Perspectives On Violence:

Criminological Perspectives on Race and Crime Shaun L. Gabbidon, 2010-02-25 Ideal for use in either crime theory or race and crime courses this is the only text to look at the array of explanations for crime as they relate to racial and ethnic groups Each chapter begins with a historical review of each theoretical perspective and how its original formulation and more recent derivatives account for racial ethnic differences The theoretical perspectives include those based on religion biology social disorganization strain subculture labeling conflict social control colonial and feminism This new Second Edition includes discussions of Deadly Symbiosis critical race theory criminology comparative conflict theory maximization and abortion race and crime In the closing chapter the author considers which perspectives have shown the most promise in the area of race ethnicity and crime The Oxford Handbook of Crime and Public Policy Michael H. Tonry, 2011 This handbook

offers a comprehensive examination of crimes as public policy subjects to provide an authoritative overview of current knowledge about the nature scale and effects of diverse forms of criminal behaviour and of efforts to prevent and control them **Researching Violence** Raymond M. Lee, Elizabeth Anne Stanko, 2003 A practical guide to and demonstration of the ingenious and courageous actions of researchers in this sensitive area this key text investigates the ethical and emotional issues arising from working with the victims and perpetrators of violence International Perspectives on Family Violence

Richard J. Gelles, Claire Pedrick Cornell, 1983 **International Perspectives on Violence** Florence L. Denmark, Leonore Loeb Adler, 2004-11-30 Examines the similarities and differences in violence in various countries across the world

Fundamentals of Research in Criminology and Criminal Justice Ronet D. Bachman, Russell K. Schutt, Peggy S. Plass, 2015-12-19 Fundamentals of Research in Criminology and Criminal Justice With Selected Readings by well known researchers Ronet D Bachman Russell K Schutt and Peggy S Plass is a unique resource for understanding the multifaceted subject of research methods in the field of criminology and criminal justice amply illustrated by carefully selected and edited research articles from the leading journals in the field Each of these articles features an introduction written to draw the student s attention to the specific concept s from the chapter that are illustrated in the article and a series of questions about the article designed to help the student think critically about and reflect on these concepts In this way students not only learn how to conduct research but also learn why it is important to do so Building off the widely adopted Fundamentals of Research in Criminology and Criminal Justice the additional readings increase students understanding of complex issues being investigated in the field today and how those issues are being researched Additional instructor resources and study tools can be found online at study.sagepub.com/bachmanfrccjsr **Political Disagreement, Violence and Nonviolence** Greg McCreery, 2023-07-10 Violence and Nonviolence descriptively analyzes numerous examples of theorists definitions and characterizations of varying types of violence arguing that a commonsense view of violence and nonviolence is based on paradigm cases that most people generally agree consider as kinds of violence and nonviolence Beyond these cases however

McCreery argues that collectives of individuals form into politicized groups that share visions of these types of violence and nonviolence particularly in terms of what they believe to be legitimate kinds of violence and nonviolence in contrast to illegitimate kinds. An understanding of violence and nonviolence requires a perspectival relational approach that situates the vulnerable human body as primary. Furthermore, if nonviolence is to succeed as an effective political strategy, then it must work as a kind of violence at least from the perspective of the adversary.

Perspectives on Violence and Violent Death Robert Stevenson, Gerry Cox, 2017-03-02. This book examines violence. It looks at the nature and types of violence, the causes of violence, and the emotional wake left by violent episodes. In the twentieth century, the world experienced two world wars and countless other wars. Many millions died violent deaths from murder, death squads, purges, riots, revolutions, ethnic cleansing, rape, robbery, domestic violence, suicide, gang violence, terrorist acts, genocide, and in many other ways. As we entered the twenty-first century, we experienced 9/11, the Red Lake School deaths, suicide bombers, and more mass death brought about by the actions of governments, revolutionaries, terrorists, and still more wars. The need to better understand violence, both lethal and non-lethal, to become aware of the many forms of violence, and to learn how to survive in the aftermath of violent death are the focus of *Perspectives on Violence and Violent Death*.

Intersections of Crime and Terror James J.F. Forest, 2013-09-13. During the last ten years, an increasing number of government and media reports, scholarly books, and journal articles and other publications have focused our attention on the expanded range of interactions between international organized crime and terrorist networks. A majority of these interactions have been in the form of temporary organizational alliances or customer-supplier relationships surrounding a specific type of transaction or resource exchange, like document fraud or smuggling humans, drugs, or weapons across a particular border. The environment in which terrorists and criminals operate is also a central theme of this literature. These research trends suggest the salience of this book, which addresses how organized criminal and terrorist networks collaborate, share knowledge, and learn from each other in ways that expand their operational capabilities. The book contains broad conceptual pieces, historical analyses, and case studies that highlight different facets of the intersection between crime and terrorism. These chapters collectively help us to identify and appreciate a variety of dynamics at the individual, organizational, and contextual levels. These dynamics in turn inform a deeper understanding of the security threat posed by terrorists and criminal networks and how to respond more effectively. This book was published as a special issue of *Terrorism and Political Violence*.

Forensic Psychology of Spousal Violence Mauro Paulino, 2016-05-10. Exploring the dynamics between victim and offender is paramount to answering important issues of character and vital for forensic research. This involves examining the role of the victim during and after victimization; this process is especially important for spousal violence because of the interactive process between the victim and the offender. *Forensic Psychology of Spousal Violence* covers the phenomenon of spousal violence and its different forms.

discussing the consequences of abuse providing research tips to be used in the field including relevant case studies and much more The innovative approach of this text fills a void in the current understanding of spousal violence Uses international statistics to present data of women battered and or deceased to educate change mindsets and practices and ultimately reduce the number of battered women and spousal homicides in the future Includes current case studies Includes best practices for spousal abuse investigations Portable for use in fieldwork
