Post Soviet Economy Soviet And Western Perspectives:

The Post-Soviet Economy Anders Åslund, 1992 In the context of the Soviet economic crisis of 1991 this work offers the views of 12 economists half from the USSR half from the West While all agree on the need for a market economy the Soviet writers here argue for a markedly more gradual change than do their Western counterparts

The Countries of the Former Soviet Union at the Turn of the Twenty-First Century Ian Jeffries, 2004-01-08 Providing a unique level of coverage this book provides a comprehensive survey of the political and economic development of the countries of the former Soviet Union from the mid 1990s onwards

Alternative Political Economy Models of Transition John Marangos, 2017-07-05 The collapse of centrally administered socialism in Russia and Eastern Europe resulted in what is commonly referred to as the transition problem the transformation from a centrally administered socialist economic system to one that is market based Economic science has been faced with the challenge of developing an appropriate body of analysis advice and direction to help other nations that may be undergoing this process In this volume John Marangos adopts a political economy approach that yields alternative models of transition The volume develops transition models from what Marangos defines as the primary elements of six variables 1 economic analysis 2 definitions of the Good Society 3 speed of transition 4 political structure 5 ideological structure and 6 initial conditions The models developed include the shock therapy model the neoclassical gradualist model of transition the post Keynesian model the pluralistic market the socialist model and the non pluralistic market socialist model After identifying the primary elements of each transition model Marangos considers the elements of each model with respect to the desirable reforms An essential element of the transition process is not only to identify the necessary reforms but also a sequence in which the reforms should be introduced For each transition model developed in this book a set of primary and secondary elements were provided in conjunction with a sequence of reforms Analyzing the transition problem from a political economy perspective Marangos shows that it is possible to have inconsistencies within each transition model and between transition models yet be able to identify the potential for implementation and maintenance of necessary reforms each model recommends This volume contributes to the understanding of the process of transition with the objective of identifying an optimal model of transition

International Political Economy And Globalization (2nd Edition) Javed Maswood, 2008-09-26 The second edition of *International Political Economy and Globalization* is completely revised and updated to include new material on trade monetary and environmental issues It provides a comprehensive treatment of major developments in the global economy and is suitable for adoption as a primer in undergraduate courses in international political economy The author takes a stand that is supportive of globalization in principle while acknowledging that there are many areas of inequity that disadvantage developing countries This is explored in chapters that deal with trade debt crises and the environment Students will find that the material is presented in a readable format that does not presuppose prior familiarity with economics

The Caucasus and Central Asian Republics at the Turn of the Twenty-First Century Ian

Jeffries,2003-09-04 This book provides a unique level of coverage of economic and political events of global significance including foreign trade foreign direct investment the impact of oil and natural gas finds Islamic extremism the 11 September 2001 terrorist attacks on the United States and the reaction of the CIS countries and the war on international terrorism It will provide an invaluable source of reference for all those interested in transitional and developing countries The author presents a clear detailed and accessible breakdown of the developments in the Caucasus Armenia Azerbaijan and Georgia and the Central Asian republics of Kazakhstan Kyrgyzstan Tajikistan Turkmenistan and Uzbekistan *Mongolia* Ian Jeffries,2007-03-16 This book provides a full account of the key political and economic events in Mongolia focusing on the period since the establishment of the Soviet backed Mongolian People s Republic in 1924 and the transition towards a democratic free market system since the collapse of the Soviet Union **The Soviet Economy in Regional Perspective** V. N. Bandera,Zinowij Lew Melnyk,1973 Economic analysis of economic policy and economic planning in the USSR in respect of the economic development of developing areas covers regional level resource allocation and income distribution the location of industry capital formation the regional and national balance of payments incomes and standard of living production specialization centralization the 1957 administrative reform the spatial dimensions of economic decision making economic concentration etc Map references and statistical tables **Russia and the NIS in the World Economy** Deborah Palmieri,1994-09-21 Economically and politically the former Soviet Union is a hungry unstable partner There will be further changes in Baltic relationships with them that are hard to predict beyond the immediate future For this reason Professor Palmieri s contribution is more than required reading for an audience of East West trade specialists To be competent in Baltic matters we have to be well informed about the critical economic and political interfaces with our neighbors in the East *Journal of Baltic Studies* Alternative Economic Models of Transition John Marangos,2004 Marangos illustrates and develops an analytical framework proposing different models of transition for Central Eastern Europe and the former Soviet Union economies based on a political economy approach This makes it possible to understand the complexities of the transition process from a new and more enlightened perspective and to take account of the differing opinions of economists This approach contrasts with the actual approach adopted at the time by the transition economies which has been dominated by the neoclassical models in particular the shock therapy approach transition The Shock Therapy model The Neoclassical Gradualist model The Post Keynesian model The Pluralistic Market Socialist model and The Non Pluralistic Market Socialist model the Chinese model By analysing the transition problem from a political economy perspective it is possible to reveal the inconsistencies within each transition model and between such models and therefore to identify the potentialities regarding the implementation and maintenance of the necessary reforms that each model recommended In conclusion an attempt has been made to identify an optimal model of transition which maximises social welfare *Guide to the Republics of the Former Soviet Union* David T. Twining,1993-07-27 Chronicles the emergence of fifteen new states from the former Soviet

Union Discusses the governments cultures and religions of this new Eurasia **Post-Communist Economic Revolutions**
 Anders Åslund,1992 This is an examination of the economic achievements and failures in a number of former communist bloc
 countries focusing on the common issues and the available options It covers developments in Russia Poland Czechoslovakia
 Hungary Yugoslavia Bulgaria Romania and Albania as well as the economic transformations in China and Vietnam The book
 also puts forward policy recommendations for the future One of the author s conclusions is that the slower a country s
 process of democratization the costlier its economic transformation is likely to be Bibliographic Guide to Soviet and East
