Personal Knowledge And Beyond:

Personal Knowledge and Beyond James V. Spickard, Shawn Landres, Meredith B. McGuire, 2002-02 *Personal Knowledge and Beyond* seeks to foster a cross disciplinary rethinking of ethnography's possibilities and limits for the study of religions. It provides an overview of recent debates while also pushing them in new directions. [Knowledge-Based Development for Cities and Societies: Integrated Multi-Level Approaches](#) Metaxiotis, Kostas, Carrillo, Francisco Javier, Yigitcanlar, Tan, 2010-02-28 This book presents a better knowledge and understanding of applying knowledge based development policies contributing to the theorizing of knowledge based development and creation of knowledge societies. Provided by publisher.

[Proceedings of the Boston Colloquium for the Philosophy of Science 1966/1968](#) Robert S. Cohen, Marx W. Wartofsky, 2012-12-06 The fourth volume of *Boston Studies in the Philosophy of Science* consists mainly of papers which were contributed to our Colloquium during the past few years. The volume represents a wide range of interests in contemporary philosophy of science issues in the philosophy of mind and of language, the neurophysiology of perceptual and linguistic behavior, philosophy of history and of the social sciences, and studies in the fundamental categories and methods of philosophy and the interrelationships of the sciences with ethics and metaphysics. Papers on the logic and methods of the natural sciences including biological, physical, and mathematical topics appear in the fifth volume of our series. We have included in the present volume the first English translation of the classic and fundamental work on aphasia by Carl Wernicke together with a lucid and appreciative guide to his work by Dr. Norman Geschwind. The papers were not written to form a coherent volume nor have they been edited with such a purpose. They represent current work in progress both in the United States and in Europe. Although most of the authors are philosophers, it is worth noting that we have essays of philosophical significance here written by a sociologist, an anthropologist, a political scientist, and by three neurophysiologists. We hope that collaboration among working scientists and working philosophers may develop further. [Learning Limitless Knowledge](#) Ibrahim M.
