## **Postmodernism And Its Critics:**

**Postmodernism and Its Critics** John McGowan,1991 John McGowan brings a fresh perspective to ongoing debates about the political implications of postmodernist thought and the relationship of intellectuals to contemporary culture In addition to providing a comprehensive overview of the philosophical context of postmodernism he considers the kinds of freedom and oppositional politics that are possible under postmodern conditions What's Wrong with Postmodernism Christopher Norris,1990 In What s Wrong with Postmodernism Norris critiques the postmodern pragmatist malaise of Baudrillard Fish Rorty and Lyotard In contrast he finds a continuing critical impulse an enlightened or emancipatory interest in thinkers like Derrida de Man Bhaskar and Habermas Offering a provocative reassessment of Derrida s influence on modern thinking Norris attempts to sever the tie between deconstruction and American literary critics who he argues favor endless playful polysemic interpretation at the expense of systematic argument As he explores leftist attempts to arrive at an accommodation with postmodernism Norris addresses the politics of deconstruction the issue of men in feminism Habermas quarrel with Derrida narrative theory as a hermeneutic paradigm musical aesthetics in relation to literary theory and various aspects of postmodern debate A chapter on Stanley Fish brings several of these topics together and offers a generalized statement on the function of current criticism The Routledge Companion to Postmodernism Stuart Sim,2001 Recent years have witnessed radical changes in our social and political existence with traditional ideas and ways of living increasingly being called into question Such questioning has led to a crisis of authority that goes under the general name of postmodernism But what does this word mean and why is it so important The Routledge Companion to Postmodernism provides all the answers you need It is an accessible and comprehensive survey of the intellectual developments that have brought about a wholesale shift in cultural perspectives Combining detailed essays written by experts in the subject with an invaluable A Z guide to who s who and what s what in postmodernism this is the guide to a phenomenon that has shaped today s world En la solapa Universalism and Its Critics Jordy Rocheleau,2000 **Postmodernism and Its Critics** ,1997\* Part of the Dept of Anthropology s site Anthropological theories a guide prepared for students the material on this site was prepared by Shannon Weiss and Karla Wesly under the direction of Dr Michael D Murphy The basic premises and key works of postmodernist thought are presented and modern and postmodern thinking is contrasted There is a bibliography and links to related Web sites **Postmodernism's Effects on Masculinity and Consumerism in Bret Easton Ellis's "American Psycho"** F. Mandi,2023-03-29 Bachelor Thesis from the year 2023 in the subject Didactics for the subject English Literature Works grade 1 3 University of G ttingen language English abstract The purpose of this paper is to analyze Patrick Bateman in American Psycho as a symbol and personification of a particular kind of society that critics have called the postmodern era of late capitalism Bret Easton Ellis portrays Patrick as an individual whose life focuses primarily on obsessive consumerism The condition of postmodernity marks the production of countless commodities that lead to excessive

consumerism This aspect is eminent in Patrick Bateman's behavior which leads to his toxic masculine conduct and seriality of repetitiveness I argue that the main character Patrick Bateman represents these aspects because of a society that focuses above all on outer appearance and status The aspiration for this ideal causes people to treat themselves and others harmfully That circumstance makes characters such as Patrick Bateman and others like him treat people as consumer goods while disregarding their feelings and values American Psycho represents this pattern by portraying Patrick Bateman as an ideal performer who endlessly consumes which shapes his view on others and leads to the subsequent murders since everyone has no real identity and becomes therefore interchangeable Under the economic conditions of postmodernity where everything is a commodity people treat other people like commodities and in the same way that products are disposable people become throwaway as well Hence people particularly women turn into products for Patrick that he may repeatedly kill because he values having the most of everything accumulating killing adds to his sense of status He describes commodities in his environment in the same way he describes the narratives of his serial killings and other acts of violence Patrick Bateman is merely a part of his environment where everyone feels the urge to be more significant and superior to everyone else which inevitably leads to the perpetuation of the same pattern *The Challenge of Postmodernism* David S. **The Idea of Democracy in the Modern Era** Ralph Ketcham, 2004 Although the last half of the twentieth century has been called the Age of Democracy the twenty first has already demonstrated the fragility of its apparent triumph as the dominant form of government throughout the world Reassessing the fate of democracy for our time distinguished political theorist Ralph Ketcham traces the evolution of this idea over the course of four hundred years He traces democracy's bumpy ride in a book that is both an exercise in the history of ideas and an explication of democratic theory Ketcham examines the rationales for democratic government identifies the fault lines that separate democracy from good government and suggests ways to strengthen it in order to meet future challenges Drawing on an encyclopedic command of history and politics he examines the rationales that have been offered for democratic government over the course of four manifestations of modernity that he identifies in the Western and East Asian world since 1600 Ketcham first considers the fundamental axioms established by theorists of the Enlightenment Bacon Locke Jefferson and reflected in America's founding then moves on to the mostly post-Darwinian critiques by Bentham Veblen Dewey and others that produced theories of the liberal corporate state He explains late nineteenth century Asian responses to democracy as the third manifestation grounded in Confucian respect for communal and hierarchical norms followed by late twentieth century postmodernist thought that views democratic states as oppressive and seeks to empower marginalized groups Ketcham critiques the first second and fourth modernity rationales for democracy and suggests that the Asian approach may represent a reconciliation of ancient wisdom and modern science better suited to today's world He advocates a reorientation of democracy that de-emphasizes group or identity politics and restores the wholeness of the civic community proposing a return to the Jeffersonian universalism that

which informed the founding of the United States if democracy is to flourish in a fifth manifestation The Idea of Democracy in the Modern Era is an erudite interdisciplinary work of great breadth and complexity that looks to the past in order to reframe the future With its global overview and comparative insights it will stimulate discussion of how democracy can survive and thrive in the coming era *Critical Essays on American Postmodernism* Stanley Trachtenberg,1995 **The American Book Review** ,1992 Postmodernism and the Search for Enlightenment Karlis Racevskis,1993 Drawing largely on the work of Foucault Racevskis elucidates the philosophical and political problems at issue in the debate and the changes taking place in our ways of seeing ourselves and our relations with others He shows how the theme of enlightenment has been a central component in the conflicts that pit modernists against postmodernists Marxists against post Marxists and liberals against conservatives and he juxtaposes the arguments in such a way as to place reason and enlightened action in a new perspective **Critical Theory and Critical Pedagogy Today** Ilan Gur-Ze'ev,2005 **Critical Essays on Václav Havel** Marketa Goetz-Stankiewicz,Phyllis Carey,1999 A collection of critical essays on a Czech playwright and president showing him from various perspectives Contributions range from political analyses and historical assessments to linguistic interpretations tributes and personal memories Themes include connections between his writing and his political career his political thought analysis of specific plays Havel in the minds of his countrymen and Havel on the role of the president Annotation copyrighted by Book News Inc Portland OR **Postmodern Studies** ,2000 **Postmodern Social Analysis and Criticism** John W. Murphy,1989-06-15 Although postmodernism has had clear impact on literary criticism the social and political implications of this philosophy have not been systematically investigated Murphy's study is the first to bring a broad interdisciplinary perspective to the subject and to present postmodernism as a coherent social theory Responding with compelling arguments to critics of postmodernism Murphy develops a model that offers a viable alternative to traditional approaches to conceptualizing and studying social life In an introductory chapter Murphy looks at the differences between modernism and postmodernism and discusses the metanarratives that characterize the former He goes on to clarify key assumptions and concepts especially the postmodern opposition to the traditional Western separation of subject and object In subsequent chapters he describes the research methodology used by postmodernists their views of social ontology and the relationship between order and structure and the creation of socially responsible institutions The postmodernists reconceptualization of key aspects of cultural reality including time space reason and social relations is examined in detail Murphy concludes by exploring the political ramifications of the postmodernist model and its potential as a vehicle for building a genuinely democratic society This study will be of particular interest to philosophers economists and sociologists concerned with contemporary developments in European social philosophy It is relevant to courses or study in social theory and philosophy communication theory cultural criticism and related fields
