Poverty Profile Of Cambodia:

A Poverty Profile of Cambodia Nicholas M. Prescott, Menno Pradhan, 1997-01-01 China is in the throes of two transitions from a command economy to a market based one and from a rural agricultural society to an urban industrial one So far both transitions have been spectacularly successful China is the fastest growing economy in the world with per capita incomes more than quadrupling since 1978 achieving in two generations what took other countries centuries Although swift growth and structural change have resolved many problems they also have created new challenges employment insecurity growing inequality stubborn poverty mounting environmental pressures rising costs of food self sufficiency and periods of macroeconomic instability stemming from incomplete reforms Unmet these challenges could undermine the sustainability of growth and China s promise could fade China 2020 a seven volume set examines China s recent history where it is today and the path it should follow during the first two decades of the 21st century The volume in the set entitled Financing Health Care Issues and Options for China assesses the state of health care in China and addresses the problems facing the sector in terms of financial access to health care efficiency and total cost Although the health sector is in relatively good condition today this study asserts the need to promptly make policy changes to ensure universal health care coverage by either the public or the private sector over the next two decades Chapters focus on the effects of reduced public health spending on rural populations the likely increase in health costs as the population ages the harmful effects of tobacco use and fee for service provider systems

A poverty profile of Cambodia, 1999 Cambodia. Krasuan Phaenkār, 2000 The Environments of the Poor in Southeast Asia, East Asia and the Pacific Aris Ananta, Armin Bauer, Myo Thant, 2013-11-19 This book provides examples of possible triple win solutions for simultaneously reducing poverty raising the quality of the environment and adapting to climate change The book provides empirical evidence and observations from sixteen case studies in Southeast and East Asia and from the Pacific It argues that a spatial approach focussing on the environments in which the poor and vulnerable live would trigger changes for development policies and implementation that better balance environmental and social concerns In line with the post 2015 Millennium Development Goals MDG and Sustainable Development Goals SDG agenda emphasizing integrated development approaches for the slum poor the upland poor the dryland poor the coastal poor and the flood affected wetland poor would also bring the environment and poverty agenda closer The book emerged from a cooperation of the Asian Development Bank ADB with the Institute of Southeast

Asian Studies ISEAS in partnership with experts from research institutes and think tanks in the Asian region Cambodian Economy Hang Chuon Naron, 2011 This monumental study by arguably the most respected economic policymaker in the Cambodian government over the past decade is a very welcome addition to the sparse literature on the Cambodian economy. It is destined to become the standard reference on economic development in post conflict Cambodia. The volume's 25 chapters are grouped into nine sections: geography and population, the macroeconomic framework, the challenge of modernising agriculture, the challenge of industrialisation, services and infrastructure, human resource development, international economic relations, and a conclusion. The content is encyclopaedic with an immense amount of detail on practically every conceivable aspect of the country's development. Dr Naron is to be congratulated for fitting this admirable project into his extremely demanding daytime job as the secretary of state in the Ministry of Economy and Finance, along with many other responsibilities. Among the many reasons to welcome its publication is its authentic Cambodian voice and perspective in a literature dominated by foreign researchers. A generation of scholars on the Cambodian economy and all those with an interest in the country are in his debt. *Asian Pacific Economic Literature* Cambodia Pou Sothirak, 2003-08-01 In the 20 years since the Paris accords of 1991 brought peace to Cambodia, the country has undergone what can only be described as astounding change. From a polity where the entire fabric of society had been rent asunder through years of war and genocide, contemporary Cambodia is fast becoming a vibrant state and assuming a new position in the Asia Pacific region. The contributions to this volume, many by prominent figures who were intimately connected with the process, describe the diverse strands of mediation and peace building which went into the creation of the 1991 accords. The subsequent role of UNTAC and the 1993 general elections in the process of Cambodian revival and social rebuilding are also described. While not denying that obstacles and difficulties remain, the contributions outline the evolving economic, political, religious, and human resource situations within Cambodia while also examining the country's contemporary international relations. This book constitutes a particularly fitting testament to the 20 years of Cambodian reconstruction which have followed the 1991 peace accords. **The Macroeconomics of Poverty Reduction in Cambodia** Melanie Beresford, 2004 Cambodia Poverty Assessment, 1999 *Cambodia Human Development Report*, 2007 National human development report Cambodia When There Was No Money Heather A. Clark, 2006-03-14 The challenges in development often seem insurmountable. They overwhelm tions and the builders of their most basic institutions. I am often asked how development finance agencies can work together to meet this challenge. In reply, I invite you to read a story about cooperation in rebuilding one of the most basic institutions of any society: the banking system. KfW Bankengruppe places great emphasis on financial sector development. Our experience in our own country and beyond our borders shows that one of the first steps is building a banking system that fuels growth through investment in enterprises. Micro, small, and medium enterprises are the backbone of many economies; they are also the wealth of the people and generate their hope in the future. We believe that the

depth of the financial sector is related to economic growth the growth and safety of deposits the facility of payments and the in vation to develop new products and services that strengthen markets and promote investment A strong banking system supports economic growth by attracting unproductive capital and injecting it into the economy increasing the productivity of the country s capital base and leveraging it by attracting outside capital Cambodia, ...
