**Literature of the 1900s** Jonathan Wild, 2017-01-17 Challenges conventional views of the Edwardian period as either a hangover of Victorianism or a bystander to literary modernism In this ground breaking study Jonathan Wild investigates the literary history of the Edwardian decade This period long overlooked by critics is revealed as a vibrant cultural era whose writers were determined to break away from the stifling influence of preceding Victorianism In the hands of this generation which included writers such as Arnold Bennett Joseph Conrad E M Forster Beatrix Potter and H G Wells the new century presented a unique opportunity to fashion innovative books for fresh audiences Wild traces this literary innovation by conceptualising the focal points of his study as branches of one of the new department stores that epitomized Edwardian modernity a These adepartments war and imperialism the rise of the lower middle class childrens literature technology and decadence and the condition of England offer both discrete and interconnected ways in which to understand the distinctiveness and importance of the Edwardian literary scene Overall The Great Edwardian Emporium offers a long overdue investigation into a decade of literature that provided the cultural foundation for the coming century **The British**

**National Bibliography** Arthur James Wells, 2000 **Memory and Affect in Development** Charles A. Nelson, 2014-02-25 As in recent years a thematic concept was selected over a general one for the 26th annual Minnesota Symposium on Child Psychology In this case the relation between memory and affect was targeted for two reasons The first concerned the a priori theoretical relation between these content areas The second concerned the observation that memory and affect have historically been studied as separate content areas an unfortunate decision considering the potential of each area to inform the other To redress this investigators working on the relation between memory and affect were identified Their presentations are also anchored by one or two presentations on either memory or affect Those familiar with the broader domain of developmental psychology will readily identify this volume in the series as filling the void left by the lack of
