Posters of protest and revolution Maurice Rickards, 1700 *Posters of Protest and Revolution* Maurice Rickards, 1970 **Posters of Protest** David Kunzle, University of California, Santa Barbara. Art Gallery, 1971 **Art and Revolution in Latin America, 1910-1990** David Craven, 2006-01-01 In this uniquely wide ranging book David Craven investigates the extraordinary impact of three Latin American revolutions on the visual arts and on cultural policy The three great upheavals in Mexico 1910 40 in Cuba 1959 89 and in Nicaragua 1979 90 were defining moments in twentieth century life in the Americas Craven discusses the structural logic of each movement s artistic project by whom how and for whom artworks were produced and assesses their legacies In each case he demonstrates how the consequences of the revolution reverberated in the arts and cultures far beyond national borders The book not only examines specific artworks originating from each revolution s attempt to deal with the challenge of socializing the arts but also the engagement of the working classes in Mexico Cuba and Nicaragua with a tradition of the fine arts made newly accessible through social transformation Craven considers how each revolution dealt with the pressing problem of creating a dialogical art one that reconfigures the existing artistic resource rather than one that just reproduces a populist art to keep things as they were In addition the author charts the impact on the revolutionary processes of theories of art and education articulated by such thinkers as John Dewey and Paulo Freire The book provides a fascinating new view of the Latin American revolutionaries from artists to political leaders who defined art as a fundamental force for the transformation of society and who bequeathed new ways of thinking about the relations among art ideology and class within a revolutionary process *Collecting Prints, Posters, and Ephemera* Ruth E. Iskin, Britany Salsbury, 2019-12-12 Why did collectors seek out posters and collect ephemera during the late nineteenth and the twentieth centuries How have such materials been integrated into institutional collections today What inspired collectors to build significant holdings of works from cultures other than their own And what are the issues facing curators and collectors of digital ephemera today These are among the questions tackled in this volume the first to examine the practices of collecting prints posters and ephemera during the modern and contemporary periods A wide range of case studies feature collections of printed materials from the United States Latin America France Germany Great Britain China Japan Russia Iran and Cuba Fourteen essays and one roundtable discussion all specially commissioned from art historians curators and collectors for this volume explore key issues such as the roles of class politics and gender and address historical contexts social roles value and national and transnational aspects of collecting practices The global scope highlights cross cultural connections and contributes to a new understanding of the place of prints posters and ephemera within an increasingly international art world Posters of Protest and Revolution.
