Abstract: Pop music is a global cultural phenomenon, not only as an art form, but also as a socio-cultural phenomenon. In popular music, gender and culture are two important themes that are intertwined and together constitute the cultural background and artistic value of popular music. This article will provide an in-depth analysis and discussion of pop music from the perspective of gender and culture.

Keywords: Pop; music; Gender; Culture.

1. Introduction

One musical genre evolves or branches off into another, and two or three genres can merge into a new genre: one musical genre can become an entire ethnic culture. Culture and its various expressions, such as language, politics, economy, religion, art, etc., are inextricably linked. Since all music has cultural attributes without exception, we say that "music" is cultural music; Since all the cultural attributes contained in music are necessarily externalized into specific musical forms, we say that "culture" is the culture of music. Music and culture in popular music are interdependent. Sometimes, people don't want to admit that they like certain songs because of stereotypes. If the song is gay or bisexual, then listeners will most likely label it as gay or bisexual as well. So the taste of music is subjective. Musical taste cannot be used to generalize culture.

Pop music is a genre of adaptation, assimilation, innovation, and experimentation made up of current pop music. Pop music is a technology-driven, global phenomenon that encompasses the widest range of musical forms, styles, and genres, varying from period to period and country to country. Popular music began with the publication of sheet music. At this time, many Americans began to use the piano for family entertainment celebrations. Families got together to record so that everyone could enjoy music at home, which led to the expansion of pop music through new markets in the music industry. With songs and compositions now available in the form of digital files, music from a country has become easier, and some popular music formats have become global (such as rock and alternative music), while others have an appeal in a certain culture (such as heavy metal and K-pop). Through the mixing of musical genres, new forms of popular music continue to evolve, reflecting the ideas of international culture.

2. The Strategy of "Gender Representation "in Popular Music

Gender issues in popular music are a complex topic that involves many aspects such as music creation, performance, and appreciation. First of all, the image of women in pop music is often portrayed as weak, male-dependent, and lacking self-awareness. This image not only limits women's self-identity and development, but also affects people's perception and attitude towards women. Secondly, there are also stereotypes of male images in pop music, such as rough,

violent, selfish, etc., which are often regarded as the mainstream image of men, ignoring the diverse characteristics and values of women.

In addition, sexism in pop music is also manifested in the choice of song content. Many songs tend to focus only on men's emotions and lives, ignoring women's needs and emotions. At the same time, many songs also convey discrimination and prejudice against women through the language and imagery in the songs, which is not only detrimental to the protection of women's rights and interests, but also harms women's self-esteem and self-confidence.

2.1. Views on women performing rock music

From the perspective of feminism, gender expression in pop music is more direct and obvious than classical music, such as lyric songs that emphasize more authentic experiences, making it easier for the audience to understand the emotions expressed through repeated sentences, tone and other factors. Cooper's article "women in pop music" explores the lyrical popular songs from 1946 to 1976 to women in 11 stereotypes: evil women, emphasize female physical characteristics, the need for men, women as the property of men, women as mothers, women as sexual objects, feminine women, childlike women, women as admirers, physically attractive women and supernatural women.

In the post-feminist sexual theory, the American feminist political scientist Judith Butler became the representative of the post-feminism in an extremely radical and avant-garde way. In her academic book *Gender Issues: Feminism and the Subversion of Identity, and Life: The Limits of the Reason of "Gender"*, Butler proposed and demonstrated the theory of "gender expression". Butler disagreed with some Beauvoir "gender" theory, that gender and actors, is a changing performance, to some extent, gender is forced, if it deviates from social gender norms, will be rejected and punished (like women if not married or have children are considered outlier). Therefore, no gender is the "real" social gender, and gender is both constructed and acting. It forms certain norms through repeated ways and achieves certain effects in a specific way. To be widespread in large-scale industrial societies. The strategy of pop music is to use musical factors such as rhythm, tone and singing, and use non-musical means such as makeup, dance, lyrics, multimedia to express their feelings and desires, especially in dance music, live performances and music TV (MTV). The avant-garde pop artists try to challenge the traditional image of "masculinity" and "femininity", using

Popular Music, Gender and Postmodernism Neil Nehring, 1997-03-20 The migration of cynical academic ideas about postmodernism into music journalism are traced in this book The result of this migration is a widespread fatalism over the ability of the music industry to absorb any expression of defiance in popular music The book synthesizes a number of fields American and British academic and journalistic music criticism aesthetic and literary history and theory from romanticism through postmodernism alternative music such as feminist punk and grunge political economy which has fueled the obsession with commercial incorporation and subcultural sociology

Popular Music, Gender and Postmodernism Neil Nehring, 1997-03-20 Popular Music Gender and Postmodernism begins by tracing the migration of cynical academic ideas about postmodernism into music journalism The result has been a widespread fatalism over the presumed ability of the music industry to absorb any expression of defiance in hip hop and rock Commercial incorporation supposedly makes a charade of musical outrage somehow disconnecting anger in music from any meaning or significance Author Neil Nehring documents the considerable damage done by the journalistic employment of this tenet of postmodern theory particularly in the case of the late Kurt Cobain of Nirvana whose emotional intensity was repeatedly belittled for its purported incoherence As a rebuttal to academic postmodernism and its exploitation by the mass media Popular Music Gender and Postmodernism emphasizes that emotion and reason are mutually interdependent Though mistakes can occur in the conscious choice of an object at which to direct one's feelings the preverbal appraisal of social situations that generates emotions is always perfectly rational Nehring also surveys work in literary criticism psychology and especially feminist philosophy that argues on the basis for the political significance of anger even prior to its full articulation The emotional performance in popular music he concludes cannot be discounted on the grounds for example that lyrics such as Cobain's are difficult to understand After detailing more and less progressive approaches to emotion in music criticism Nehring focuses on recent punk rock by women including the Riot Grrrls
