Cooper, 1976 **Stuttering** Joseph S. Kalinowski, Tim Saltuklaroglu, 2005-11 This textbook presents a new paradigm for understanding the nature and treatment of stuttering based on recent discoveries in neuroscience The authors illustrate how visible stuttering manifestations are actually a solution to a central problem acting as a compensatory mechanism for a central involuntary block rather than a problem in themselves This book features methods that reduce stuttering by inhibiting this central block through the use of sensory and motor tools notably mirror neurons and shows readers that stuttering is not a condition that can be effortlessly trained out of the system or eliminated via simple speech retraining **Current Catalog** National Library of Medicine (U.S.), First multi year cumulation covers six years 1965-70 **Stuttering Therapy** Speech Foundation of America, 1984 This volume contains five papers presented at a conference on developmental and environmental factors related to the onset of stuttering evaluation and treatment procedures and the measurement of therapy outcomes In *The Development of Fluency in Normal Children* C W Starkweather considers evaluation of the fluency of young speakers L A Nelson *Language Formulation Related to Disfluency and Stuttering* focuses on the relationships between language developmental factors disfluency and language problems of children In the paper *Speech Motor Processes and Stuttering in Children A Theoretical and Clinical Perspective* J M Hanley sees the child as a communicating interacting individual who possesses those motoric disruptions labelled as stuttering *Emotional and Environmental Problems in Stuttering* by D E Williams identifies the increasing trend toward investigation of factors within and outside of the child which contribute to increased disfluency In *Toward a Therapy Assessment Procedure for Treating Stuttering Children* R J Ingham considers ways to evaluate the effectiveness of stuttering and speech therapy programs A sixth paper *Integration Present Status and Prospects for the Future* by H H Gregory offers an integration of the main points made in the individual papers and the resultant discussion groups CB **Folia Phoniatrica**, 1985 *Stuttering Intervention* David Allen Shapiro, 1999 *Controversies about Stuttering Therapy* Hugo H.
