Mehos,2017-11-09 This book explores how the experimental perspective determines what ethical issues new technologies raise and how it helps morally evaluate their introduction *Starting the Dialogue* Marie Hoepfl,Brian Raichle,James Byron Houser,2015-08-05 *New Perspectives in Technology Transfer* Dana Mietzner,Christian Schultz,2021-02-06 This edited book presents research results that are relevant for scientists practitioners and policymakers who engage in knowledge and technology transfer from different perspectives Empirical and conceptual chapters present original approaches regarding the current practice and policies behind technology transfer By providing analyses at the macro meso and micro level the respective chapters demonstrate how technology is moving from various organizational contexts into new institutions and becoming a critical aspect for competitiveness **New Perspectives on Neo-Kantianism and the Sciences** Helmut Pulte,Jan Baedke,Daniel Koenig,Gregor Nickel,2024-07-05 This volume considers the exchange between the Neo Kantian tradition in German philosophy and the sciences from the last third of the nineteenth century to the Great war and partly beyond During this period various scientific disciplines underwent modernisation processes characterised by an increasing empirical inclination and a decline in the influence of metaphysics the pluralisation of theories and the historical and pragmatic revitalisation of scientific claims against philosophy The various contributions look at the ways in which a certain Kantian orthodoxy was influenced by these new developments and whether and how itself had some impact on the development of the sciences The volume is not limited to the exact sciences of mathematics and physics which are particularly important for the Kantian tradition but also takes into account less recognised disciplines such as biology chemistry technology and psychology It is complemented by contributions that contrast Neo Kantianism with other scientific philosophies of the period in question *Perspectives on User Innovation* Stephen Flowers,Flis Henwood,2010 **Technology Integration in Higher Education: Social and Organizational Aspects** Surry, Daniel W.,Gray Jr., Robert M.,Stefurak, James R.,2010-12-31 This book provides a sound overview of the ways that technology influences the human and organizational aspects of higher education and how technology is changing the relationship between faculty and students higher education experience and the role of colleges and universities within society as a whole Provided by publisher *Technology and Cultural Values* Peter D. Hershock,Marietta Stepaniants,Roger T. Ames,2003-10-31 Recent history makes clear that the quantum leaps being made in technology are the leading edge of a groundswell of paradigm shifts taking place in science politics economics social institutions and the expression of cultural values Indeed it is the simultaneity and interdependence of these changes occurring in every dimension of human experience and endeavor that makes the present so historically distinctive The essays gathered here give voice to perspectives on the always improvised relationship between technology and cultural values from Africa the Americas Asia Australia Europe and
