Personhood Creativity And Freedom:

Personhood, Creativity, and Freedom Eliot Deutsch, 1982-01-01 **Human Significance in Theology and the Natural Sciences** Christopher L. Fisher, 2010-02-03

The Medieval Worldview that Regarded Human Beings as at the Center of God's plans for His universe has long been regarded as obsolete its synthesis of Christian theology and Greek philosophy having collapsed under the weight of Copernicus Galileo and Darwin The popular stereotype is that Science both in the Copernican revolution that dethroned the earth centered view of the cosmos and in subsequent developments in evolutionary theory and general relativity has marginalized and trivialized human existence revealing humanity's place in the cosmos to be accidental peripheral and ultimately meaningless However an investigation into both modern Christian theology and contemporary twenty first century Science reveals just the opposite providing solid evidence in the interdisciplinary dialogue concerning the significance of humanity within the universe In this important study Christopher Fisher analyzes several modern theologians including Wolfhart Pannenberg Karl Rahner and John Zizioulas to reveal how contemporary ecumenical theology is deeply and intrinsically committed to a high view of human cosmic significance as a consequence of Christianity's indelible Trinitarian and incarnational faith Fisher then demonstrates how research in contemporary natural Science confirms this finding in its own way as recent primate intelligence studies artificial intelligence research and even the quest for extra terrestrial intelligence reveal the wonder of human uniqueness A contemporary version of the teleological argument also resurfaces in consideration of cosmic evolutionary perspectives on human existence Even ecological concerns take on a new poignancy with the realization that among material creatures only human beings are capable of addressing the world's situation This interdisciplinary study uncovers the surprising coherence and convergence of Christian Theology and Natural Science on the subject of human existence and significance here at the beginning of the twenty first century and it highlights the very unique role of humanity in global and cosmic history Through an incisive study of several leading twentieth century theologians Chris Fisher explores the ecumenical consensus for a strong reading of human cosmic significance While acknowledging problems surrounding earlier forms of anthropocentrism he argues that Christian theology remains wedded to a high understanding of the place of human beings in the economy of creation and salvation This is a valuable contribution to an important debate in contemporary theology David Fergusson University of Edinburgh This is a fascinating work on the interface between theology and science The author's remarkable breadth of knowledge clarity of thought and lucid writing style enable him to help the reader to understand the coherence between science and faith This scholarly work is an irenic and well informed presentation of the Christian faith and will become one of the primary textbooks in theology philosophy of religion and philosophy of science Laurence W Wood Asbury Theological Seminary

Life Creative Mimesis of Emotion Anna-Teresa Tymieniecka, 2000 Are emotions feelings sentiments not the stuff of literature There it is where they project their inner logic of aesthetic transmutation there beyond the instrument of language that they command This collection

explores how the lyrical virtualities of life experience and the elegiac style in literature share a common core lifting the human significance of life from abysmal vitality to esoteric heights from abysmal grief to a serene reconciliation with destiny The elegiac sequence in the play of emotions feelings and sentiments brings together life and literary creativity in its transformatory power **Self-deception and Morality** Mike W. Martin, 1986 This book systematically explores the moral issues surrounding self deception While many articles and books have been written on the concept of self deception in recent years Martin s gives much greater emphasis to self deception as a significant topic for both ethical theory and applied ethics Self deception is perplexing from a moral point of view It seems tailor made to camouflage and foster immorality Does all self deception involve some guilt and is it among the most abhorrent evils as some moralists and theologians have charged Or is it only wrong sometimes such as when it has bad consequences Could it on occasion be permissible or even desirable to deceive ourselves just as we are sometimes justified in deceiving other people Are self deceivers perhaps more like innocent victims than perpetrators of deceit and as such deserving of compassion and help Or paradoxically are they best viewed with ambivalence culpable as deceivers and simultaneously innocent as victims of deception from the introduction Martin develops a conception of self deception as the purposeful evasion of acknowledging to oneself truths or one s view of truth He details a systematic framework for understanding the main moral perspectives and traditions concerning self deception that have emerged in western philosophy In so doing he clarifies related concepts like sincerity authenticity honesty hypocrisy weakness of will and self understanding Ranging across traditions both philosophical Kant Kierkegaard and Sartre and non philosophical Freud Eugene O Neill and Henrik Ibsen Martin shows why self deception is as morally complex as any other major form of behavior The appeal of this book is broad The volume will challenge professional philosophers and psychologists yet it is organized and written to be accessible to students in courses on ethics philosophy of mind and philosophy of literature Martin s numerous literary examples should also interest literary critics **After Our Likeness** Miroslav Volf, 1998 In After Our Likeness Miroslav Volf explores the relationship between persons and community in Christian theology He seeks to counter the tendencies toward individualism in Protestant ecclesiology and give community its due **Philosophical Books** , 1983 **Philosophy East & West** , 2000 **Personal Transformation and a New Creation** Delio, Ilia , 2016-08-18 Top scholars examine the theories of Pierre Teilhard de Chardin through the lens of Beatrice Bruteau s pioneering work on evolution and consciousness Contributors include Cynthia Bourgeault Ursula King Barbara Fiand Kerrie Hide Gabrielle Stoner Kathleen Duffy John Shea Carla De Sola and Joshua Tysinger **Objects and Imagination** Øivind Fuglerud, Leon Wainwright, 2015-02-01 Despite the wide interest in material culture art and aesthetics few studies have considered them in light of the importance of the social imagination the complex ways in which we conceptualize our social surroundings This collection engages the material turn in the arts humanities and social sciences through a range of original contributions on creativity in diverse global and contemporary social settings The authors engage with everyday objects art

rituals and ethnographic exhibitions to analyze the relationship between material culture and the social imagination What results is a better understanding of how the material embodies and influences our idea of the social world Philosophy Books, 1982-1986 Thomas May,1991 *Subjectivity Transformed* Thomas Vesting,2023-11-28 This book provides a historically informed reconstruction of the social practices that have shaped the formation of the modern subject from the early modern period to the present The formal legal protections accorded to subjects are and always have been latent in social practices norms and language before they are articulated in formal legal orders Vesting argues that in Western societies legal personhood is closely tied to three ideal types of social personhood what he calls the gentleman the manager and Homo digitalis By examining these three ideal types and their emergence in society we can see that Western formal law does not bring these ideal types into being but on the contrary they arise from the social and cultural conditions that they generate and reflect Correspondingly Western legal personhood or legal subjectivity arises from the history and culture of Western nations not the other way around Therefore signature features of Western formal law particularly its valorization of the rights of persons whether natural or nonnatural come from the particular sociohistorical cultural developments that had already generated the strong ideas of social personhood inherent in the ideal types of the gentleman the manager and Homo digitalis *Subjectivity Transformed* is a major contribution to legal and social theory and with its original analysis of the formation of modern subjectivity it will be of interest to students and scholars throughout the social sciences and humanities

Neue Zeitschrift Für systematische Theologie und Religionsphilosophie ,1999 *Phenomenology: East and West* Frank M. Kirkland,D P Chattopadhyaya,1993 To know the work of Jitendra Nath Mohanty even slightly is to commence to appreciate it immensely Lucidity and sagacity have been its armor originality and ingenuity have been its strength And wearing the former and wielding the latter have become so persistent a mark of his work as to suggest that their appeal for Mohanty lies altogether more in the refined reaches of philosophical craftsmanship than on the coarse ground of intellectual partisanship The multifaceted character of his work in phenomenology and Indian philosophy has never left us palled by its significance and as a consequence has always left us conceding its command on our philosophical discourse It has fulfilled the most welcomed promise of striking the chords of both imagination and reason by exposing Husserlian phenomenology to the concerns of both the so called analytical and continental traditions and by exposing the philosophical tradition of Indian thought to the intricacies of Husserl Although charting and periodizing the body of Mohanty s work in phenomenology may be the function of a memory inconspicuous for originality and liveliness they nonetheless offer a precise conspicuous for the variety of topics that Mohanty has both engaged and enriched Mohanty s career in phenomenology can be characterized by three phases each concentrating on different themes but with the latter two also epitomizing a more incisive and deeper discussion of the issues raised in the first **Creative Being** Eliot Deutsch,1992-09 A person I want to argue is not a given but an achievement So opens Eliot Deutsch s provocative study a work that sets forth new possibilities for understanding the

nature of creativity and the means by which human beings fashion themselves and their worlds Professor Deutsch develops an innovative way of moving beyond the limitations of traditional rationalism empiricism and analytical philosophy of mind to frame a new conception of what it means to be a person *Philosophy, Society, and Action* Kanhaiya Lal Sharma, 1984 Festschrift honoring Daya Krishna b 1924 professor of philosophy comprises contributed articles [The Philosopher's Index](#), 1991 Vols for 1969 include a section of abstracts [Transculturality](#) Hans Jörg Sandkühler, 2004 The concept of transculturality no longer assumes that cultures are homogenous unities with stable borders Borders are no longer given be it through nation ethnicity religion or tradition or homogenous subject identities etc Rather they emerge and change through the dynamics and complexity of flexibly coexisting networks between persons To this degree cultures are agendas within which one thinks and according to which one wants to act in solidarity with others because more than one person is convinced of its worth for the shaping of life This is the context within which Korean and German philosophers social scientists and cultural scientists together and in an atmosphere of openness and learning pursue their interests in philosophical questions about human existence about understanding and knowledge and in problems of society law democracy and state There are topics to be discussed these days not in isolation from one another but transculturally which are topics of that one world universal and local discourses on culture transculturality and cultural differences in the age of globalization the role of religions within cultures the possibility of transcultural communication public rationality transcultural justice and the universality of human rights **Everyday Morality** Mike W.
