shoah punctuated public perceptions of the recent past as well as its representation and memorialisation in contemporary Australia A detailed introduction discusses the relationship between the Australian case and the general development of Holocaust memory in the Western world asking whether we need to revise the assumptions of what have become the rather staid narratives of the journey of the Shoah into public consciousness
