

Peste Negra

Marco Cascella

Peste Negra:

Plaga: La Peste Negra (Plague: The Black Death) Janey Levy, 2015-07-15 The plague aptly known as the Black Death swept through Europe in the 1300s killing more than 20 million people Not only deadly but incredibly painful the disease was characterized by black boils all over the body that oozed blood and pus While providing more details about the plague this book an asset to any social studies collection also addresses where the lethal outbreak originated and whether it could return Aided by striking illustrations sidebars and fact boxes readers will discover the conditions in the Middle Ages that made it possible for such an appalling disease to spread so easily *The Complete History of the Black Death* Ole Jørgen

Benedictow, 2021 Completely revised and updated for this new edition Benedictow's acclaimed study remains the definitive account of the Black Death and its impact on history The first edition of *The Black Death* collected and analysed the many local studies on the disease published in a variety of languages and examined a range of scholarly papers The medical and epidemiological characteristics of the disease its geographical origin its spread across Asia Minor the Middle East North Africa and Europe and the mortality in the countries and regions for which there are satisfactory studies are clearly presented and thoroughly discussed The pattern pace and seasonality of spread revealed through close scrutiny of these studies exactly reflect current medical work and standard studies on the epidemiology of bubonic plague Benedictow's findings made it clear that the true mortality rate was far higher than had been previously thought In the light of those findings the discussion in the last part of the book showing the Black Death as a turning point in history takes on a new significance OLE J BENEDICTOW is Professor of History at the University of Oslo **On the Social Origins of Medieval**

Institutions, 2021-09-20 A collection of essays celebrating the career of Joseph F O Callaghan a noted historian of Spanish history Written by his students and colleagues they explore the relationship between human society and the institutions it produces The first part of the book *The Influence of Law on Society* contains essays exploring the laws and customs regarding such social institutions as marriage the care of the sick and Jews The second part *The Relationship between Government and War* focuses on the institutional and technological innovations that the crown and parliament in Spain and England developed to wage war *Economic and biological interactions in pre-industrial Europe, from the 13th to the 18th century* Istituto internazionale di storia economica F. Datini. Settimana di studio, Simonetta Cavaciocchi, 2010 *Geschichte*
