Population Control For And Against:

Population Control: for & Against, 1973 The War Against Population Jacqueline Rorabeck Kasun, 1999 Challenges the assumption that unchecked human population growth will lead to social and economic disaster **Population Control Policies in China and India** Gabe T. Wang, 2023-07-14 This book comprehensively compares the development of population control policies in China and India their implementations and the population changes over the past seven decades Analyzing how populations have changed and affected socioeconomic development in the two societies this book systematically compares China and India through social and cultural factors including religion and traditional perspectives on population ethnicity and language social classes family social status and education of women and government functions A brief introduction discusses how China has developed into a highly homogenous society and how India has developed into a highly diversified nation in history and the influence of other countries on these two societies With empirical data the book analyzes how population changes are strongly correlated with economic development in the two most populous societies An insightful discussion of the population issues with a world perspective and historical understanding of China and India is also provided This book will be valuable reading to students and researchers interested in knowing more about the population control policies population changes and cultures and societies in China and India Fighting for Control Lina-Maria Murillo, 2024-12-20 The first birth control clinic in El Paso Texas opened in 1937 Since then Mexican origin women living in the border cities of El Paso and Ciudad Ju rez have confronted various interest groups determined to control their reproductive lives including a heavily funded international population control campaign led by Planned Parenthood Federation of America as well as the Catholic Church and Mexican American activists Uncovering nearly one hundred years of struggle Lina Maria Murillo reveals how Mexican origin women on both sides of the border fought to reclaim autonomy and care for themselves and their communities Faced with a family planning movement steeped in eugenic ideology working class Mexican origin women strategically demanded additional health services and then formed their own clinics to provide care on their own terms Along the way they developed what Murillo calls reproductive care quotidian acts of community solidarity as activists organized for better housing education wages as well as access to birth control abortion and more Centering the agency of these women and communities Murillo lays bare Mexican origin women s long battle for human dignity and power in the borderlands as reproductive freedom in Texas once again hangs in the balance Population Control, 1973 Area-Wide Control of Insect Pests M.J.B. Vreysen, A.S. Robinson, J. Hendrichs, 2007-10-30 Insect pests are becoming a problem of ever more biblical proportions This new textbook collates a series of selected papers that attempt to address various fundamental components of area wide insect pest control Of special interest are the numerous papers on pilot and operational programs that pay special attention to practical problems encountered during program implementation It s a compilation of more than 60 papers authored by experts from more than 30 countries *Merchants of Despair* Robert

Zubrin,2012-02-28 There was a time when humanity looked in the mirror and saw something precious worth protecting and fighting for indeed worth liberating But now we are beset on all sides by propaganda promoting a radically different viewpoint According to this idea human beings are a cancer upon the Earth a horde of vermin whose aspirations and appetites are endangering the natural order This is the core of antihumanism Merchants of Despair traces the pedigree of this ideology and exposes its pernicious consequences in startling and horrifying detail The book names the chief prophets and promoters of antihumanism over the last two centuries from Thomas Malthus through Paul Ehrlich and Al Gore It exposes the worst crimes perpetrated by the antihumanist movement including eugenics campaigns in the United States and genocidal anti development and population control programs around the world Combining riveting tales from history with powerful policy arguments Merchants of Despair provides scientific refutations to all of antihumanism s major pseudo scientific claims including its modern tirades against nuclear power pesticides population growth biotech foods resource depletion and industrial development Population Control ,1970 **Ebony** ,1974-11 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine Cumulated Index Medicus ,1975 **Population Crisis** United States. Congress. Senate. Committee on Government Operations. Population Control Steven Mosher,2011-12-31 For over half a century policymakers committed to population control have perpetrated a gigantic costly and inhumane fraud upon the human race They have robbed people of the developing countries of their progeny and the people of the developed world of their pocketbooks Determined to stop population growth at all costs those Mosher calls population controllers have abused women targeted racial and religious minorities undermined primary health care programs and encouraged dictatorial actions if not dictatorship They have skewed the foreign aid programs of the United States and other developed countries in an anti natal direction corrupted dozens of well intentioned nongovernmental organizations and impoverished authentic development programs Blinded by zealotry they have even embraced the most brutal birth control campaign in history China s infamous one child policy with all its attendant horrors There is no workable demographic definition of overpopulation Those who argue for its premises conjure up images of poverty low incomes poor health unemployment malnutrition overcrowded housing to justify anti natal programs The irony is that such policies have in many ways caused what they predicted a world which is poorer materially less diverse culturally less advanced economically and plagued by disease The population controllers have not only studiously ignored mounting

evidence of their multiple failures they have avoided the biggest story of them all Fertility rates are in free fall around the globe Movements with billions of dollars at their disposal not to mention thousands of paid advocates do not go quietly to their graves Moreover many in the movement are not content to merely achieve zero population growth they want to see negative population numbers In their view our current population should be reduced to one or two billion or so Such a goal would keep these interest groups fully employed It would also have dangerous consequences for a global environment
