The Postfoundationalist Task of Theology F. LeRon Shults, 1999 In recent years the theological writings of Wolfhart Pannenberg have exerted considerable influence However Pannenberg s work has also been criticized for not taking seriously the postmodern challenge to traditional conceptions of rationality and truth This volume by F LeRon Shults argues that the popular foundationalist reading of Pannenberg is a misinterpretation of his methodology and shows that in fact the structural dynamics of Pannenberg's approach offer significant resources for the postfoundationalist task of theology in our postmodern culture Shults begins by laying out the first comprehensive summary and interpretation of the emerging postfoundationalist model of theological rationality He then revisits Pannenberg's theological method and finds the German theologian to be a surprising ally in the quest to reconstruct a theological rationality along postfoundationalist lines In the course of his discussion Shults challenges views that see the future reason or history as the central concept of Pannenberg s thought and offers instead a new interpretation of Pannenberg's basic theological principle as understanding and explaining all things sub ratione Dei under the aspect of the relation to God an interpretation endorsed by Pannenberg himself in the book s foreword Shults also focuses on Pannenberg's unique way of linking philosophical and systematic theology and demonstrates how the underlying reciprocity of this method can carry over into the postfoundational concern to link hermeneutics and epistemology in the postmodern context Handbuch pfingstliche und charismatische Theologie Jörg Haustein, Giovanni Maltese, 2014-07-16 Although the Pentecostalism is a movement with the most powerful impact worldwide no substantiated discussion occurred in Germany until today One of the reasons is that the statements of the professional classes mostly are published in English language This volume gives an overview of Pentecostal theologies translated in German and a systematic introduction to the theological issues treated The Enduring Authority of the Christian Scriptures D. A. Carson, 2016-02-29 Valuable insights into key disputed topics from a veritable who s who of evangelical scholars In this volume thirty seven first rate evangelical scholars present a thorough study of biblical authority and a full range of issues connected to it Recognizing that Scripture and its authority are now being both challenged and defended with renewed vigor editor D A Carson assigned the topics that these select scholars address in the book After an introduction by Carson to the many facets of the current discussion the contributors present robust essays on relevant historical biblical theological philosophical epistemological and comparative religions topics To conclude Carson answers a number of frequently asked questions about the nature of Scripture cross referencing these FAQs to the preceding chapters This comprehensive volume by a team of recognized experts will be the go to reference on the nature and authority of the Bible for years to come CONTRIBUTORS James Beilby Kirsten Birkett Henri A G Blocher Craig L Blomberg D A Carson Graham A Cole Stephen G Dempster Daniel M Doriani Simon Gathercole David Gibson Ida Glaser Paul Helm Charles E Hill Peter F Jensen Robert Kolb Anthony N S Lane Te Li Lau Richard Lints V Philips Long Thomas H McCall Douglas J Moo Andrew David

Wirén, 2017-11-01 In Hope and Otherness Jakob Wir n analyses the place and role of the religious Other in contemporary eschatology In connection with this theme he examines and compares different levels of inclusion and exclusion in Christian Muslim and Jewish eschatologies He argues that a distinction should be made in approaches to this issue between soteriological openness and eschatological openness By going beyond Christian theology and also looking to Muslim and Jewish sources and by combining the question of the religious Other with eschatology Wir n explores ways of articulating Christian eschatology in light of religious otherness and provides a new and vital slant to the threefold paradigm of exclusivism inclusivism and pluralism that has been prevalent in the theology of religions Jakob Wir n s study pushes forward the frontiers of three disciplines all at the same time theology of religions comparative religions and eschatology. This is a challenging and important book Gavin D Costa University of Bristol Professor of Catholic Theology 2017 This book explores of the status of religious others in Christian eschatology and of eschatology itself as a privileged place for reflecting on religious otherness Wiren mines not only Christian but also Jewish and Muslim sources to develop an inclusive eschatology Hope and Otherness thus represents an important contribution to both theology of religions and comparative theology Catherine Cornille Boston College Professor of Comparative Theology 2017 Christianity Outside the Church Jae Yang, 2024-02-12 Building on the work of German theologian Wolfhart Pannenberg 1928 2014 this book develops a Pannenbergian public theology and Natural Order Shaun C. Henson, 2013-12-04 In God and Natural Order Physics Philosophy and Theology Shaun Henson brings a theological approach to bear on contemporary scientific and philosophical debates on the ordered or disordered nature of the universe Henson engages arguments for a unified theory of the laws of nature a concept with monotheistic metaphysical and theological leanings alongside the pluralistic viewpoints set out by Nancy Cartwright and other philosophers of science who contend that the nature of physical reality is intrinsically complex and irreducible to a single unifying theory Drawing on the work of theologian Wolfhart Pannenberg and his conception of the Trinitarian Christian god the author argues that a theological line of inquiry can provide a useful framework for examining controversies in physics and the philosophy of science God and Natural Order will raise provocative questions for theologians Pannenberg scholars and researchers working in the intersection of science and religion **The Art of Theology** Stephan van Erp, 2004 Art and theology are two different ways of making meaning Art is a matter of inspiration and intuition It needs neither standards nor guidelines It does not follow predictable patterns nor is it determined by any specific goal Theology is similar in that it generates meaning in order to understand and communicate faith It explores the continuities and discontinuities between divine and human creations through metaphors images and the play of ideas Unlike art however theology is primarily a

matter of reason It follows patterns of consistency and coherence and is shaped by the will to clarify and explain Can art offer a way of understanding the nature of theology despite these differences The twentieth century Swiss theologian Hans Urs von Balthasar 1905 1988 wrote a seven volume masterpiece on theological aesthetics. He restructured theology around basic aesthetic concepts like form and beauty The present study offers a critical analysis of Balthasar's work against the background of contemporary debates on theological foundations The author approaches this task through a careful rereading of two of Balthasar's key sources Nicholas of Cusa and Friedrich Wilhelm Joseph Schelling In this way the author rediscovers hidden undercurrents in modernity from Renaissance aesthetics to German Idealism The result is a theological aesthetics rooted in tradition and capable of understanding and communicating faith in the face of present day challenges Princeton Seminary Bulletin Princeton Theological Seminary, 2000 Vols for 1907 1908 1936 1937 no 1 Commencement issue no 2 Necrology report no 3 News no 4 Catalogue v for 1937 1938 1939 no 1 3 News no 2 Bulletin of courses no 4 Catalogue v for 1939 1940 1944 1945 no 1 4 News no 2 Bulletin of courses no 3 Catalogue v for 1945 1946 no 1 Bulletin of courses no 2 4 News no 3 Catalogue v for 1946 1947 1952 1953 no 1 3 4 News no 2 Catalogue Foundationalism Stanley James Grenz, John R. Franke, 2001 What role does scripture play in the task of the church What value do past theological constructs offer today How does culture affect theological reflection In this book the authors move past the Enlightenment foundational approach to offer a methodology for doing theology in a postmodern age Writing for readers of all denominations they propose a new theological method that uses three sources the Spirit speaking authoritatively through the biblical text tradition providing a historical interpretative framework and culture as the context for constructive theological reflection This method they argue fosters a Christian theology that acknowledges the whole of God Father Son and Spirit takes full account of the experience of the faith community and is future oriented Heythrop **Journal** ,2003 A select book list appears quarterly 2008, **Zygon Mission with the Marginalized** Samuel W. Christian theology learn from and contribute to the scientific picture of the future of the Universe Can the biblical narratives of creation and new creation have a fruitful dialogue with scientific discoveries David Wilkinson shows what a fruitful dialogue this can be Critiquing the folk eschatology of the Left Behind series the misguided faith of the scientific optimists and the lack of scientific engagement of the theologians of hope Wilkinson argues for a rediscovery of the theological theme of new creation and the centrality of bodily resurrection The Younger Evangelicals Robert E. Webber, 2002-10-01 Robert E Webber has led worship workshops in every major city in the United States and Canada Through his conversations and contacts with a network of emerging church leaders he calls the younger evangelicals Webber sees how this new generation and their style of leadership is bringing change and renewal to the evangelical church These leaders who include those young in spirit as well as young in age have important insights to offer all generations faced with doing church in a rapidly changing postmodern culture The Younger Evangelicals explores the characteristics of these emerging leaders and provides an outlet for their stories Beginning with a brief overview of twentieth century evangelicalism Webber examines what is different about the twenty first century younger evangelicals way of thinking about faith and practicing church He allows them Ph D s and laypeople to speak in their own words on issues such as communication theology apologetics pastoral leadership evangelism worship and spiritual formation Thought provoking energizing and timely The Younger Evangelicals is a landmark book for pastors and church leaders culture watchers ministry students and worship leaders who want to prepare for and respond to the new evangelical awakening brought on by our changing cultural context **Humanity**, the World and God Willem B. Rauser, 2006 A handy guide to the major figures and issues in Christian philosophy from Augustine to the present This volume covers a broad historical sweep and takes into account those non Christian philosophers that have had a great impact on the Christian tradition However it concentrates on the issues that perplex Christian philosophers as they seek to think through their faith in a philosophical way and their philosophical beliefs in the light of their faith Examples of the topics discussed are the question of whether and how God knows the future whether we actually know that God exists and what Athens has to do with Jerusalem The leaders of the recent revival of Christian analytic philosophy especially Alvin Plantinga Nicholas Wolterstorff William Alston and Robert Adams are also included This book will be of interest to those studying Christian philosophy and to Christians seeking to think philosophically about their faith **Alone in the World?** Wentzel Van Huyssteen, 2006 This study focuses on the notion of human uniqueness in science and theology It argues for an interdisciplinary approach in which theological anthropology has much to learn from humans origins from the dimension of meaning in which homo sapiens have always existed and from our close relationship to other animals Theologische Literaturzeitung Emil Schürer, Adolf von Harnack, 2002
