information about background personality theory and theory of psychotherapy provides a way for students to understand the application of the theory Using case summaries and client therapist dialogues Sharf demonstrates how twelve theories can be applied to individual therapy and to common psychological disorders such as depression anxiety and borderline disorders Sharf shows how each theory can be applied to work with groups Sharf also describes how each theory can be applied to families as well as providing a description of family systems theories in Chapter 13 Family Therapy

Existential Perspectives on Supervision Emmy van Deurzen, Sarah Young, 2009-07-31 Supervision is an essential part of counselling and psychotherapy practice It is increasingly recognised as a tool for ensuring high professional standards In an era of regulation and tightening control there is a growing professional need to take stock and reflect on what it means to work with human problems It is vital that therapists address the moral and philosophical dimensions of their profession and ask themselves what it is to be human This rich and far reaching book explores supervision from this timely philosophical perspective Designed both for trainees and more seasoned professionals whatever their theoretical orientation it makes a clear case for seeing existential perspectives on supervision as complementary to rather than as a substitute for other forms of supervision In doing so the book Allows for an integration of existential supervision within a consistent cross theoretical framework Helps readers to take better account of the personal ethical political and cultural dimensions of their work Promises to rekindle practitioners passion for their therapeutic work whilst broadening their vision
