Peruvian Street Lives Culture Power And Economy Among Market Women Of Cuzco:

Peruvian Street Lives Linda J. Seligmann, 2022-08-15 For more than twenty years Linda J Seligmann walked the streets of Peru in city and countryside alike talking to the women who work in the informal and open air markets in Cuzco's Andean highlands Her combination of ethnographic analysis insightful and human vignettes and superb photographs offers a humane yet incisive portrait of the women's lives against the backdrop of globalization and other powerful forces In *Peruvian Street Lives* Seligmann argues that the sometimes invisible and informal economic social and political networks market women establish may appear disorderly and chaotic but in fact often keep dysfunctional economies and corrupt bureaucracies from utterly destroying the ability of citizens to survive from day to day Seligmann asks why the constructive efforts of market women to make a living provoke such negative social perceptions from some members of Peruvian society who see them as symbols and actual catalysts of social disorder At the same time Seligmann shows how market women eke out a living combat discrimination and transgress racial and gender ideologies within the rich and expressive cultural traditions they have developed

The Social Life of Economic Inequalities in Contemporary Latin America Margit Ystanes, Iselin Åsedotter Strønen, 2017-10-25 This book is open access under a CC BY 4.0 license This edited volume examines how economic processes have worked upon social lives and social realities in Latin America during the past decades Through tracing the effects of the neoliberal epoch into the era of the so called pink tide the book seeks to understand to what extent the turn to the left at the start of the millennium managed to challenge historically constituted configurations of inequality A central argument in the book is that in spite of economic reforms and social advances on a range of arenas the fundamental tenants of socio economic inequalities have not been challenged substantially As several countries are now experiencing a return to right wing politics this collection helps us better understand why inequalities are so entrenched in the Latin American continent but also the complex and creative ways that it is continuously contested The book directs itself to students scholars and anyone interested in Latin America economic anthropology political anthropology left wing politics poverty and socio economic inequalities

Gender and the Boundaries of Dress in Contemporary Peru Blenda Femenías, 2010-01-01 Set in Arequipa during Peru's recent years of crisis this ethnography reveals how dress creates gendered bodies It explores why people wear clothes why people make art and why those things matter in a war torn land Blenda Femenías argues that women's clothes are key symbols of gender identity and resistance to racism Moving between metropolitan Arequipa and rural Caylloma Province the central characters are the Quechua and Spanish speaking maize farmers and alpaca herders of the Colca Valley Their identification as Indians whites and mestizos emerges through locally produced garments called *bordados* Because the artists who create these beautiful objects are also producers who carve an economic foothold family workshops are vital in a nation where jobs are as scarce as peace But ambiguity permeates all practices shaping *bordados* significance Femenías traces contemporary political and ritual applications not only Caylloma's

long standing and violent ethnic conflicts to the historical importance of cloth since Inca times This is the only book about expressive culture in an Andean nation that centers on gender In this feminist contribution to ethnography based on twenty years experience with Peru including two years of intensive fieldwork Femen as reflects on the ways gender shapes relationships among subjects research and representation **Anthropology in the City** Italo Pardo, Giuliana B.

Growth Eric Hirsch, 2022-03-15 Over the last decade Peru has experienced a spectacular mining boom and astronomical economic growth Yet for villagers in Peru s southern Andes few have felt the material benefits With this book Eric Hirsch considers what growth means and importantly how it feels Hirsch proposes an analysis of boom time capitalism that starts not from considerations of poverty but from the premise that Peru is wealthy He situates his work in a network of villages near new mining sites agricultural export markets and tourist attractions where Peruvian prosperity appears tantalizingly close yet just out of reach This book centers on small scale development investments working to transform villagers into Indigenous entrepreneurs ready to capitalize on Peru s new national brand and access the constantly deferred promise of national growth That meant identifying as Indigenous where few actively did so identifying as an entrepreneur in a place where single minded devotion to a business went against the tendency to diversify income sources and identifying every dimension of one s daily life as a resource despite the unwelcome intimacy this required Theorizing growth as an affective project that requires constant physical and emotional labor Acts of Growth follows a diverse group of Andean residents through the exhausting work of making an economy grow **A Companion to Urban Anthropology** Donald M.

Owners of the Sidewalk Daniel M. Goldstein, 2016-01-22 Many of Bolivia's poorest and most vulnerable citizens work as vendors in the Cancha mega market in the city of Cochabamba where they must navigate systems of informality and illegality in order to survive In *Owners of the Sidewalk* Daniel M Goldstein examines the ways these systems correlate in the marginal spaces of the Latin American city Collaborating with the Cancha's legal and permanent stall vendors *fijos* and its illegal and itinerant street and sidewalk vendors *ambulantes* Goldstein shows how the state's deliberate neglect and criminalization of the Cancha's poor a practice common to neoliberal modern cities makes the poor exploitable governable and consigns them to an insecure existence Goldstein's collaborative and engaged approach to ethnographic field research also opens up critical questions about what ethical scholarship entails

Foxboy Catherine J. Allen, 2011-08-01 Once there was a Quechua folktale It begins with a trickster fox's penis with a will of its own and ends with a daughter returning to parents who cannot recognize her until she recounts the uncanny adventures that have befallen her since she ran away from home Following the strange twists and turnings of this tale Catherine J Allen weaves a narrative of Quechua storytelling and story listening that links these arts to others fabric weaving in particular and thereby illuminates enduring Andean strategies for communicating deeply felt cultural values In this masterful work of literary nonfiction Allen draws out the connections between two prominent markers of ethnic identity in Andean nations indigenous language and woven cloth and makes a convincing case that the connection between language and cloth affects virtually all aspects of expressive culture including the performing arts As she explores how a skilled storyteller interweaves traditional tales and stock characters into new stories just as a skilled weaver combines traditional motifs and colors into new patterns she demonstrates how Andean storytelling and weaving both embody the same kinds of relationships the same ideas about how opposites should meet up with each other By identifying these pervasive patterns Allen opens up the Quechua cultural world that unites story tellers and listeners as listeners hear echoes and traces of other stories layering over each other in a kind of aural palimpsest
