Popular Modernity In America Experience Technology Mythohistory:

Popular Modernity in America Michael Thomas Carroll, 2000-09-28 Examines a wide variety of cultural and technological phenomena that have helped shape American popular culture over the last 150 years **Advertising and the Transformation of Screen Cultures** Bo Florin, Patrick Vonderau, Yvonne Zimmermann, 2025-10-01 Advertising has played a central role in shaping the history of modern media While often identified with American consumerism and the rise of the Information Society motion picture advertising has been part of European visual culture since the late nineteenth century With the global spread of ad agencies moving image advertisements became a privileged cultural form to make people experience the qualities and uses of branded commodities to articulate visions of a good life and to incite social relationships Abandoning a conventional delineation of fields by medium country or period this book suggests a lateral view It charts the audiovisual history of advertising by focussing on objects products and services screens exhibition programming physical media practices production marketing and intermediaries ad agencies In this way the book develops new historical methodological and theoretical perspectives **Circus and the Avant-Gardes** Anna-Sophie Jürgens, Mirjam Hildbrand, 2022-03-14 This book examines how circus and circus imaginary have shaped the historical avant gardes at the beginning of the 20th century and the cultures they help constitute to what extent this is a mutual shaping and why this is still relevant today This book aims to produce a better sense of the artistic work and cultural achievements that have emerged from the interplay of circus and avant garde artists and projects and to clarify both their transhistorical and trans medial presence and their scope for interdisciplinary expansion Across 14 chapters written by leading scholars from fields as varied as circus theatre and performance studies art media studies film and cultural history some of which are written together with performers and circus practitioners the book examines to what extent circus and avant garde connections contribute to a better understanding of early 20th century artistic movements and their enduring legacy of the history of popular entertainment and the cultural relevance of circus arts Circus and the Avant Gardes elucidates how the realm of the circus as a model or rather a blueprint for modernist experiment innovation and re negotiation of bodies has become fully integrated in our ways of perceiving avant gardes today The book does not only map the significance of circus avant garde phenomena for the past but through an exploration of their contemporary actualisations in different media also carves out their achievements relevance and impact both cultural and aesthetic on the present time *(Anti) Narcissisms and (Anti) Capitalisms* Mark Malisa, 2010-01-01 What if Mahatma Gandhi Malcolm X Nelson Mandela and Jurgen Habermas had a conversation on what it means to be a human being This book synthesizes the depiction of human nature in relation to anti capitalisms and anti narcissisms in the work of Mahatma Gandhi Moksha Malcolm X Islam Nelson Mandela Ubuntu and Jurgen Habermas Communicative Action Critical Theory Understandings of what it means to be a human being and the purpose of life vary from one philosophy to another and yet have a bearing on contemporary issues The reader is invited to

assess the philosophies with regard to conceptually and life affirming philosophies of human nature when placed in the context of anti narcissisms and anti capitalisms Also examined are the theories of education in the works Mahatma Gandhi Malcolm X Nelson Mandela and Jurgen Habermas To teach toward a fuller and meaningful humanity requires an analysis and understanding of the many traditions that contribute to humankind including the non western The classroom offers unheralded opportunities for students and educators to be knowledgeable about different cultures peoples and ways of being Anti Narcissisms and Anti Capitalisms will be of interest to researchers educators students peace activists philosophers of education and those working in the humanities Mark Malisa Formerly of Northeastern University Boston Massachusetts United States of America **The Miraculous Flying House of Loreto** Karin Vélez,2019 In 1295 a house fell from the evening sky onto an Italian coastal road by the Adriatic Sea Inside awestruck locals encountered the Virgin Mary who explained that this humble mud brick structure was her original residence newly arrived from Nazareth To keep it from the hands of Muslim invaders angels had flown it to Loreto stopping three times along the way This story of the house of Loreto has been read as an allegory of how Catholicism spread peacefully around the world by dropping miraculously from the heavens In this book Karin V lez calls that interpretation into question by examining historical accounts of the movement of the Holy House across the Mediterranean in the thirteenth century and the Atlantic in the seventeenth century These records indicate vast and voluntary involvement in the project of formulating a branch of Catholic devotion V lez surveys the efforts of European Jesuits Slavic migrants and indigenous peoples in Baja California Canada and Peru These individuals contributed to the expansion of Catholicism by acting as unofficial authors inadvertent pilgrims unlicensed architects unacknowledged artists and unsolicited cataloguers of Loreto Their participation in portaging Mary s house challenges traditional views of Christianity as a prepackaged European export and instead suggests that Christianity is the cumulative product of thousands of self appointed editors V lez also demonstrates how miracle narratives can be treated seriously as historical sources that preserve traces of real events Drawing on rich archival materials *The Miraculous Flying House of Loreto* illustrates how global Catholicism proliferated through independent initiatives of untrained laymen *Redeemer Nation* Orrin Schwab,2004 In this book Dr Orrin Schwab develops the concept of the modern technocratic state as part of a global technocratic culture and civilization The author argues that technocratic cultural and institutional forms were and are part of a collective script for Western culture The American script combined the scientific commercial and technological aspects of the Enlightenment with the radical 17th century Protestant belief in America as a new Zion In the twentieth century the synthesis of mission along with global technocratic knowledge and institutions created the Wilsonian liberal technocratic order As the principal agent and protector of the modern capitalist international system America the self defined Redeemer Nation has moved through the controlled anarchy of international relations from one war and crisis to the next confirmed in its self defined role and mission **The Greenwood Encyclopedia of Homes Through American History** Thomas W.
