Portraiture Facing The Subject:

Portraiture Joanna Woodall, 1997-03-15 Portraiture the most popular genre of painting occupies a central position in the history of Western art Despite this its status within academic art theory is uncertain This volume provides an introduction to major issues in its history *Portraiture* Joanna Woodall, 1997 *Portraiture* Joanna Woodall, 1996 Joanna Woodall, 1997 *Portraiture. Facing the Subject* Joanna Woodall, 1977 *The Dada Cyborg* Matthew Biro, 2009 In an era when technology biology culture are becoming ever more closely connected The Dada Cyborg explains how the cyborg as we know it today developed between 1918 1933 as German artists gave visual form to their utopian hopes fantasies in a fearful response to World War I Die männliche Disziplin Falko Schnicke, 2015-10-05 über die formative Kraft der bürgerlichen Geschlechterdichotomie im Verständnis der Wissenschaft des 18 und 19 Jahrhunderts Richtige Wissenschaft kann nur von Männern gemacht werden so die Vorstellungswelt aus der die deutsche Geschichtswissenschaft im späten 18 und 19 Jahrhundert entstanden ist Was dieses Denken für das Fach bedeutete ist das Thema dieser Studie Als Quellen werden die klassischen Texte der Historiographiegeschichte neu gelesen darüber hinaus berücksichtigt der Autor zum Teil erstmals Portraits von Historikern Frontispize und Igem lde Dieses Material ermöglicht es Schnicke eine bislang vernachlässigte Größe in der Wissenschaftsgeschichte zu konturieren den Körper Obwohl dieser den Horizont der Selbstreflexion unterschritt war er doch zentral für die soziale Definition des Faches Die Studie stellt überzeugend dar dass sich die Vermännlichung der Geschichtswissenschaft nicht in der Existenz der ausschließlich männlichen Fachvertreter erschöpfte Vielmehr wurde die Vermännlichung auf allen relevanten Ebenen der Disziplin realisiert in der Anthropologie des Historikers in der Konzeption historischer Forschung und in den Methoden und Institutionen **Portraiture** Shearer West, 2004-04-08 This fascinating new book explores the world of portraiture from a number of vantage points and asks key questions about its nature How has portraiture changed over the centuries How have portraits represented their subjects and how have they been interpreted Issues of identity modernity and gender are considered within a cultural and historical context Shearer West uncovers much intriguing detail about a genre that has often been seen as purely representational featuring examples from African tribes to Renaissance princes and from stars such as David and Victoria Beckham to ordinary people In the process she shows us how to communicate with the past in an exciting new way *Anti-Portraiture* Fiona Johnstone, Kirstie Imber, 2020-11-26 The portrait has historically been understood as an artistic representation of a human subject Its purpose was to provide a visual or psychological likenesses or an expression of personal familial or social identity it was typically associated with the privileged individual subject of Western modernity Recent scholarship in the humanities and social sciences however has responded to the complex nature of twenty first century subjectivity and proffered fresh conceptual models and theories to analyse it The contributors to *Anti Portraiture* examine subjectivity via a range of media including sculpture photography and installation and make a convincing case for an expanded definition of portraiture By offering a timely reappraisal of the terms

through which this genre is approached the chapter authors volunteer new paradigms in which to consider selfhood embodiment and representation In doing so they further this exciting academic debate and challenge the curatorial practices and acquisition policies of museums and galleries The Drama of the Portrait: Theater and Visual Culture in Early Modern Spain , Examines theater and portraiture as interrelated social practices in seventeenth century Spain Features visual images and cross disciplinary readings of selected plays that employ the motif of the painted portrait to key dramatic and symbolic effect **Der Auftritt** Thomas Etzemüller,2019-10-21 Performanz geht zu den wichtigsten Instrumenten um wissenschaftliche Reputation zu erlangen Sie ist mehr als nur eine polierte Oberfläche Durch den eigenen Auftritt setzt man sich vor aller Augen der Prüfung aus ob man dazugeht oder nicht Ohne Performanz kann man zwar wissenschaftliche Leistungen erbringen bleibt aber von notwendigen Ressourcen und Rezeption abgeschnitten Die Beiträge des Bandes zeigen wie Performanz Voraussetzung und Werkzeug ist das hervorbringen was professionelle Akteure in anderen Subsystemen nicht vermögen wissenschaftliche Wahrheit Das macht sie zu einer paradoxen Sache Performanz muss für alle sichtbar sein aber zugleich unbemerkt bleiben um ihren instrumentellen Charakter zu verschleiern Mit Beiträgen von u.a Thomas Alkemeyer Soziologie Sabrina Deigert Literaturwissenschaft Thomas Etzemüller Kulturgeschichte Wissenschaftsanthropologie Julika Griem Anglistik Julian Hamann Soziologie Christian Janecke Kunstgeschichte Anna Luise Kiss Medienwissenschaft Schauspielerin David Kuchenbuch Geschichtswissenschaft Anna Langenbruch Musikwissenschaft Herbert Nikitsch Europäische Ethnologie Sibylle Peters Kunstwissenschaft Johanna Rakebrand Rechtsgeschichte Lena Vacklinghaus Literaturwissenschaft Schreibszene Frankfurt Anja Zimmermann Kunstgeschichte *This is a Portrait If I Say So* Anne Collins Goodyear,Jonathan Frederick Walz,Kathleen Merrill Campagnolo,Dorinda Evans,2016-01-01 The first in depth exploration of the rise and evolution of abstract symbolic and conceptual portraiture in American art This groundbreaking book traces the history of portraiture as a site of radical artistic experimentation as it shifted from a genre based on mimesis to one stressing instead conceptual and symbolic associations between artist and subject Featuring over 100 color illustrations of works by artists from Charles Demuth Marcel Duchamp Marsden Hartley and Georgia O'Keeffe to Janine Antoni Felix Gonzalez Torres Roni Horn Jasper Johns and Glenn Ligon this timely publication probes the ways we think about and picture the self and others With particular focus on three periods during which non mimetic portraiture flourished 1912-25 1961-70 and 1990 to the present the authors investigate issues related to technology sexuality artist networks identity politics and social media and explore the emergence of new models for the visual representation of identity Taking its title from a 1961 work by Robert Rauschenberg a telegram that stated This is a portrait of Iris Clert if I say so this book unites paintings sculpture photography and text portraits that challenge the genre in significant often playful ways and question the convention as well as the limits of traditional portrayal **Portraiture** ,1939 **Basics Photography 01** David Präkel,2012-08-02 One of AVA's most successful publications Composition teaches the formal elements of how to organize

space within the photographic frame and apply composition in real world situations *Composition* David Praker, 2020-09-09

Strong images only come about through a combination of technical excellence and thorough composition While there is plenty of technical advice photographers often turn to fine art sources for the so called rules of composition This book however acknowledges photography's quite different dynamic and offers a contemporary approach to composition more suited to the medium The second edition of *Basics Photography 01 Composition* offers a contemporary approach to composition Its six core chapters cover historical background and personal motivation formal elements space and time within the photographic frame and composition in real world situations The *Basics Photography* series originally published by AVA Publishing comprises a collection of titles including *Lighting Composition Capturing Colour Post Production Black* they are fully indexed and illustrated with clear diagrams and inspiring imagery building to provide an essential introduction to the subject *The Museum of the Mind* John Mack, British Museum, 2003 This thought provoking book draws on the worldwide collections of the British Museum for its inspiration Published to coincide with the 250th anniversary of the founding of that institution its theme is appropriate to the event The book addresses the questions of how and why we remember drawing its evidence from across world cultures and from antiquity through to contemporary times **The Gallery of Fashion** Aileen Ribeiro, National Portrait Gallery (Great Britain), 2000 This study of the role of costume in portraiture illustrated in colour throughout takes 100 examples from the National Portrait Gallery's collections ranging from the magnificence of the Tudor monarchs to the often understated yet equally telling costume of the 1990s and through them explores the purpose and original context of the dress in which each sitter chose to be recorded **Marie Laurencin** Elizabeth Louise Kahn, 2003 Until now Marie Laurencin has attracted only sporadic attention by late twentieth century art historians in spite of the noticeable reputation she made in Paris in the first half of the twentieth century The substance of her art and the feminist issues that were entangled in her life have been only narrowly examined and the terms of her lesbian identity have been overlooked In this case study of *une femme inadaptée* and an unfit feminist Elizabeth Kahn re-situates Laurencin in the ongoing feminist debates that enrich the disciplines of art history women's studies and literary criticism Incorporating feminist theory and building on the work of contemporary feminist art historians she avoids the heroics of conventional biography instead allowing her subject to participate in the historical collective of women's work Provocative and engagingly written this fresh new study of Marie Laurencin's life and works also explores the multiple valences by which to connect the histories of and find new connections between women artists across the twentieth century **The Doni Family, Raphael and Michelangelo** Alice M. Park, 2009 **British Mezzotint Portraits** John Chaloner Smith, 1884
