Essential West Elliott West, 2012-10-29 Scholars and enthusiasts of western American history have praised Elliott West as a distinguished historian and an accomplished writer and this book proves them right on both counts Capitalizing on West's wide array of interests this collection of his essays touches on topics ranging from viruses and the telegraph to children bison and Larry McMurtry Drawing from the past three centuries West weaves the western story into that of the nation and the world beyond from Kansas and Montana to Haiti Africa and the court of Louis XV Divided into three sections the volume begins with conquest West is not the first historian to write about Lewis and Clark but he is the first to contrast their expedition with Mungo Park's contemporaneous journey in Africa The Lewis and Clark expedition West begins is one of the most overrated events in American history and one of the most revealing The humor of this insightful essay is a chief characteristic of the whole book which comprises ten chapters previously published in major journals and magazines but revised for this edition and four brand new ones West is well known for his writings about frontier family life especially the experiences of children at work and play Fans of his earlier books on these subjects will not be disappointed In a final section he looks at the West of myth and imagination in part to show that our fantasies about the West are worth studying precisely because they have been so at odds with the real West In essays on buffalo Jesse James and the McMurtry novel *Lonesome Dove* West directs his formidable powers to subjects that continue to shape our understanding and often our misunderstanding of the American West past and present

Fevers, Feuds, and Diamonds Paul Farmer, 2020-11-17 Paul Farmer brings his considerable intellect empathy and expertise to bear in this powerful and deeply researched account of the Ebola outbreak that struck West Africa in 2014 It is hard to imagine a more timely or important book Bill and Melinda Gates The history is as powerfully conveyed as it is tragic Illuminating Invaluable Steven Johnson The New York Times Book Review In 2014 Sierra Leone Liberia and Guinea suffered the worst epidemic of Ebola in history The brutal virus spread rapidly through a clinical desert where basic health care facilities were few and far between Causing severe loss of life and economic disruption the Ebola crisis was a major tragedy of modern medicine But why did it happen and what can we learn from it Paul Farmer the internationally renowned doctor and anthropologist experienced the Ebola outbreak firsthand Partners in Health the organization he founded was among the international responders In *Fevers Feuds and Diamonds* he offers the first substantive account of this frightening fast moving episode and its implications In vibrant prose Farmer tells the harrowing stories of Ebola victims while showing why the medical response was slow and insufficient Rebutting misleading claims about the origins of Ebola and why it spread so rapidly he traces West Africa's chronic health failures back to centuries of exploitation and injustice Under formal colonial rule disease containment was a priority but care was not and the region's health care woes worsened with devastating consequences that Farmer traces up to the present This thorough and hopeful narrative is a definitive work of reportage history and advocacy and a crucial intervention in public health discussions around the world

Bulletin of the Texas Archeological Society Texas Archeological Society,2005 Damned Notions of Liberty Frank T. Proctor,2010-11-15 Prior to 1640 when the regular slave trade to New Spain ended colonial Mexico was the second largest slaveholding society in the New World Even so slaves of African descent in Mexico were surrounded by a much larger indigenous majority and by the second half of the seventeenth century there were more free Afromexicans than slaves in the colony While it seems logical to assume that these unique demographic conditions may have created a situation ripe for slaves to challenge their oppression Proctor s study reexamines those assumptions Damned Notions of Liberty explores the lived experience of slavery from the perspective of slaves themselves to reveal how the enslaved may have conceptualized and contested their subordinated social positions in New Spain s middle colonial period roughly 1630 1760s Relying heavily on trials from civil ecclesiastical and Inquisitorial courts the study offers a detailed examination of some of the central issues to the culture of slavery labor family cultural community individual and collective agency and access to liberation to provide a more integrated picture of slavery in colonial Mexico

Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur ,2004 **Dutra's World** Zephyr L. Frank,2004 The relation of slavery to Brazil s economic and social history has long fascinated researchers Zephyr Frank focuses on nineteenth century Rio de Janeiro where almost half of the city s residents laboured as slaves of diverse owners in a complex urban setting Slavery persisted in the Brazilian city in part because it was entrenched among upwardly mobile entrepreneurs who hired their slaves out for wages employed them in family businesses and bought and sold them for profit Changes in the institution of slavery and the economy of the city gradually limited access to slaves constricting avenues of social mobility for slaveholders and transforming the lives of the slaves themselves Frank uses the experiences of one person Antonio Jose Dutra as an example of a middling urban slaveholder Dutra a former slave himself owned thirteen slaves whom he employed in his barbering business and musical band Dutra s story is part of the larger picture Frank paints of those who owned slaves how they fit into the social and economic development of Brazil and what slaves and their owners did as slavery rose and then gradually declined in Rio de Janeiro Frank traces social mobility *Encyclopedia of Genocide and Crimes Against Humanity* Dinah Shelton,2005 This volume covering entries T Z presents information on those acts that fall within

Latin America and the Caribbean Brian W. Blouet,Olwyn M. Blouet,2006 Within a strong geographical and historical framework this edition discusses contemporary Latin American issues such as environmental problems population pressure migration drugs and economic development It includes updated maps and photographs and new interludes on Cancun and the Yucatan **Historical Geography** ,2005 **The Souls of Purgatory** Ursula de Jesús,2004 The life of the black religious servant Ursula de Jes s 1604 1666 has remained one of the best kept historical secrets of the New World This English language translation of the diary she began in 1650 allows us to hear the voice of the former slave turned spiritualist Born into slavery in Lima Peru Ursula entered a convent at the age of thirteen to serve a nun and spent the next twenty eight years as one of hundreds of slaves whose exhausting daily work afforded little time to contemplate religious matters After surviving a potentially fatal accident she chose a spiritual path though remained a slave until one of the nuns purchased her freedom Ursula began to see visions and communicate more frequently with God Dead souls eager to diminish their stay in Purgatory approached her and it was then that she assumed the role of intercessor on their behalf Ursula s diary conveys the innuendos of convent life but above all it offers a direct experience of baroque Catholic spirituality from the perspective of a woman of color Nancy E van Deusen selected approximately fifty pages from Ursula s diary to appear here as Ursula wrote them in Spanish Van Deusen s introduction situates Ursula s text within the milieu of medieval and early modern female spirituality addresses the complexities of racial inequality and explores the power of the written word **The First Horseman** John Aberth,2007 This text intends to emphasis to students that widespread deadly disease is not a distant historical phenomenon but a continuing threat to humanity It explains the economic political social and psychological problems that deadly diseases have caused in our past and the challenges we face currently and in the future The importance of this study is emphasized by the author s last line in the text The history of disease will go on despite once confident predictions of an end to epidemics in our times and those who now wage the heroic struggle to find elusive cures to our new

plagues may find that they have more to learn from the past than had once been thought Beyond Black and Red Matthew Restall, 2005 Beyond Black and Red is the first book to deal primarily and specifically with relations between Africans and native peoples in colonial Latin America Matthew Restall has collected nine essays that represent contributions to the larger fields of colonial Latin American history African diaspora studies and ethnohistory Among the subjects addressed are marriage and miscegenation identity and nomenclature cultural exchanges labor and cooperation in resisting colonialism versus collaboration The authors examine core areas such as Mesoamerica the Andes and Brazil and peripheral ones such as Florida Colombia and the Orinoco basin The contributors find that relations between black and native peoples were sometimes harmonious sometimes hostile depending on local dynamics and individual agendas Native and black soldiers fought sometimes as comrades sometimes as adversaries and couples in mixed marriages might identify as Indian or as black depending on where the advantage lay in a given society **The Great Festivals of Colonial Mexico City** Linda Ann Curcio, 2004 This innovative work of cultural history examines the function of public rituals in colonial Mexico City Festivals were a defining characteristic of life in the capital For most of the colonial period inhabitants could witness as many as 100 religious and civil celebrations in a year The largest of these events both civil and religious were sponsored by the authorities and were crucial means to embody political and social concepts The first European public rituals were introduced immediately after the conquest of the Aztec capital Spanish priests seeking to evangelize the native population introduced Catholic festivals and civil authorities sponsored celebrations designed to glorify the Spanish empire Spectacle was one tool in an arsenal of colonizing agents and over time the growing diversity of the population made festival statecraft all the more important as government sponsored revelry attempted to promote shared histories and values among diverse and potentially dangerous groups Festivals organizers developed a highly sophisticated message embedded within the celebrations that delineated the principles of leadership and the duties of both rulers and vassals The pervasiveness of festivals and the power of the political message associated with them created possibilities for individuals to assess and participate in a larger discussion of good governance in the colony
