Rare and Wondrous Toledo Museum of Art, 2021 *Rare and Wondrous Birds in Art and Culture 1620-1820* examines exotic birds as a nexus for the interrelationships among natural history, expanded European colonization and trade, including the Atlantic slave trade and visual art and material culture in Europe during the period encompassing the Age of Contact and the Enlightenment. Through paintings, prints, books and decorative arts from the Toledo Museum of Art's collection and loans from other institutions, *Rare and Wondrous* explores the way these birds became the objects of scientific inquiry, of popular interest, of status and even of household decoration and personal adornment, and reveals the often complicated histories and consequences of their encounters with European culture.
