## Welcome address

Legacy is not born of wealth but from wealth of accomplishment. This principle epitomizes Glasgow Neuro as we commemorate a decade of creative and inspiring conferences aimed at sparking the minds of junior researchers. As recipients of the University of Glasgow Academic Society of the Year Award, I write with a sense of profound achievement as the President of the Glasgow Neuro Society for 2022–23, extending an invitation for you to immerse yourself in our 10<sup>th</sup>-anniversary conference featuring world-renowned speakers, immersive workshops, and stimulating research.

The ethos of Glasgow stands firmly in our commitment to "raise the bar." Despite our position as a student society, our relentless ambition propelled us into becoming one of the largest neuro societies in the UK for junior members of the medical profession. Indeed, this year Glasgow Neuro was bestowed the title of academic society of the year by the University of Glasgow Students' Representative Council. Our roster of past conference speakers includes some of the brightest minds in neurosurgery, including the founder and former Chair of Neurosurgery at Stanford University, Professor Gary Steinberg; esteemed neurosurgeon and inventor of the internationally recognized Glasgow Coma Scale, Professor Sir Graham Teasdale; and Director of Neurosurgery and Neurosurgeon-in-Chief at John Hopkins, Professor Henry Brem. Our ability to attract such distinguished professionals to a conference aimed primarily at medical students and junior clinicians is a testament to our success, underscored by their admiration of our efforts, and expressed support for our future
