Learning from the West? Dan Hough, William E. Paterson, Sloam James, 2014-02-04 Learning from the West brings insight into political life after the collapse of communism and the fall of the Iron Curtain in the late 1980s For Communist parties and their successors CSPs the challenge was perhaps the greatest to redefine themselves within new westernised political systems As these parties sought to adapt their programmatic appeals to their new environments they searched for policies from abroad that could fit these new political

structures The political parties of Western Europe provided a rich range of programmes from which policies could be drawn This book analyses how to what extent and under what conditions external influences came to bear on the programmatic development of CSPs It argues that while some parties remain neo communist in orientation growling about the evils of capitalism on the far left of their respective political systems others have developed into social democratic actors embracing programmatic ideals that often bear a strong resemblance to those of centre left actors in Western Europe This book was previously published as a special issue of The Journal of Communist Studies and Transition Politics

Taming Leviathan Colleen Dyble,2008 In the last fifty years many aspects of socialism have been rolled back around the world Indeed in the 1990s following the collapse of communism in Central and Eastern Europe it seemed as if classical liberal ideas had triumphed But this did not happen by accident The role of free market think tanks was critical This volume draws on the experiences of thirteen authors involved in classical liberal think tanks in different parts of the world The contributors identify the strategies that have proved successful in influencing the public policy and explain how they can be adapted to local circumstances Indeed though the war of ideas has been hard fought it has been only partially won New threats to freedom have emerged including environmentalism and big government conservatism In some countries the burden taxation and regulation has never been greater Taming Leviathan is essential reading for anyone involved in the battle against resurgent collectivism
