Perspective Art Literature Participa:

Oscar Wilde's Decorated Books Nicholas Frankel, 2000 With extensive reference to and exposition on Wilde's theoretical writings and letters Frankel shows that far from being marginal elements of the literary text these decorative devices were central to Wilde's understanding of his own writings as well as to his aesthetic theory of language Extensive illustrations support Frankel's arguments Changing Perspectives in Literature and the Visual Arts, 1650-1820 Murray Roston, 2014-07-14 Continuing with the theme of his work *Renaissance Perspectives in Literature and the Visual Arts* Murray Roston applies to a later period the same critical principle that for each generation there exists a central complex of inherited ideas and urgent contemporary concerns to which each creative artist and writer responds in his or her own way Roston demonstrates that what emerges is not a fixed or monolithic pattern for each generation but a dynamic series of responses to shared challenges The book relates leading English writers and literary modes to contemporary developments in architecture painting and sculpture A sumptuous book Clearly and gracefully written and cogently argued Roston's admirable achievement is of paramount significance to literary studies to cultural and art history and to aesthetics Outstanding Choice Originally published in 1990 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Publishers' Trade List Annual**, 1992
