Darstellung populärer Musik ein Begriff der bereits beim Aufkommen des Begriffs mehr bedeutet als das limitierende Genre Rock und heute eine Bandbreite von Pop über klassische Musik bis zu Weltmusik umfasst ist dabei nicht nur stilprägend sondern auch maßgeblich bestimmt von der nordamerikanischen Musikindustrie und ihren Anforderungen an die Darstellung ihrer Produkte. Mit der konkreten Ausrichtung Was ist die Rockumentary und wie funktioniert sie ökonomisch hat es sich der vorliegende Band deshalb zum ersten Mal zum Ziel gesetzt jene Lücken in der Diskussion aufzugreifen und zu einer umfassenden Geschichte zu verbinden. Er geht dieser komplexen Frage über drei Zugänge nach. Er diskutiert die Rockumentary als dokumentarisches Phänomen im Musikfilm, er skizziert ihre technologische und akteursgeleitete Entwicklung von den schriftlichen Ursprüngen ins 21. Jahrhundert und er legt eine Industriestudie vor die den Produktions- und Distributionsprozess moderner Rockumentaries umfassend darstellt. Als Beispiele werden unter anderem Filme wie Monterey Pop 1968 und Justin Bieber Never Say Never 2011 sowie das TV-Format Classic Albums 1992 heute herangezogen. Mit einem Filmregister mit etwa 350 Filmen bietet die Dissertation nicht nur ein Modell für die Analyse von Musik und Film als Markt sondern auch ein umfangreiches Nachschlagewerk zum Musikfilm.

Diffusing Music Ben Neill, 2024-11-14 This book explores the democratization of music in our current era made possible by digital technologies. Music has become ubiquitous and increasingly intertwined with everyday life, rendering previous models of creation, performance, and consumption obsolete. Diffusing Music identifies trajectories between 20th-century innovators and the broader redefinition of the musical art in popular culture today. This approach can inform new modalities of musical thinking in the wake of the transformations being actualized by artificial intelligence and other emerging technologies. The author has been an active participant in many of the scenes and movements that gave rise to musical democratization. His experiences and collaborations with influential figures in the field are woven into the fabric of the narrative.

Chokepoint Capitalism Rebecca Giblin, Cory Doctorow, 2022-09-27 A call to action for the creative class and labor movement to rally against the power of Big Tech and Big Media. Corporate concentration has breached the stratosphere as have corporate profits. An ever-expanding constellation of industries are now monopolies where sellers have excessive power over buyers or monopsonies where buyers hold the whip hand over sellers or both. In Chokepoint Capitalism, scholar Rebecca Giblin and writer and activist Cory Doctorow argue we're in a new era of chokepoint capitalism with exploitative businesses creating insurmountable barriers to competition that enable them to capture value that should rightfully go to others. All workers are weakened by this but the problem is especially well illustrated by the plight of creative workers. From Amazon's use of digital rights management and bundling to radically change the economics of book publishing to Google and Facebook's siphoning away of ad revenues from news media and the Big Three record labels' use of inordinately long contracts to up their own margins at the cost of artists, chokepoints are everywhere. By analyzing book publishing and news, live music and music streaming, screenwriting, radio and more, Giblin and Doctorow deftly show how powerful corporations construct anti-

competitive flywheels designed to lock in users and suppliers make their markets hostile to new entrants and then force workers and suppliers to accept unfairly low prices In the book s second half Giblin and Doctorow then explain how to batter through those chokepoints with tools ranging from transparency rights to collective action and ownership radical interoperability contract terminations job guarantees and minimum wages for creative work Chokepoint Capitalism is a call to workers of all sectors to unite to help smash these chokepoints and take back the power and profit that s being heisted away before it s too late
