Portraits Of Nathaniel Hawthorne An Iconography:

Portraits of Nathaniel Hawthorne Rita K. Gollin, 1983 Hawthorne's Visual Artists and the Pursuit of a Transatlantic Aesthetics Kumiko Mukai, 2008 Among Hawthorne's primary themes the visual arts have usually been regarded as an afterthought and have only been examined to elucidate his own personal philosophy Hawthorne's own contemporaries derided him for his mediocre aesthetics and that view has been taken as received wisdom up to the present day This study reexamines Hawthorne's aesthetics and suggests that he was much more familiar with the art and artists of the time than has previously been acknowledged by critics He developed his own eclectic and transatlantic view of art a view which incorporated decorative arts like embroidery while maintaining a modest estimation of his own talents This book examines the full range of visual artists whom Hawthorne portrays It argues that these portrayals illuminate the artist's dilemma of being fettered by New England Puritanism while at the same time being attracted to the richness and depth of both Victorian aesthetics and the artistic sense of Old World Catholicism The ambiguous destinies of his artist characters include misunderstandings and disputes while at the same time they suggest a reconciliation of the conflicting sentiments and transatlantic perspectives of the writer himself

Hawthorne's Shyness Clark Davis, 2005-06-06 This important new reading of a central figure in American literary history significant in its own right powerfully demonstrates the potential of Davis's critical approach *Literature & Photography Interactions, 1840-1990* Jane Marjorie Rabb, 1995 This remarkable book traces comprehensively for the first time the give and take between these sister arts by gathering writings about photography and photographs by and of writers from England Europe and the United States over the last century and a half

Prophetic Pictures Rita K. Gollin, John L. Idol, Sterling K. Eisinger, 1991-10-30 This study takes an unusual approach to Nathaniel Hawthorne's work by exploring his knowledge and uses of the visual arts The authors trace Hawthorne's encounters with art in his native New England highlight his determined effort to acquire a taste for painting at the Manchester Exhibition in 1857 explore his responses to art as he traveled through France and Italy and discuss his continuing interest in the visual arts once he returned to America In contrast to those who maintain that Hawthorne had little feeling for and appreciation of the arts the authors argue that Hawthorne repeatedly tried to acquire a taste for the arts and used them frequently in his letters tales and romances The study is illuminated by photographs of many of the works of art that Hawthorne saw and wrote about Accompanying the biographical exploration of Hawthorne's quest to learn more about the visual arts is a study of how techniques adopted from the visual arts inform the texture and content of Hawthorne's works The authors examine each relevant tale and romance paying particular attention to *The Marble Faun* the work which they assert most fully exemplifies Hawthorne's knowledge and uses of the visual arts A special section includes Hawthorne's responses to selected art works as reflected in his fiction and notebooks together with photographs of the works themselves The volume concludes with a select bibliography and an index that provides ready access to specific areas of the text

Students of the American novel as well as specialists in American studies will find this a useful study of the ways in which the visual arts affect literary craftsmanship *Portrait Narratives* Felicity Moreau, AI, 2025-02-26 *Portrait Narratives* explores how authors have crafted identity through literary portraiture revealing much about both the subject and the society in which they were created This comprehensive analysis examines techniques used to shape character perceptions and convey cultural meanings Literary portraits it argues are active constructions reflecting individual subjectivity and social ideologies For instance the book delves into how physical descriptions inner monologues and social interactions are employed to construct character further exploring how unreliable narrators can skew these portraits revealing more about themselves The book traces the evolution of literary portraiture from ancient texts to modern novels highlighting changes in style and purpose It analyzes how portraits reflect societal values biases and power dynamics offering a unique perspective on the interplay between literature identity and history Through close readings of literary texts and historical research the book progresses by first introducing literary portraiture and its historical development with later chapters analyzing specific works across periods and genres It concludes by discussing the implications of these portraits for understanding identity formation and social justice *Poe Studies/dark Romanticism* ,2003 **Bibliographie internationale des recensions de la littérature savante** ,1974 **Hawthorne and Women** John Lane Idol (Jr.),Melinda M. Ponder,1999 In 25 mostly original contributions professors authors and independent scholars critique how women readers critics and writers including Hawthorne s wife have responded to the author of *The Scarlet Letter* and Hawthorne s ambivalence toward the damned mob of scribbling women Appended are additional reviews by two female critics an 1869 letter by Harriet Beecher Stowe citing Hawthorne s *American Notebooks* as a model of writing for women and a 1904 letter relating to a 100th anniversary celebration of Hawthorne s birth Annotation copyrighted by Book News Inc Portland OR **The Lure of Images** David Morgan,2020-08-26 This is the history of the relationship between mass produced visual media and religion in the United States It is a journey from the 1780s to the present from early evangelical tracts to teenage witches and televangelists and from illustrated books to contemporary cinema David Morgan explores the cultural marketplace of public representation showing how American religionists have made special use of visual media to instruct the public to practice devotion and ritual and to form children and converts Examples include studying Jesus as an American idol Jewish kitchens and Christian Parlors Billy Sunday and Buffy the Vampire Slayer Uncle Tom s Cabin and the anti slavery movement This unique perspective reveals the importance of visual media to the construction and practice of sectarian and national community in a nation of immigrants old and new and the tensions between the assimilation and the preservation of ethnic and racial identities As well as the contribution of visual media to the religious life of Christians and Jews Morgan shows how images have informed the perceptions and practices of other religions in America including New Age Buddhist and Hindu spirituality and Mormonism Native American Religions and the Occult *Essex Institute Historical Collections* Essex Institute,1993 **The Arizona**
