Perspectives On Communication In The Peoples Republic Of China:

Western Perspectives On The People's Republic Of China: Politics, Economy And Society Colin Mackerras, 2015-03-05

How have Westerners seen the People's Republic of China over the years? The question raises many important issues which this book aims to present, analyze and explain. The basic conclusion is that Western perspectives are somewhat more complex than simply viewing China's realities. Involved also are politics and power relations, trends in journalism and scholarship as well as individual and group personalities and psychologies. Based on extensive personal experiences in China dating back to 1964 and wide ranging travel in Tibet and ethnic regions since the 1980s, the author attempts to distinguish trends in different Western countries. However, most of the material will concern the United States which has been the dominant contributor to Western perspectives during the whole period of concern to this book. The perspectives are taken up by topic including politics, economy, society and ethnic minorities. Inherent in each topic is the way cultures see and react towards each other. Images and perspectives can affect policy and have done so many times in the past which adds to the importance of this book. It also takes up questions of the sources of Western perspectives both in terms of direct sources such as newspapers, television or the internet and deeper ones such as social values and temperament.

Perspectives on Communication in the People's Republic of China James A. Schnell, 1999-10-13 China's development from a traditional society to a technologically advanced, completely modern republic has been extraordinarily rapid. Due to developments since the mid 1980s, Chinese daily life for many has jumped directly from that constrained by an agricultural economy to that liberated by the information age. In *Perspectives on Communication in the People's Republic of China*, James Schnell chronicles these changes and their impact on mass communication. He looks closely at Chinese newspaper reports and television programs and listens to government officials and people in the street, providing readers with an insider's view of the current state of communication in China from the political to the personal. Grouped under the major categories of politics, education and health are observations gleaned from Schnell's nine visits to China as a visiting scholar and military attaché. Ethnographic case studies are supported by examples from the media and supplemented with extensive references. Schnell concludes his fascinating look at contemporary China with an examination of cross-cultural communication on the most sophisticated level that between President Clinton and Chinese officials during Clinton's 1998 visit to China. This book is a must reading for students of Asian studies with an interest in communications and is ideal supplementary reading for courses in both communications and Asian studies.

The Handbook of Communication in Cross-cultural Perspective Donal Carbaugh, 2016-08-19 This handbook brings together 26 ethnographic research reports from around the world about communication. The studies explore 13 languages from 17 countries across 6 continents. Together, the studies examine through cultural analyses communication practices in cross-cultural perspective. In doing so and as a global community of scholars, the studies explore the diversity in ways communication is understood around the world, examine specific cultural

traditions in the study of communication and thus inform readers about the range of ways communication is understood around the world Some of the communication practices explored include complaining hate speech irreverence respect and uses of the mobile phone The focus of the handbook however is dual in that it brings into view both communication as an academic discipline and its use to unveil culturally situated practices By attending to communication in these ways as a discipline and a specific practice the handbook is focused on and will be an authoritative resource for understanding communication in cross cultural perspective Designed at the nexus of various intellectual traditions such as the ethnography of communication linguistic ethnography and cultural approaches to discourse the handbook employs then a general approach which when used understands communication in its particular cultural scenes and communities

Multidisciplinary Perspectives on Media Fandom Dunn, Robert Andrew,2020-05-08 Leisure time today is driven by fandom Once viewed as a social pariah the fan and associated fandom as a whole has transformed into a popularized social construct researchers are still attempting to understand Popular culture in the modern era is defined and dominated by the fan and the basis of fandom has established its own identity across several platforms of media As some forms of fandom have remained constant including sports and cinema other structures of fandom are emerging as the mass following of video games and cosplay are becoming increasingly prominent Fandom has been established as an important facet in today s society and necessary research is required for understanding how fandom is shaping society as a whole Multidisciplinary Perspectives on Media Fandom is a pivotal reference source that provides vital research that reviews some of the most exigent facets of today s fandom and highlights understudied cultures of fandom as well as emerging intricacies of established fandom While promoting topics such as esports influencer culture and marketing trends this publication explores both qualitative and quantitative approaches as well as the methods of social science and critical perspectives This book is ideally designed for marketers media strategists brand managers consumer behavior analysts researchers academics and students

Mediation in the People's Republic of China and Hong Kong (SAR) Sarah E. Hilmer,2009 This book explores the mediation systems of mainland China and Hong Kong Although no mediation law currently exists in either system there are various provisions and institutional rules referring to mediation In order to understand the distinct legislative mediation approach in both systems the historical development of mediation is examined In addition the involvement of the judiciary and the mediation areas of the People s Republic of China PRC and Hong Kong are covered The author sets out the differences and similarities between the two systems and concludes that the one country two systems principle also applies to PRC s and Hong Kong s mediation systems one country two mediation systems As mediation is increasingly used to settle commercial disputes and as China s role in international commerce is becoming pivotal a book that specifically deals with mediation in China cannot fail to be of importance to anyone interested in mediation

Global Dialogue on Media Dynamics, Trends and Perspectives on Public Relations and Communication Fong Peng Chew,2025-01-08 This book contains the

proceedings of the International Conference on Public Relations and Media Communication PRMC 2024 which explore the dynamic intersections of public relations and media in today's rapidly evolving landscape. It has a repository of innovative research, insightful discussions and emerging trends in digital media strategies, crisis communication, media ethics, public relations in the age of social media and the impact of emerging technologies on media practices. This is a highly useful guide for university professors, research scholars, writers, journalists and media professionals who wish to stay updated on the recent shifts in public relations and media communication.

Perspectives on Contemporary Education in China Jing Wang, Yenbo Wu, 1989. The research reflected herein reveals not only current educational developments in China but exemplifies the usefulness of comparative education. This publication, stemming from a June 1988 conference in Buffalo, New York on education in China, is written from a uniquely Chinese perspective, mixed with a firm understanding of education in other countries and of a variety of research methodologies learned from doctoral study in the United States. Topics include an organizational analysis of central administration, expansion of higher education, 1977-1987 current reform in higher education, issues and trends of the specialization structure in higher education, an analysis of issues and perspectives on compulsory nine-year education, policies and realities concerning why high school teachers do not want to teach, the conflict between two career options: vocational or liberal arts education, status differences in the natural and social sciences training and development in distance education and learning, a perspective on the development of career counseling and women's education, progress and contradictions in revolution and in modernization. Chinese History And Civilisation: An Urban Perspective Victor F S Sit, 2021-08-27. The emergence of the city marks the beginning of a civilisation. The city, especially the leading cities of a country, is also where the major features of a country are contained and where historical events play out. This book introduces readers to the progress of China's civilisation over more than 5000 years of history through the rise and development of its cities. From the prehistoric Yangshuo and Longshan periods all the way to the People's Republic, this book outlines major events and developments to highlight the evolution of the Chinese civilisation. Using historical dynasties and urban dynamics as vertical dimensions, it examines major historical events, economic developments, territorial changes and other developments over China's long history. It also discusses the uniqueness of China's history and compares its civilisations to Western experiences.

Chinese Perspectives in Rhetoric and Communication D. Ray Heisey, 2000-05-09. This volume presents recent and unpublished research by Chinese scholars from China and the US on ways in which Chinese culture influences and intersects with communication theory and practice in China. It focuses on communication and cultural concepts as they function in Chinese society in the media, in the workplace and in the way people think. It includes historical analyses of Mao's political

rhetoric before and during the Cultural Revolution as well as political rhetoric by Deng Xiaoping all with a cultural emphasis
