Post Jungian Criticism Theory And Practice:

Post-Jungian Criticism James S. Baumlín, Tita French Baumlín, George H. Jensen, 2004-01-29 Rereads Jung in light of contemporary theoretical concerns and offers a variety of examples of post Jungian literary and cultural criticism **Jung as a Writer** Susan Rowland, 2013-12-16 Jung as a Writer traces a relationship between Jung and literature by analysing his texts using the methodology of literary theory This investigation serves to illuminate the literary nature of Jung s writing in order to shed new light on his psychology and its relationship with literature as a cultural practice Jung employed literary devices throughout his writing including direct and indirect argument anecdote fantasy myth epic textual analysis and metaphor Susan Rowland examines Jung s use of literary techniques in several of his works including *Anima and Animus* *On the Nature of the Psyche* *Psychology and Alchemy* and *Synchronicity* and describes Jung s need for literature in order to capture in writing his ideas about the unconscious Jung as a Writer succeeds in demonstrating Jung s contribution to literary and cultural theory in autobiography gender studies postmodernism feminism deconstruction and hermeneutics and concludes by giving a new culturally orientated Jungian criticism The application of literary theory to Jung s works provides a new perspective on Jungian Psychology that will be of interest to anyone involved in the study of Jung Psychoanalysis literary theory and cultural studies **The Cambridge Companion to Jung** Polly Young-Eisendrath, Terence Dawson, 2008-05-01 This second edition represents a wide ranging critical introduction to the psychology of Carl Jung one of the founders of psychoanalysis Including two new essays and thorough revisions of most of the original chapters it constitutes a radical assessment of his legacy Andrew Samuels introduction succinctly articulates the challenges facing the Jungian community The fifteen essays set Jung in the context of his own time outline the current practice and theory of Jungian psychology and show how Jungians continue to question and evolve his thinking and apply it to aspects of modern culture and psychoanalysis The volume includes a full chronology of Jung s life and work extensively revised and up to date bibliographies a case study and a glossary It is an indispensable reference tool for both students and specialists written by an international team of Jungian analysts and scholars from various disciplines *The Child That Haunts Us* Susan Hancock, 2016-02-04 *The Child That Haunts Us* focuses on the symbolic use of the child archetype through the exploration of miniature characters from the realms of children s literature Jung argued that the child archetype should never be mistaken for the real child In this book Susan Hancock considers how the child is portrayed in literature and fairytale and explores the suggestion from Jung and Bachelard that the symbolic resonance of the miniature is inversely proportionate to its size We encounter many instances where the miniature characters are a visibly vulnerable other yet often these occur in association with images of the supernatural as the desired or feared object of adult imagination In *The Child That Haunts Us* it is emphasised that the treatment by any society past or present of its smallest and most vulnerable members is truly revealing of the values it really holds This original and sensitive exploration will be of particular interest to undergraduate and postgraduate students as well

as academics engaged in Jungian studies children's literature childhood studies and those with an interest in socio cultural constructions of childhood

Cult TV Heroines Catriona Miller, 2020-10-29 From Mrs Peel to the first female Doctor Who this book offers a timely focus on the popular phenomenon of the cult TV heroine The enduring phenomenon of cult TV itself is carefully explored through questions of genre the role of the audience and the external environment of technological advances and business drivers Catriona Miller then suggests a fresh account of the psychological dimension of the phenomenon utilising Carl Jung's concepts of the transcendent function and active imagination Her analysis of the heroines themselves considers the workings of the audio visual text alongside narrative and character arcs exploring the complex and contradictory ways in which the heroines are represented Established cult TV favourites such as Buffy the Vampire Slayer The X Files and Xena Warrior Princess are examined alongside more recent shows such as Chilling Adventures of Sabrina Jessica Jones and American Horror Story Coven

The Archetypal Pan in America Sukey Fontelieu, 2018-05-20 The Archetypal Pan in America examines the complex moral and ethical dilemmas that Americans have had to face over the last few decades including the motivations for the Vietnam War who was in control of women's productive rights how to extend civil rights to all protests for the historically unapologetic narrative of the genocide of Native Americans and the growing number of school shootings since the Columbine massacre Fontelieu suggests that the emotional pain these issues created has not resolved and that it continues to surface in the guise of new issues but with a similar dysfunctional pattern The book argues that this pattern acts in the culture in the same manner as a psychological defense system stimulating fight flight or freeze reactions requiring great stores of energy when activated and deflecting attention from other areas Relying on Jung's theory of the applicability of myth to psychological problems and the post Jungian theory of cultural complexes the myths of the Greek god Pan are used to scaffold a metaphor that informs this pattern Fontelieu proposes that rather than looking inward as a culture for how to accept its changing role in a global world this pattern reinforces dysfunctional emotional responses to the reoccurring traumas of modernity responses such as an increase in the magnetic appeal of hypermasculinity or choosing to remain naively self absorbed The Archetypal Pan in America will be of great interest to Jungian analysts and scholars of depth psychology as well as academics and postgraduate students studying psychology foreign studies literary criticism politics and cultural studies

A Jungian Reading of Selected Poems of Seamus Heaney Joy Rosemary Atfield, 2007 This book offers an examination of Seamus Heaney's poetic volume *Opened Ground* placing it into dialogue with the major themes terms and ideas of Jungian psychology This work should appeal to scholars interested in Jungian psychology Jungian readings of literature and Irish poetry *Opened Ground* in which the poems are read in Jungian terms Heaney had referred to himself as Jungian in religion and naturally used terms such as initiation individuation and the unconscious in interviews and essays Therefore key Jungian terms are examined in relation to Heaney's poetic expression of these and explored through at least one poem from each of the collections represented in *Opened Ground* This allows for an exploration of the creative

tensions involved in the poet's presentation of personal poetic and political concerns while also allowing for further examination of the powerful physicality and musical qualities of the language in which he luxuriates **A Handbook of Critical Approaches to Literature** Wilfred L. Guerin, 2005 Using classic works such as *To His Coy Mistress*, *Hamlet*, *Huckleberry Finn*, *Young Goodman Brown*, *Everyday Use* and *Frankenstein* as tools to introduce students to various critical theories this book demonstrates how different approaches to an array of readings enrich the total response to and understanding of the individual work *Selected Essays of Jim W. Corder* Jim Wayne Corder, 2004 James Corder way ahead of his time in pursuing expressivism and the personal in composition This book is a collection of essays by Corder that span his teaching career roughly 1976 to 1997 it includes three previously unpublished pieces **CEA Critic**, 2002

Contemporary Psychodynamic Theory and Practice William Borden, 2009 *Contemporary Psychodynamic Theory and Practice* introduces the contributions of the key thinkers in the broader psychodynamic tradition demonstrating the relevance of relational perspectives and recent developments for psychotherapy and psychosocial intervention William Borden presents the developmental perspectives and clinical approaches of divergent theorists from Freud, Jung and Adler to Winnicott and Kohut and shows how their views enlarge understanding of essential concerns in clinical practice Practitioners and policy makers alike can benefit from its insights *Explorations in Renaissance Culture*, 2003 **Forthcoming Books** Rose Army, 2003 **Bibliographic Index**, 2007 **American Book Publishing Record**, 2006 *Inside Education* Clifford Mayes, 2007 Education has to do with the mind and spirit of both the learner and the teacher Those who teach know this instinctively Yet many of the processes and mandates required in education at all levels fail to consider this most basic condition of the learning environment Mayes as an educator and therapist examines the teaching learning project through the lens of Depth Psychology because he believes that it offers the best possibility for examining the non quantifiable dimensions of the student teacher learning situation Depth Psychology rooted in the work of Carl Jung offer the educator a very human and humane way to frame interactions with learners **Television Industries** Douglas Gomery, Luke Hockley, 2006-05-31 While not a production study this book attempts to provide an insight into the inner workings of the television industry As such its central concern is with processes not texts or techniques or histories *Television Industries* focuses on the essential elements of the industry the policy and regulatory frameworks the swiftly changing world of video production technology all of which provides the backdrops against which broadcasters shape and sell their products The book also examines the working practices of scheduling budgeting selling advertising air time and so forth Where issues may be familiar to readers for example debates around public service broadcasting the entries aim to be explanatory and fresh Of course it's not possible to cover every aspect of what is a complex and ever changing industry Nonetheless the aim is to provide a starting point for students and new scholars as they start to research into the nature of the broadcasting industry Hence this volume is extensively cross referenced to guide the reader as they tease out for themselves some of the

complexity of this industry There are several other elements that are distinctive about this volume Perhaps the most striking of these is its blend of contributions from the UK and US This book will raise as many questions as it provides answers It aims to make a contribution to the on going debates in the now well established world of television studies with fresh perspectives on some familiar and some not so familiar landscapes Fully illustrated Television Industries is intended as an authoritative and accessible guide to the inner workings of the television industry **Critical Survey of Long Fiction: Ralph Ellison-Jamake Highwater** ,2000 **The Johns Hopkins Guide to Literary Theory and Criticism** Michael Groden,Martin Kreiswirth,Imre Szeman,2005 Publisher Description *Against and for CBT* Richard House,Del Loewenthal,2008 Offers a wide range of critical perspectives on the rise of Cognitive Behavioural Therapy CBT from around the world
