## **Popular Religion In Late Saxon England Elf Charms In Context:**

**Popular Religion in Late Saxon England** Karen Louise Jolly, 2015-06-15 In tenth and eleventh century England Anglo Saxon Christians retained an old folk belief in elves as extremely dangerous creatures capable of harming unwary humans To ward off the afflictions caused by these invisible beings Christian priests modified traditional elf charms by adding liturgical chants to herbal remedies In *Popular Religion in Late Saxon England* Karen Jolly traces this cultural intermingling of Christian liturgy and indigenous Germanic customs and argues that elf charms and similar practices represent the successful Christianization of native folklore Jolly describes a dual process of conversion in which Anglo Saxon culture became Christianized but at the same time left its own distinct imprint on Christianity Illuminating the creative aspects of this dynamic relationship she identifies liturgical folk medicine as a middle ground between popular and elite pagan and Christian magic and miracle Her analysis drawing on the model of popular religion to redefine folklore and magic reveals the richness and diversity of late Saxon Christianity

*Popular Religion in Late Saxon England* Karen Louise Jolly, 1996 *Popular Religion in Late Saxon England Elf Charms in Context*

*Bodily and Spiritual Hygiene in Medieval and Early Modern Literature* Albrecht Classen, 2017-03-20 While most people today take hygiene and medicine for granted they both have had their own history We can gain deep insights into the pre modern world by studying its health care system its approaches to medicine and concept of hygiene Already the early Middle Ages witnessed great interest in bathing hot and cold swimming and good personal hygiene Medical activities grew over time but even early medieval monks were already great experts in treating the sick The contributions examine literary medical historical texts and images and probe the information we can glean from them The interdisciplinary approach of this volume makes it possible to view this large field in a complex and diversified manner taking into account both early medieval and early modern treatises on medicine water bathing and health Such a cultural historical perspective creates a most valuable bridge connecting literary and scientific documents under the umbrella of the history of mentality and history of everyday life The volume does not aim at idealizing the past but it definitely intends to deconstruct modern myths about the dirty and unhealthy Middle Ages and early modern age

*Text and Picture in Anglo-Saxon England* Catherine E. Karkov, 2001-11 This book explores the complex interrelationship between texts and drawings in the late tenth or early eleventh century Junius II manuscript the only surviving illustrated Anglo Saxon poetic manuscript The book which contains a plate section of sixty one illustrations focuses on the way in which the drawings both illustrate the text and translate it into a new visual language Poems and illustrations work to create a carefully crafted and unified manuscript but both also use formulaic language iconography and compositions to construct a web of intertextual and intervisual references that open the poems to readings far more diverse than those of the biblical books on which they are based Together poems and drawings create a new and unique version of biblical history and suggest ways in which biblical history relates to Anglo Saxon history and the manuscript s Anglo Saxon audience a process which has been extended

by the manuscript s many editors to include contemporary history and the contemporary reader      **Contesting**

**Christendom** James L. Halverson, 2007-07-27 The pervasiveness of the Christian religion has long been treated as one of the key features of medieval society Indeed Europe in the Middle Ages is often described simply as a Christian culture Yet what do we mean when we say that medieval Europe was a Christian society and what did it mean to be a Christian in the Middle Ages These questions are fundamental to any understanding of the Middle Ages yet the variety of theoretical approaches and conclusions represented in this carefully selected and provocative collection of key works in the field highlights the complexity of the answers Introducing students to medieval Christianity James L Halverson presents a rich array of readings that offers a variety of ways to study the history of religion within a chronological setting His opening chapter and introductions to each section and selection frame the essays and provide a strong conceptual framework to build upon Making it clear that scholars have approached religion from many perspectives and used many different methodologies this collection presents some of the best scholarship of religion as culture and practice emphasizing the ongoing attempt to understand the social and cultural aspects of medieval Christianity Contributions by Rudolf Bell Constance Brittain Bouchard Peter Brown Marcus Bull Caroline Walker Bynum Mark R Cohen Georges Duby Eamon Duffy Joan Ferrante Richard Fletcher Katherine L French Thomas A Fudge Herbert Grundmann James L Halverson Karen Louise Jolly Lester Little Rob Means Bernd Moeller Andrew P Roach Jane Tibbets Schulenburg Keith Thomas and Ian Wood      Understanding Medieval Liturgy

Helen Gittos, Sarah Hamilton, 2017-05-15 This book provides an introduction to current work and new directions in the study of medieval liturgy It focuses primarily on so called occasional rituals such as burial church consecration exorcism and excommunication rather than on the Mass and Office Recent research on such rites challenges many established ideas especially about the extent to which they differed from place to place and over time and how the surviving evidence should be interpreted These essays are designed to offer guidance about current thinking especially for those who are new to the subject want to know more about it or wish to conduct research on liturgical topics Bringing together scholars working in different disciplines history literature architectural history musicology and theology time periods from the ninth to the fifteenth centuries and intellectual traditions this collection demonstrates the great potential that liturgical evidence offers for understanding many aspects of the Middle Ages It includes essays that discuss the practicalities of researching liturgical rituals show through case studies the problems caused by over reliance on modern editions explore the range of sources for particular ceremonies and the sort of questions which can be asked of them and go beyond the rites themselves to investigate how liturgy was practised and understood in the medieval period      **Illuminating Jesus in the Middle Ages** , 2019-09-24

*Form and Content of Instruction in Anglo-Saxon England in the Light of Contemporary Manuscript Evidence* Patrizia Lendinara, Loredana Lazzari, M. A. D'Aronco, 2007 The essays collected in this volume focus on a prominent aspect of Anglo Saxon culture educational texts and the Insular manuscripts which have preserved them The English imported manuscripts and texts from the Continent whilst a series of foreign masters from Theodore of Tarsus to Abbo of Fleury brought with them knowledge of works which were being studied in Continental schools Although monastic education played a leading role for the entire Anglo Saxon period it was in the second half of the tenth and early eleventh centuries that it reached its zenith with its renewed importance and the presence of energetic masters such as Aethelwold and Aelfric The indebtedness to Continental programs of study is evident at each step beginning with the Disticha Catonis Nevertheless a number of texts initially designed for a Latin speaking milieu appear to have been abandoned for instance in the field of grammar in favour of new teaching tools Besides texts which were part of the standard curriculum Anglo Saxon manuscripts provide abundant evidence of other learning and teaching instruments in particular those for a specialized class of laymen the Old English *læce* the healer or physician Medicine occupies a relevant place in the book production of late Anglo Saxon England and in this field too knowledge from very far afield was preserved and reshaped All these essays many by leading scholars in the various fields explore these issues by analysing the actual manuscripts their layout and contents They show how miscellaneous collections of treatises in medieval codices had an internal logic and highlight how crucial manuscripts are to the study of medieval culture Contributors Filippa Alcamesi Isabella Andorlini Anne Van Arsdall Luisa Bezzo Sandor Chardonnens Maria Amalia D'Aronco Maria Caterina De Bonis Claudia Di Sciacca Michael Drout Concetta Giliberto Florence Eliza Glaze Joyce Hill Loredana Lazzari Patrizia Lendinara Danielle Maion Ignazio Mauro Mirto Alexander R Rumble Hans Sauer Loredana Teresi *Elves in Anglo-Saxon England* Alaric Hall, 2007 Elves and elf belief during the Anglo Saxon period are reassessed in this lively and provocative study Anglo Saxon elves Old English *lfe* are one of the best attested non Christian beliefs in early medieval Europe but current interpretations of the evidence derive directly from outdated nineteenth and early twentieth century scholarship Integrating linguistic and textual approaches into an anthropologically inspired framework this book reassesses the full range of evidence It traces continuities and changes in medieval non Christian beliefs with a new degree of reliability from pre conversion times to the eleventh century and beyond and uses comparative material from medieval Ireland and Scandinavia to argue for a dynamic relationship between beliefs and society

In particular it interprets the cultural significance of elves as a cause of illness in medical texts and provides new insights into the much discussed Scandinavian magic of seidr Elf beliefs moreover were connected with Anglo Saxon constructions of sex and gender their changing nature provides a rare insight into a fascinating area of early medieval European culture Shortlisted for the Katharine Briggs Folklore Award 2007 ALARIC HALL is a fellow of the Helsinki Collegium for Advanced Studies

Karkov, Sarah Larratt Keefer, 2008 As Volume One in the Sancta Crux Halig Rod series this collection of new research offers fascinating glimpses into how the way the cross the central image of Christianity in the Anglo Saxon period was textualized reified visualized and performed The cross in early medieval England was so ubiquitous it became invisible to the modern eye and yet it played an innovative role in Anglo Saxon culture medicine and popular practice It represented one of the most powerful relics emblems and images in medieval culture because it could be duplicated in many forms and was accessible to every layer of society The volume speaks to critical issues of cultural interpretation for Anglo Saxonists medievalists of all disciplines and those interested in cultural studies in general *Bibliographie internationale des recensions de la littérature savante*, 1974

thirteenth centuries but with an eye toward antiquity and the present Caroline Walker Bynum explores the themes of metamorphosis and hybridity in genres ranging from poetry folktales and miracle collections to scholastic theology devotional treatises and works of natural philosophy She argues that the obsession with boundary crossing and otherness was an effort to delineate nature's regularities and to establish a strong sense of personal identity extending even beyond the grave She examines historical figures such as Marie de France Gerald of Wales Bernard Clairvaux Thomas Aquinas and Dante as well as modern fabulists such as Angela Carter as examples of solutions to the perennial question of how the individual can both change and remain constant Addressing the fundamental question for historians that of change Bynum also explores the nature of history writing itself The Study of Medieval Manuscripts of England Richard William Pfaff, 2010 This volume consists of sixteen important studies all dealing with manuscripts produced in medieval England The first group reflects the meticulous analysis of liturgical manuscripts that characterize the honora nd's career These treat both early and late medieval liturgical concerns and include liturgy for Gilbertine lay brothers a lost treatise by Amalarius the reworking of an Anglo Saxon Gospel book the music for the Vigil of St Thomas Becket and the continuity of Processions from Old Sarum to Salisbury Cathedral Two studies examine the liturgies having to do with saints in Sarum missals and breviaries The second historical section of this volume includes three studies on Anglo Saxon manuscripts Six other analyses concern the high and later Middle Ages **Biography**, 1998 An interdisciplinary quarterly
