Portrait of America: From Reconstruction to the present Stephen B. Oates, 1999 Portrait of America is an anthology of essays written by some of America's most eminent historians Suitable for U S history survey courses the collection has a loose biographical focus The essays in this secondary source reader humanize American history by portraying it as a story of real people with whom students can identify Each selection is preceded by an introduction that sets the context and a helpful glossary that identifies important individuals events and concepts The Eighth Edition includes an essay in which six major historians reflect on the historical significance of September 11 2001      *Annals of the American Academy of Political and Social Science* American Academy of Political and Social Science, 1894      The international portrait gallery International portrait gallery, 1878      **Pictures from Ireland** Sir Henry Arthur Blake, 1881      **Readers' Guide to Periodical Literature** , 1953      The Critic , 1895      **The Jewish Self-portrait in European and American Literature** Hans-Jürgen Schrader, Elliott M. Simon, Charlotte Wardi, 1996 This book series initiated in 1992 has an interdisciplinary orientation it is published in English and German and comprises research monographs collections of essays and editions of source texts dealing with German Jewish literary and cultural history in particular from the period covering the 18th to 20th centuries The closer definition of the term German Jewish applied to literature and culture is an integral part of its historical development Primarily the decisive factor is that from the middle of the 18th century German gradually became the language of choice for Jews and Jewish authors started writing in German rather than Yiddish or Hebrew even when they were articulating Jewish themes This process is directly connected an historical change in mentality and social factors which led to a gradual opening towards a non Jewish environment which in its turn was becoming more open In the Enlightenment German society becomes

the standard of reference initially for an intellectual elite Against this background the term German Jewish literature refers to the literary work of Jewish authors writing in German to the extent that explicit or implicit Jewish themes motifs modes of thought or models can be identified in them From the beginning of the 19th century at the latest however the image of Jews in the work of non Jewish writers determined mainly by anti Semitism becomes a factor in German Jewish literature There is a tension between Jewish writers authentic reference to Jewish traditions or existence and the anti Semitic marking and discrimination against everything Jewish which determines the overall development of the history of German Jewish literature and culture This series provides an appropriate forum for research into the whole problematic area
