Perspectives In Womens Studies Globalization:

WOMEN EDUCATION IN MODERN PERSPECTIVE Dr. Savita Mishra, Ms. Reshma Khatun, 2017-07-26 There has been a long history of addressing women's rights and much progress has been made in securing it across the world in recent decades. However, important gaps remain and women's realities are constantly changing with new manifestations of discrimination against them which emerges regularly. Some groups of women face additional forms of discrimination based on their age, ethnicity, nationality, religion, health status, marital status, education, disability, and socio-economic status among other grounds. **Encompassing Gender** Mary M. Lay, Janice J. Monk, Deborah Rosenfelt, 2002 From Beijing to Seattle women's movements within academe and in local global communities are growing at an unprecedented rate raising pointed questions about paradigms of Western feminism, development, global trade, and scholarship. Despite this growing visibility, the perspectives of far too many women, especially from the Global South, are still excluded from mainstream U.S. scholarship. Presented with the task of preparing students for life in this new and rapidly shrinking world, many scholars have found themselves overwhelmed by the need to cross disciplinary and geographic borders. But some faculty are leading the way, often in defiance of academic traditions and prejudices, to a curriculum that reflects consequences of globalization. *Encompassing Gender* is the long-awaited anthology of more than 40 essays by 60 scholars, many of them working in curriculum transformation groups that cut across the humanities, the sciences, and the social sciences, all of them committed to an interdisciplinary approach to internationalizing the curriculum. Immigrant Women and Feminism in Italy Wendy Pojmann, 2017-03-02 The influx of female migrants to Europe has posed challenges to established European feminist movements. In this book, the author assesses the significance of female immigration to Italy and its impact on Italian feminism by analyzing the way in which immigrant and Italian women have constructed their relationships over the past 30 years. The book provides comprehensive overviews of the Italian women's movement and the history of immigration to Italy, before examining the formation of immigrant women's groups, the treatment of immigrant women by Italian women's associations, and the forging of new relationships in multicultural women's organizations. Broader comparisons on European migration are made to contextualize immigration to Italy and Southern Europe more generally. By drawing from a variety of research materials such as structured interviews, participant observation, and empirical data, the book contributes to an interdisciplinary approach to the study of gender, migration, and contemporary Italian history. The book is of interest for scholars and postgraduates in the fields of women and gender studies, migration studies, and contemporary European history. *Women's Labor in the Global Economy* Sharon Harley, 2007 Examines the ways in which women across the globe individually and collectively are responding to new economic pressures and historical circumstances that are shaping their lives. **Gender Equality in a Global Perspective** Anders Ortenblad, Raili Marling, Snjezana Vasiljevic, 2017-01-06 *Gender Equality in a Global Perspective* looks to discuss whether Gender Equality can be adopted as it has been defined in

international documents anywhere or whether it needs to be adapted in a more local context discuss which factors and perspectives need to be taken into account when adapting Gender Equality to specific contexts suggest research approaches for studies on whether a universal Western concept of Gender Equality fits in certain specific contexts and finally suggests challenges to the existing interpretation of Gender Equality e g theory of intersectionality and the development of legal and policy framework This book is situated within the tradition of comparative gender studies While most other such books take up and compare various ways of implementing or not implementing gender equality this book studies and compares whether or not and to what extent a specific definition of Gender Equality GE could be adopted by various nations Thus all chapter contributors will engage with the same definition of GE which will be presented within the book and discuss the possibilities and constraints related to applying such a definition in their particular national context The readers will learn about the problems of applying a universal concept of Gender Equality and the possible reasons for and modes of adapting Gender Equality to different contexts Gender Equality in a Global Perspective looks to maintain a critical and reflexive stance towards the issues raised and will seek to present multiple perspectives and open ended answers As such it hopes to contribute to the international discussion of human rights more broadly and Gender Equality specifically The intended audience is not limited only to but will include policy makers scholars and students with an interest in Gender issues Organizational Theory Political Science Human Development Policy Analysis Globalization and other management sub disciplines
