Portraits And Documents Later Nineteenth Century 1868 1919:

Local Studies and the History of Education History of Education Society, 2013-04-15 Originally published in 1972 this book is concerned with education as part of a larger social history Chapters include The roots of Anglican supremacy in English education The Board schools of London The use of ecclesiastical records for the history of education Topographical resources private and secondary education from the sixteenth to the twentieth century

Victoria's Spymasters Stephen Wade, 2011-11-08 Covering the lives and achievements of five English intelligence officers involved in wars at home and abroad between 1870 and 1918 this exceptionally researched book offers an insight into spying in the age of Victoria Including material from little known sources such as memoirs old biographies and information from M15 and the police history archives this book is a more detailed sequel to Wade's earlier work Spies in the Empire The book examines the social and political context of Victorian spying and the role of intelligence in the Anglo Boer wars as well as case studies on five intriguing characters William Melville Sir John Ardagh Reginald Wingate and Rudolf Slatin and William Robertson Responding to a dearth of books covering this topic Wade both presents fascinating biographies of some of the most significant figures in the history of intelligence as well as a snapshot of a time in which the experts and amateurs who would eventually become M15 struggled against bias denigration and confusion

Spies in the Empire Stephen Wade, 2007-07-01 There have been a great many books written on military intelligence and the secret services rooted in the twentieth century however there is very little covering the activities of the men involved in the establishment of this fascinating institution Its origins lie in the British Army from the beginnings in the Topographical Department to the Boer War when various factors made the foundation work of the eventual MI5 founded in 1909 possible Incredibly there were two vast armies in the 1840s both serving the state and Queen yet no formally organized military intelligence bureau Such ignorance of the enemy brought about many botched and bloody encounters such as the notorious Charge of the Light Brigade The thrilling story of the various intelligence sources for the armed forces throughout the Victorian period is one of individuals adventurers and small ad hoc bodies set up by commanders when the need arose Stephen Wade's enthralling book reveals the unsteady foundations of one of the country's most prominent and renowned organizations tracing the various elements that gradually composed the intelligence and political branches of Britain's Secret Service

Die 'Nineties Manfred Pfister, Bernd Schulte-Middelich, 1985

Empire and Espionage Stephen Wade, 2011-02-23 The Anglo Zulu War may be best remembered for the military blundering that led to the astonishing British defeat at Isandlwana but as Stephen Wade shows in this book military action throughout the war was supplemented by the actions of spies and explorers in the field and was often heavily influenced by the decisions made by diplomats Examining the roles of both spies and diplomats the author looks at numerous influential figures in the conflict including John Dunn who fought with the British during the campaign becoming ruler of part of Zululand after its conquest and even being presented to Queen Victoria

Diplomats include Sir Theophilus Shepstone who was responsible for directing native affairs in Natal and was so respected by the Zulus they called him Father This unique and fascinating account of espionage and diplomacy in the nineteenth century demonstrates not only a side of warfare rarely considered in traditional histories of the period but also gives examples of individuals who were able to earn the respect and trust of the native peoples another rarely seen facet of the colonial period
