The Spirit Can Crest Steven Riel, 2004-03 **RE:AL**, 2006 *The Limits of Dream* J. F. Pagel, 2010-07-28 The Limits of Dream focuses on what we currently know of the human central nervous system CNS examining the basic sciences of neurochemistry neuroanatomy and CNS electrophysiology as these sciences apply to dream then reaching beyond basic science to examine the cognitive science of dreaming including the processes of memory the perceptual interface and visual imagery Building on what is known of intrapersonal CNS processing the book steps outside the physical body to explore artificially created dreams and their use in filmmaking art and story as well as the role of dreaming in creative process and creative madness The limits of our scientific knowledge of dream frame this window that can be used to explore the border between body and mind What is known scientifically of the cognitive process of dreaming will lead the neuroscientist the student of cognitive science and the general reader down different paths than expected into an exploration of the fuzzy and complex horizon between mind and brain The clearest presentation of research and philosophy currently available relating to the mind brain interface Discusses the cognitive processes of dreaming utilized in film and artificial intelligence Describes the functioning of dream in the creative process **The Poetics of Sleep** Simon Wortham, 2013-01-03 To what extent does sleep constitute a limit for the philosophical imagination Why does it recur throughout philosophy What is at issue in the repeated relegation of sleep to the realm of physiological study as in Kant Freud and Bergson in favour of promoting the critical investigation of dreams and dreaming as a key indicator of modernity Does philosophy entail a certain repression of the poetics of sleep in all its conceptual impossibility Through a series of engagements with key thinkers in modern European philosophy this book rearticulates a poetics of sleep at the heart of some of its seminal texts From the problematic yet instructive status of a Kantian discourse on sleep to the conceptual contradictions inherent in psychoanalytic thought and the rich possibilities of thinking sleep in the writings of Bergson Blanchot and Nancy the book's aim is to dredge the remains of sleep not to bring its secrets to the surface of waking life but instead to draw closer to what falls under or away in thinking and writing sleep *A Directory of American Poets and Fiction Writers* Poets and Writers, Inc. Roesler,2022-01-12 Träume und ihre Bedeutung haben Menschen schon immer beschäftigt und erscheinen oftmals seltsam bedeutungsvoll Aber hat der Traum Bedeutung Stellt er eine Verzerrung seiner tatsächlichen Inhalte dar oder eher eine umfassende Selbstdarstellung der Situation der Psyche Ist der Traum als ein neurotisches Symptom zu verstehen oder haben Träume nicht vielmehr ein kreatives und problematisches Potenzial Was bedeuten diese unterschiedlichen Auffassungen für die klinische Arbeit mit Träumen Auf Basis der empirischen Erkenntnisse beurteilt der Autor die Gültigkeit unterschiedlicher Traumtheorien und legt eine zeitgemäße forschungsbasierte Theorie des Traumes und seiner Funktion vor Ein Fokus liegt auf dem Vergleich zwischen Freud und Jung die gegensätzliche Auffassungen über den Traum und seine Bedeutung für die Persönlichkeit vertreten *Poets & Writers* ,2006 Descant ,2007 Traum und Traumdeutung Wolfgang

RAVENHILL PHILLIP L,1996-07-17 The Baule people of the Cote d Ivoire believe that each person has a mate of the opposite sex in the blole or otherworld an ideal place from which newborns arrive and to which the dead return In Dreams and Reverie Philip Ravenhill examines the fascinating figurative art created by the Baule to represent their otherworld mates discussing as well the psychological and existential meanings behind the images The existence of the otherworld person is usually first encountered by young adults who face a specific problem such as infertility or the failure to marry A figure is carved to represent the otherworld partner and to receive offerings on his or her behalf Ravenhill analyzes Baule figurative art within the context of three culturally defined processes the creation and consecration of the figures the interaction between the owner the figure and the spirit represented and the ongoing male female dialogue in which the art finds a place He argues that the art is best appreciated not at a cultural level but through the specificity and power of individual objects within their original context BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
