Perspectives On Initiation:

Perspectives on Initiation René Guénon, 2004-05 The present volume first published at the close of World War II and based on a series of articles on initiation originally written between 1932 and 1938 for *Le Voile d Isis* later renamed *tudes Traditionnelles* is unique in giving a comprehensive account both of the conditions of initiation and of the characteristics of organizations qualified to transmit it Gu non s distinction between the initiatic and the mystical paths the first requiring a formal relationship with a master a set of specific contemplative techniques and a chain of transmission stretching back to the origin of the tradition in question the second generally lacking these elements led to some controversy between those who accept this distinction and others who believe that initiatory and mystical spirituality are one and the same The book presents such central principles as the dangers and barrenness of syncretism the often dire consequences of fostering psychic powers and the superiority of sacerdotal initiation into the Greater Mysteries over royal initiation into the Lesser Mysteries though both are necessary parts of the initiatic path This last point precisely defines the rift between Gu non and Julius Evola whose elevation of royal initiation over sacerdotal must be seen according to Gu non s criteria as a modern day echo of the ancient revolt of the warrior caste against the priestly one Whoever follows Gu non s argument will realize that a romantic warrior mysticism held no fascination for him and is in fact explicitly contrary to his principles But pre eminently *Perspectives on Initiation* provides indispensable points of reference for anyone attempting to distinguish between initiatic pseudo initiatic and countert initiatic spiritualities in these profoundly uncertain times

Perspectives on Initiation René Guénon, 2001 Ren Gu non 1886 1951 was one of the great luminaries of the twentieth century whose critique of the modern world has stood fast against the shifting sands of intellectual fashion His extensive writings now finally available in English are a providential treasure trove for the modern seeker while pointing ceaselessly to the perennial wisdom found in past cultures ranging from the Shamanistic to the Indian and Chinese the Hellenic and Judaic the Christian and Islamic and including also Alchemy Hermeticism and other esoteric currents they direct the reader also to the deepest level of religious praxis emphasizing the need for affiliation with a revealed tradition even while acknowledging the final identity of all spiritual paths as they approach the summit of spiritual realization *Perspectives on Initiation* first published at the close of World War II and based on a series of articles on initiation originally written between 1932 and 1938 for *Le Voile d Isis* later renamed *tudes Traditionnelles* is unique in giving a comprehensive account both of the conditions of initiation and of the characteristics of organizations qualified to transmit it Gu non s distinction between the initiatic and the mystical paths the first requiring a formal relationship with a spiritual master a set of specific contemplative techniques and a chain of transmission stretching back to the origin of the tradition in question the second generally lacking these elements led to some controversy between those who accept this distinction and others who believe that initiatic and mystical spirituality are one and the same The book presents such central principles as the dangers and barrenness of syncretism the often dire

consequences of fostering psychic powers and the superiority of sacerdotal initiation into the Greater Mysteries over royal initiation into the Lesser Mysteries although both are necessary parts of the initiatic path Whoever follows Gu non s argument will realize that a romantic royal or warrior mysticism held no fascination for him and is in fact explicitly contrary to his principles But pre eminently Perspectives on Initiation provides indispensable points of reference for anyone attempting to distinguish between initiatic pseudo initiatic and counter initiatic spiritualities in these profoundly uncertain times Related articles were later published 1952 in the posthumous collection Initiation and Spiritual Realization

Perspectives on Initiation Rene Ghenon, 2015-04-02 Gu non s writings encompass a wide range of metaphysical themes yet these works as whole evince a unity and organic coherence which Gu non always saw as a critical part of his work As a result each topic is integrally related to many others In 1921 Gu non published an Introduction to the Study of the Hindu Doctrines His goal as he writes it is an attempt at presenting to westerners eastern metaphysics and spirituality as they are understood and thought by easterners themselves while pointing at what Ren Gu non describes as all the erroneous interpretations and misunderstandings of western orientalism and neospiritualism for the latter notably the proponents of Madame Blavatsky s theosophism Right from that time he presents a rigorous understanding not only of Hindu doctrines but also of eastern metaphysics in general 17 He managed to expose these doctrines to a western public viewed by him as quite unprepared and unreceptive as a whole 18 He departed from standard scholarship orientalist terminology and methods and preferred to expose the doctrines as a simple easterner devoid of what he called western prejudices 19 For one of the most famous aspects of Ren Gu non s work is the irreducible difference he describes between the East and the West 20 Ren Gu non defines eastern metaphysics and intellectuality as of universal nature that opens possibilities of conception which are truly beyond any limitation His work comprises *Initiation and Spiritual Realization* René Guénon, 2004-05 Initiation and Spiritual Realization is the closest thing to a work on spiritual direction Ren Gu non ever wrote touching as it does upon such vital topics as the transmission of initiatic grace the various types and functions of the spiritual master obstacles the aspirant is likely to encounter different modes of contemplation and the degrees of spiritual realization A companion volume to Perspectives on Initiation where Gu non had defined the nature of initiation and of the organizations qualified to transmit it Initiation and Spiritual Realization was the first thematic collection of Gu non s articles to appear after his death And one doctrine expressed in this book stands out as particularly timely that esoterism is not and cannot be a religion in itself since to take it as such is to reduce it to an alternative exoterism and a heterodox one at that Initiatic esoterism can only be legitimately and effectively practiced within the context of one of the established revealed religions *Anthropology and mysticism in the making of initiation* Andy Hilton, 2023-09-14 By the 1980s interest in initiation was at its peak it was being employed both theoretically and practically in gender politics and humanistic therapy How did that come to be how should we understand initiation and what can be its future This wide ranging book looks at the history evolution and contemporary

idea of initiation It traces origins in the ancient Mysteries and early Christian texts through Renaissance rediscoveries to admission in Freemasonry and anthropological investigations in French Canada and British Australia It introduces the initiation discourse as something that was constructed through centuries of translations and nineteenth century human science leading to the making of the modern concept It argues for a subject initiation studies that effectively secularised the eighteenth century rites of admission to produce the twentieth century rites of passage And it details as compensation for this hollowing out of the mystery the study of shaman spirit workers the idea of death and rebirth and the later sacralisation of the liminal in adolescent adult initiation Finally a contemporary revision is explored that incorporates neglected aspects like depth psychology and education for an idea of youth as a life stage And while ritual is now deemphasised the religious dimension is reaffirmed with a critical analysis of cosmic consciousness the enduring Great Mystery

Perspectives on Written Argument Deborah Berrill,1996 An introduction to ways of understanding argument This text

voices the different ways of understanding argument and questions the traditional assumptions of what written arguments must be. Many of the topics are discussed in relation to Western philosophy rhetoric and composition theory. **Ecumenical Perspectives on Baptism, Eucharist and Ministry** Max Thurian, 1983. *Culture and the Human Body* John W. Burton, 2001. To appreciate the human body is to acknowledge the various ways in which it has become a cultural artifact rather than a purely natural phenomenon. **BOOK JACKET** *The African Conundrum* Mawere, Munyaradzi, Mubaya, Tapuwa R., 2017-05-22. The African conundrum is rooted out of the historical philosophical and cultural bastardisation imbalances and inequalities which many post colonial African governments have always sought to address though with varying degrees of success since the 1960s. Lamentably this African conundrum is rarely examined in a systematic manner that takes into account the geopolitical milieu of the continent past and present. This volume seeks to interrogate and examine the extent of the impact of the geopolitical seesaw which seems poised to tip in favour of the Global North. The book grapples with the question on how Africa can wake up from its cavernous intellectual slumber to break away from both material and psychological dependency and achieve a transformative political and socio economic self reinvention and self assertion. While the African conundrum is largely a result of historic oppression and a resilient colonial legacy this book urges Africans to rethink their condition in a manner that makes Africa responsible and accountable for its own destiny. The book argues that it is through this rethinking that Africa can successfully transcend the logic of post imperial dependency. Initiation and Religion Roger Schroeder, 1992. **Perspectives on Childhood** Bob Hill, R. J. Hill, Graham Pike, David Selby, 1998. Presents readings and activities designed to help secondary students explore perspectives on childhood child rearing and children's rights. Material includes role plays and simulations and is engaging and demanding touching on areas such as the age of consent child labor and conceptions of beauty. Each activity is presented with supportive notes for teachers. Also contains a resources list and a summary version of the UN Convention on the Rights of the Child. Can be used with secondary and further education students. The editors are affiliated with Charles Stuart University Australia and the University of Toronto Canada as well as the International Institute for Global Education.
