Postmodern Political Condition:

The Postmodern Political Condition Agnes Heller, Ferenc Fehér, 1988 This book will be of interest to anyone concerned with current debates in social theory cultural studies and philosophy The Idea of the Postmodern Johannes Willem Bertens, 1995 Hans Bertens's Postmodernism is the first introductory historical overview of postmodernism to succeed in providing a witty guide for today's student An enjoyable and indispensable text Negotiating Postmodernism Wayne Gabardi, 2001 A comprehensive and interdisciplinary overview of this essential debate Philosophy Critical Theory A comprehensive and interdisciplinary overview of this essential debate No longer is there one postmodernism Joining the modern postmodern debate at a critical juncture Wayne Gabardi suggests that the polarizing polemics of the radical postmodernists have given way to a new critical postmodernism characterized by dialogue accommodation and synthesis Negotiating Postmodernism marks the arrival of a powerful critical presence on the scene one that advances the idea of a late modern postmodern social and cultural transition From the battle lines drawn between neo Marxist writers and postmoderns in the early sixties to the shifting positions staked out in the eighties and nineties Gabardi identifies the salient features of the evolving discussion and searches out common ground for the contending parties Engaging the work of contemporary social and political thinkers from Lyotard and Bauman to Giddens and Habermas from Heidegger and Arendt to Foucault and Wolin Garbardi provides a comprehensive overview and interpretation while offering major theoretical propositions regarding the future of democracy Translation Inquiries University of Minnesota Press **The Enigma of Justice** Claire Nyblom, 2023-03-20 The Enigma of Justice Freedom and Morality in the Work of Immanuel Kant G W F Hegel Agnes Heller and Axel Honneth offers a novel perspective on the idea of justice Claire Nyblom argues that justice is a cultural and historical constant routinely summoned as if it were a foundational concept to legitimate or challenge social arrangements Instead justice is characterized by a plurality of theories containing regulative and critical dimensions that are in tension Nyblom argues that the categorical imperative can be positioned as a strong evaluative standard that mediates plurality creating a revisable idea of justice resistant to relativism After identifying the originating architecture of Immanuel Kant and G W F Hegel the discussion engages with the work of Agnes Heller and Axel Honneth using the pivots of justice as an analytic lens focused on commonalities rather than differences This framework leads to a dialogue between Heller and Honneth that strengthens their respective positions The Enigma of Justice provides a valuable study and insight into the contemporary nature of justice The book provides a useful orientation for students and scholars interested in debates about justice and to those working in the areas of European philosophy social and political theory sociology and the law

Postmodern Conditions Andrew Milner, Philip John Thomson, Chris Worth, 1990 Postmodernity and postmodernism have become leading theoretical issues in the discussion of contemporary culture and this collection attempts to confront some of the major issues To what extent does western society's entry into a post industrial world require us to rethink the

characteristic modernist understanding of society and culture If the self reflecting self quoting culture we experience now is postmodern is it a culture in which the great modern debates about history and meaning must be radically reworked Is postmodernism in art complicit with the processes of post industrial capitalism or does it subvert them There are contributions from academics working at the New York School of Social Research and in departments of literary studies sociology and visual arts at various Australian universities

Globalization and Postmodern Politics Roger Burbach, Fiona Jeffries, William I. Robinson, 2001 The book begins with an overview of globalization showing how wealth and power are concentrated in the hands of a transnational elite while ever increasing numbers of people are being marginalised Institutions such as the World Trade Organisation and the International Monetary Fund are intent upon exercising a new hegemony over individuals as the role of the traditional nation state is transformed At the centre of this power shift is a group of high tech robber barons who dominate the Information Age and exploit the technologies of globalization for their own narrow interests The second part of the book explores the rise of the new grass roots oppositional movements around the world Manifest in such diverse struggles as the uprising of the Zapatistas in Mexico and the battle of Seattle against the World Trade Organisation this new postmodern politics is de centred and has little interest in the old ideologies that dominated much of the twentieth century The final section of the book contextualizes postmodern politics by drawing on contemporary examples The authors discuss the demise of socialist and proto socialist experiments in Chile Grenada Nicaragua and Cuba and the emergence of postmodern movements in Latin America The final two chapters take a specific look at the Zapatista movement and its significance for revolutionary struggles around the world

Canadian Journal of Political and Social Theory, 1990 *Education and the Postmodern Condition* Michael A. Peters, 1995-01-30 This collection of essays brings together a number of contributions on Lyotard s work made by philosophers educationalists and sociologists around the special focus of education Their intent is to examine Lyotard s notion of the postmodern condition and its relevance to education

Critical Visions Anthony Elliott, 2003 In this remarkable book Anthony Elliott develops a wide ranging analysis of key issues and debates in contemporary social theory Drawing social theory cultural studies and psychoanalysis together in a bold configuration Elliott challenges the widespread view that social theory seems to have lost its way as a result of the diversification of conceptual approaches In outlining an approach that places imagination and creativity at the center of social theory Elliott argues that theoretical pluralism from post structuralism to postmodernism from psychoanalysis to deconstruction represents not the demise but the renewal of critical social theory Elliott opens with critical readings of the terrain of contemporary social theory and theorists among them Ulrich Beck Anthony Giddens Jurgen Habermas Jacques Lacan Cornelius Castoriadis and Julia Kristeva He follows with an analysis of key debates in critical social theory Questions relating to the globalization of risk citizenship morality and ethics politics and norms and sexuality and desire are all explored This book is essential reading for students seeking a broad understanding of the confluence of

sociology social theory politics and cultural studies Irony and Crisis Stuart Sim, 2002 This book is designed to trace the critical history of the postmodern paradigm **The Post-human Condition** Gabriel Brahm, 1999 **The Idea of Democracy in the Modern Era** Ralph Ketcham, 2004 Although the last half of the twentieth century has been called the Age of Democracy the twenty first has already demonstrated the fragility of its apparent triumph as the dominant form of government throughout the world Reassessing the fate of democracy for our time distinguished political theorist Ralph Ketcham traces the evolution of this idea over the course of four hundred years He traces democracy's bumpy ride in a book that is both an exercise in the history of ideas and an explication of democratic theory Ketcham examines the rationales for democratic government identifies the fault lines that separate democracy from good government and suggests ways to strengthen it in order to meet future challenges Drawing on an encyclopedic command of history and politics he examines the rationales that have been offered for democratic government over the course of four manifestations of modernity that he identifies in the Western and East Asian world since 1600 Ketcham first considers the fundamental axioms established by theorists of the Enlightenment Bacon Locke Jefferson and reflected in America's founding then moves on to the mostly post-Darwinian critiques by Bentham Veblen Dewey and others that produced theories of the liberal corporate state He explains late nineteenth century Asian responses to democracy as the third manifestation grounded in Confucian respect for communal and hierarchical norms followed by late twentieth century postmodernist thought that views democratic states as oppressive and seeks to empower marginalized groups Ketcham critiques the first second and fourth modernity rationales for democracy and suggests that the Asian approach may represent a reconciliation of ancient wisdom and modern science better suited to today's world He advocates a reorientation of democracy that de-emphasizes group or identity politics and restores the wholeness of the civic community proposing a return to the Jeffersonian universalism that which informed the founding of the United States if democracy is to flourish in a fifth manifestation The Idea of Democracy in the Modern Era is an erudite interdisciplinary work of great breadth and complexity that looks to the past in order to reframe the future With its global overview and comparative insights it will stimulate discussion of how democracy can survive and thrive in the coming era **The Economic Status of Women Under Capitalism** Janice Peterson, Douglas M. Brown, 1994 The Economic Status of Women under Capitalism shows how institutional economics can be used to analyze the economic oppression of women and to promote progressive social and economic change The book is divided into three parts Part one Exploring Connections Institutionalism and Feminism examines the relationship between institutionalist economics and feminist theory Part two Extending our Analysis offers a critique of feminist and institutionalist theory and suggests ways to extend these approaches to be more inclusive and progressive The final part Examining the Issues of Gender assesses the economic status of women in several different countries the United States the former Soviet Union and Japan providing a real life context for the theoretical issues raised in Parts One and Two Working from a radical institutionalist perspective the

contributors to *The Economic Status of Women under Capitalism* share a concern over the economic status of women and a belief that the dominant approaches to economic analysis are limited in their ability to analyse the subordination of women and prescribe policy responses. This important book will be welcomed as a significant contribution in its own right as well as providing impetus for future debate.

Postmodern Philosophy and Law Douglas E. Litowitz, 1997 The author presents a two tiered analysis that views postmodern legal thought as both a collective intellectual movement and as the work of particular theorists notably Friedrich Nietzsche Michel Foucault Jacques Derrida Francois Lyotard and Richard Rorty. He concludes that even though postmodern thought does not give rise to a normative theory of right that can be used as a framework for deciding cases it can focus attention on genealogy and discourse and can empower those who have been denied a voice in the legal system.
