**Rankings and the Reshaping of Higher Education** Ellen Hazelkorn, 2015-03-23 University rankings have gained popularity around the world and are now a significant factor shaping reputation This second edition updates Ellen Hazelkorn's first comprehensive study of rankings from a global perspective drawing in new original research and extensive analysis It is essential reading for policymakers managers and scholars U. S. News Ultimate College Guide Anne McGrath, 2006 Provides guidance for choosing a school getting accepted and finding financial aid and profiles over 1 400 colleges and universities in the U S Breaking Ranks Colin Diver, 2022-04-12 Some colleges will do anything to improve their national ranking That can be bad for their students and for higher education Since U S News World Report first published a college ranking in 1983 the rankings industry has become a self appointed judge declaring winners and losers among America's colleges and universities In this revealing account Colin Diver shows how popular rankings have induced college applicants to focus solely on pedigree and prestige while tempting educators to sacrifice academic integrity for short term competitive advantage By forcing colleges into standardized best college hierarchies he argues rankings have threatened the institutional diversity intellectual rigor and social mobility that is the genius of American higher education As a former university administrator who refused to play the game Diver leads his readers on an engaging journey through the mysteries of college rankings admissions financial aid spending policies and academic practices He explains how most dominant college rankings perpetuate views of higher education as a purely consumer good susceptible to unidimensional measures of brand value and prestige Many rankings he asserts also undermine the moral authority of higher education by encouraging various forms of distorted behavior misrepresentation and outright cheating by ranked institutions The recent Varsity Blues admissions scandal for example happened in part because affluent parents wanted to get their children into elite schools by any means necessary Explaining what is most useful and important in evaluating colleges Diver offers both college applicants and educators a guide to pursuing their highest academic goals freed from the siren song of the best college illusion Ultimately he reveals how to break ranks with a rankings industry that misleads its consumers undermines academic values and perpetuates social inequality *Research Handbook on University Rankings* Hazelkorn, Ellen, Mihut, Georgiana, 2021-12-10 Gathering unique and thoughtful contributions from leading international scholars this timely Research Handbook offers diverse perspectives on university rankings twenty years after the first global rankings emerged It presents an in depth analysis that reflects the current state of research on rankings their influence and impact *The College Completion Glass—Half-Full or Half-Empty?* Tiffany Beth Mfume, 2018-12-21 Despite the Great Recession and looming student loan debt crisis college education remains the most proven invaluable lifetime investment and serves as the most reliable path to upward mobility and socioeconomic class reassignment Mfume suggests that the value added of even one year of college can be transformative As higher education professionals and partners continue to advocate for new and improved college

retention and graduation measures The College Completion Glass Half Full or Half Empty Exploring the Value of Postsecondary Education presents a new paradigm for higher education one that focuses on the value added of postsecondary education as well as on student success beyond the traditional measure of college graduation rates a model which merges conventional practices and supports for students with non traditional partnerships with and advocacy from successful non completers *Research Analytics* Francisco J. Cantu-Ortiz, 2017-10-25 The growth of machines and users of the Internet has led to the proliferation of all sorts of data concerning individuals institutions companies governments universities and all kinds of known objects and events happening everywhere in daily life Scientific knowledge is not an exception to the data boom The phenomenon of data growth in science pushes forth as the number of scientific papers published doubles every 9 15 years and the need for methods and tools to understand what is reported in scientific literature becomes evident As the number of academicians and innovators swells so do the number of publications of all types yielding outlets of documents and depots of authors and institutions that need to be found in Bibliometric databases These databases are dug into and treated to hand over metrics of research performance by means of Scientometrics that analyze the toil of individuals institutions journals countries and even regions of the world The objective of this book is to assist students professors university managers government industry and stakeholders in general understand which are the main Bibliometric databases what are the key research indicators and who are the main players in university rankings and the methodologies and approaches that they employ in producing ranking tables The book is divided into two sections The first looks at Scientometric databases including Scopus and Google Scholar as well as institutional repositories The second section examines the application of Scientometrics to world class universities and the role that Scientometrics can play in competition among them It looks at university rankings and the methodologies used to create these rankings Individual chapters examine specific rankings that include QS World University Scimago Institutions Webometrics U Multirank U S News World Report The book concludes with a discussion of university performance in the age of research analytics
