National Advisory Council on Bilingual Education, 1980 The Learning and Teaching of Phonological Decoding in Chinese EFL Children Keren Hua, 2024-08-30 This book presents the learning and teaching of phonological decoding in Chinese EFL primary classrooms The phonological decoding ability of the children is described interpreted and evaluated the teaching materials are analyzed and the classroom instruction observed and the links between these various facets are explored using both quantitative and qualitative techniques textbook analysis classroom observations interviews with teachers and a textbook writer reading test and nonword reading test This book provides insights into Chinese children s phonological decoding profile including performance in decoding different types of orthographic units the strategies children at different levels of reading ability use to sound out vowel graphemes and their decoding ability in relation to reading ability The investigation of the teaching practices reveals how the decoding instruction is designed developed and delivered to the children and thereby informs the interplay between the classroom instruction and children s development of phonological decoding skills

Improving Learning Steven Higgins, 2018-10-11 Improving Learning centres on the findings from different areas of education focused research that support evidence informed teaching and contextualises these results to optimise decision making in schools It also describes the origins and principles of meta analysis in education and how this identifies the successes in improving learning in classrooms Moreover it explains the thinking behind the Teaching and Learning Toolkit and similar approaches which seek a big picture overview of research findings The advantages and disadvantages of this approach are explored with practical examples Additionally it identifies

the issues in using research evidence in education and the steps that can be taken to improve this It is not a manual on how to conduct a meta analysis instead the focus is on developing understanding of the approach in order to present its strengths and weaknesses This understanding can advance critical engagement and effective use to improve educational outcomes for children and young people **Droppin' Knowledge on Sight Words and Word Mapping** Heidi Martin,Adam
